Double-cross Philip Monk, Douglas Gordon, Power Plant (Art gallery), York University (Toronto, Ont.). Art Gallery, 2003 How to double cross Hollywood as an artist This first monograph on British artist Douglas Gordon analyses all of the artist's video projection installations that are based on his appropriations of Hollywood film noir or Hitchcock films examining Gordon's language works as well Counter to the usual interpretations of Gordon's work as a dichotomy between good and evil Double Cross argues that his work is all about dissemblance with the dichotomy only one deception among others It also argues that with the inaugural separation of the components of sound and image in his work one of the artist's disguises is that of an author All the fragments of the artist's work projections language works photography add up to the production of a criminal author His final disguise is that of an experimental filmmaker whose subject is not the film noir themes of trust guilt fate and the madness of the double that appear as the content of his work but the temporality of the spectator's engagement

Ghosts By Daylight Janine di Giovanni, 2011-07-04 Before I reached the stairwell I saw something out of the corner of my eye A strange and beautiful man had dropped to his knees in front of me unencumbered unembarrassed I stopped short He was slender almost Asiatic looking wearing baggy combat trousers and a T shirt He was flirting and then he was laughing at my reaction There was not much for me to do but also smile Janine and Bruno first fell in love as young reporters in the besieged city of Sarajevo Years later after endless phone calls much of what the French call *malentendu* secret trysts in foreign cities numerous break ups three miscarriages countless stories of rebel armies and a dozen wars that had passed between them they arrive in Paris one rainy January to begin a new life together The remnants of their separate lives now left behind are tentatively unpacked into their shared apartment on the Right Bank Bruno s heavy blanket from Ethiopia a set of long feathered arrows from Brazil an ash tray stolen from a hotel in Algeria and Janine s flak jacket and canvas boots still full of sand from the Western Desert in Iraq But having met in another lifetime in another world ordinary civilian life doesn t come easily War has become part of them it had brought them together and though both are damaged by it neither can quite leave it behind And the difficult journey that follows through their mix of joy and terror at becoming parents Bruno s battle with post traumatic stress and addiction and Janine s determination to make France her home leads to an understanding of the truth that people who deeply love each other cannot always live together A searing profoundly moving love letter beautifully written Ghosts by Daylight is a powerfully raw portrait of marriage and motherhood in the aftermath of war

Ava Benton, Life s thrown me more curves than I care to count but nothing prepared me for Jenny Here I am a shifter with a penchant for danger and a heart that s been through the wringer My world is one of shadows and secrets where loyalty is earned and trust is a rare commodity Jenny stormed in like a hurricane a mesmer with eyes that promise both salvation and destruction Together we re entangled in a battle against curses that bind her and enemies that seek my downfall I ve danced with danger all my life but Marcus is a different kind of peril I m a mesmer caught in the web of a curse that threatens to consume me My life is a maze of betrayals each more disheartening than the last Then comes Marcus a shifter with a shadowed heart and a determination that both frightens and fascinates me *Aftershock* John Feffer,2017-11-15 In this unique panoramic account of faded dreams journalist John Feffer returns to Eastern Europe a quarter of a century after the fall of communism to track down hundreds of people he spoke to in the initial atmosphere of optimism as the Iron Curtain fell from politicians and scholars to trade unionists and grass roots activists What he discovers makes for fascinating if sometimes disturbing reading From the Polish scholar who left academia to become head of personnel at Ikea to the Hungarian politician who turned his back on liberal politics to join the far right Jobbik party Feffer meets a remarkable cast of characters He finds that years of free market reforms have failed to deliver prosperity corruption and organized crime are rampant while optimism has given way to bitterness and a newly invigorated nationalism Even so through talking to the region s many extraordinary activists Feffer shows that against stiff odds hope remains for the region s future

Architectures of Violence Kate Ferguson,2022-05-01 Paramilitary or irregular units have been involved in practically every case of identity based mass violence in the modern world but detailed analysis of these dynamics is rare Exploring the case of former Yugoslavia the genocides in Rwanda and Darfur and the ongoing violence in Syria Kate Ferguson exposes the relationships between paramilitaries state commands local communities and organized crime She presents these architectures of violence as a way of comprehending how the various structures of command and control fit together into domestic and international webs of support enabling and encouraging irregular and paramilitary violence Visible paramilitary participation in modern mass atrocities has succeeded in masking the continued dominance of the state in a number of violent crises Irregular combatants have participated so significantly in committing atrocity crimes because

political elites benefit from using unconventional forces to fulfil ambitions that violate international law and international policy responses are hindered when responsibility for violence is ambiguous Ferguson's inquiry into these overlooked dynamics of mass violence unveils substantial loopholes in current atrocity prevention architecture Until these are addressed state authorities will likely continue to use irregular combatants as perpetrators of atrocity Theory of World Security Ken Booth, 2007-12-20 What is real What can we know How might we act This book sets out to answer these fundamental philosophical questions in a radical and original theory of security for our times Arguing that the concept of security in world politics has long been imprisoned by conservative thinking Ken Booth explores security as a precious instrumental value which gives individuals and groups the opportunity to pursue the invention of humanity rather than live determined and diminished lives Booth suggests that human society globally is facing a set of converging historical crises He looks to critical social theory and radical international theory to develop a comprehensive framework for understanding the historical challenges facing global business as usual and for planning to reconstruct a more cosmopolitan future Theory of World Security is a challenge both to well established ways of thinking about security and alternative approaches within critical security studies **Technical Automation in Classical Antiquity** Maria Gerolemou, 2022-12-15 Technical automation the ability of man made or god made objects to move and act autonomously is not just the province of engineering or science fiction In this book Maria Gerolemou by taking as her starting point the close semantic and linguistic relevance of technical automation to natural automatism demonstrates how ancient literature performance and engineering were often concerned with the way nature and artifice interacted Moving across epic didactic tragedy comedy philosophy and ancient science this is a brilliant assembly of evidence for the power of automatic theatre in ancient literature Gerolemou starts with the earliest Greek literature of Homer and Hesiod where Hephaestus self moving artefacts in the Iliad reflect natural forces of motion and the manufactured Pandora becomes an autonomous woman Her second chapter looks at Greek drama where technical automation is used to augment and undermine nature not only through staging and costume but also in plot devices where statues come to life and humans behave as automatic devices In the third chapter Gerolemou considers how the philosophers of the 4th century BCE and the engineers of the Hellenistic period with their mechanical devices contributed to a growing dialogue around technical automation and how it could help its audience glance and marvel at the hidden mechanisms of self motion Finally the book explores the ways technical automation is employed as an ekphrastic technique in late antiquity and early Byzantium Kosova Express James Pettifer, 2005 James Pettifer outlines the interplay between the actuality on the ground and the perceptions of the conflict that were promoted in the international media He graphically describes the region's harsh yet beautiful landscape Kosova Express evokes the nightmare world of Milosevic's police state and the complexities of the foreign correspondent's life Jacket Trauma Journalism Mark H. Massé, 2011-10-06 A narrative approach advocating education for students and professionals on the impact of stress trauma and intervention in the life of a journalist
