Darcy, 2013-06-25 This book traces the development of literary biography in the eighteenth century how writers melancholy was probed to explore the inner life Case studies of a number of significant authors reveal the 1790s as a time of biographical experimentation Reaction against philosophical biography led to a nineteenth century taste for romanticized lives **A Companion to Medieval Poetry** Corinne Saunders, 2010-04-12 MEDIEVAL POETRY In a series of original essays from leading literary scholars this Companion offers a chronological sweep of medieval poetry from Old English to the great genres of romance narrative and alliterative poetry of the 15th century Beginning in the Anglo Saxon period the volume explores the Old English language and its alliterative tradition before moving on to examine the genres of heroic devotional wisdom and epic poetry culminating in a discussion of arguably the founding text of the English literary canon the great epic Beowulf In part two the Companion moves on to discuss the linguistic and social changes brought about as a result of the Norman Conquest exploring how this influenced the development of literary genres Essays probe the shifts and continuities in genres such as lyric chronicle and dream vision and the emergence of new genres such as popular and courtly romance and drama A particular focus is the continuation of the alliterative tradition from the Anglo Saxon period to the fifteenth century A series of chapters on major authors including Chaucer Gower and Langland provide fresh approaches to reading and studying key texts such as The Canterbury Tales Piers Plowman and Sir Gawain and the Green Knight Finally the collection examines cultural change at the close of the medieval period and the variety of literature produced in the long fifteenth century including writing by and for women Scots poetry clerical and courtly works and secular and sacred drama The Youth of Things Stephen Dodd, 2014-01-31 When he died from tuberculosis at the age of thirty one Kajii Motojir had written only twenty short stories Yet his life and work it is argued here sheds light on a significant moment in Japanese history and ultimately adds to our understanding of how modern Japanese identity developed By the time Kajii began to write in the mid 1920s there was heated debate among his peers over legitimate forms of literary expression Japanese Romantics questioned the value of a western inspired version of modernity others were influenced by Marxist proletarian literature or modernist experimentation still others tried to create a distinctly Japanese fictional style that concentrated on first person

perspective the so called I novel There was a general sense that Japan needed to reinvent itself but writers and artists were at odds over what form this reinvention should take Throughout his career Kajii drew from these various camps but belonged to none of them making his work an invaluable indicator of a culture in crisis and transition The Youth of Things is the first full length book devoted to Kajii Motojir It brings together English translations of nearly all his completed stories with an analysis of his literature in the context of several major themes that locate him in 1920s Japan In particular Dodd links the writer s work with the physical body Kajii s subjective literary presence was grounded first and foremost in his TB stricken physical body hence one cannot be studied without the other His concerns with health and mortality drove him to play a central role in constructing a language for modern literature and to offer new insights into ideas that intrigued so many other Taisho intellectuals and writers In addition Kajii s early years as a writer were strongly influenced by the cosmopolitan humanism of the White Birch Shirakaba school but by the time his final work was published in the early 1930s an environment of greater cultural introspection was beginning to take root encapsulated in the expression return to Japan nihon kaiki Only a few years separate these two moments in time but they represent a profound shift in the aspirations and expectations of a whole generation of writers Through a study of Kajii s writing this book offers some sense of the demise of one cultural moment and the creation of another
