**Catalogue of the King's Music Library, by William Barclay Squire ...** British Museum. Department of Printed Books. King's Music Library,William Barclay Squire,1929      *Salomone Rossi* Don Harrán,1999 Salamone Rossi c 1570 c 1628 occupies a unique place in Renaissance music culture he was the earliest outstanding Jewish composer to work in the European art music tradition In the field of instrumental music he established the trio sonata as a standard combination of

voices for 17th century chamber music and developed the sonata into a vehicle of virtuoso display In his vocal works he wrote music to texts of some of the most fashionable poets of his day including Battista Guarini Gabriello Chiabrera and Ottavio Rinuccini The mannerist poet Giovan Battista Marino particularly captured his attention with 33 settings of Marino's verses among them the remarkable Canzone de baci in eight strophes Rossi stands in the vanguard of contemporary literary developments Rossi composed a book of duets and trios Madrigaletti that paved the way for similar chamber works by Agostino Steffani and others from the late 17th and early 18th centuries Last but not least Rossi carved out his own niche in the history of sacred music by composing the first and only collection of polyphonic settings of Hebrew texts his Songs of Solomon before the mid nineteenth century As a Jewish composer working for the Gonzaga dukes in Mantua yet remaining faithful to his own religious community Rossi has a biography fraught with difficult and often exciting questions of a socio cultural order How Rossi solved or appears to have solved the problem of conflicting interests is a subject worthy of inquiry not only because we want to know more about Rossi but also because Rossi can stand as a paradigm for other Jewish figures who contemporary with him moved between different cultures

**Catalog of Pre-1900 Vocal Manuscripts in the Music Library, University of California at Berkeley** John A. Emerson, 2023-07-28 During the thirty five years from 1946 to 1981 the University of California Berkeley's Music Library amassed nearly 3 500 manuscript volumes thanks to the remarkable efforts of Professor Vincent H. Duckies. The Catalog of Pre 1900 Vocal Manuscripts focuses on the third major segment of the library's manuscript collection featuring over 700 vocal manuscripts with more than 3 300 separate compositions. These works encompass a wide range of musical styles religious and secular vocal and instrumental serious and popular and date from the eleventh to the late nineteenth century. Although the catalog does not include musical incipits it provides a valuable inventory of these manuscripts for scholars and researchers. The materials were acquired through various antiquarian dealers across Europe and the United States and while some background information may have been lost during transfers the manuscripts remain a rich resource for study. Emerson notes that the collection's value will ultimately be determined by the scholarly community whose research and exploration will continue to uncover the insights hidden within these historical documents. This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact. Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology. This title was originally published in 1988.

**Annales suisses de musicologie**, 2003 **Catalogue of Manuscript Music in the British Museum** British Museum. Department of Manuscripts, Augustus Hughes-Hughes, 1908 [The Grand Theater of the World](#) Valeria De Lucca, Christine Jeanneret, 2019-09-03 Music and space in the early modern world shaped each other in profound ways and this is particularly apparent when considering Rome a city that defined itself as the grande teatro del mondo. The aim of this book is to consider music and space as fundamental elements in the performance of identity in early modern Rome. Rome's unique milieu as defined by spiritual and political power as well as diplomacy and competition between aristocratic families offers an exceptionally wide array of musical spaces and practices to be explored from an interdisciplinary perspective. Space is viewed as the theatrical backdrop against which to study a variety of musical practices in their functions as signifiers of social and political meanings. The editors wish to go beyond the traditional distinction between music theatrical spectacles namely opera and other musical genres and practices to offer a more comprehensive perspective on the ways in which not only dramatic but also instrumental music and even the sounds of voices and objects in the streets relied on the theatrical dimension of space for their effectiveness in conveying social and political messages. While

most chapters deal with musical performances some focus on specific aspects of the Roman soundscape or are even intentionally silent dealing with visual arts and architecture in their performative and theatrical aspects The latter offer a perspective that creates a visual counterpoint to the ways in which music and sound shaped space

**The Gesualdo Hex: Music, Myth, and Memory** Glenn Watkins, 2010 A riveting investigation of one of the most provocative musicians of the Renaissance who continues to captivate composers artists and audiences today In this vivid tale of adultery and intrigue witchcraft and murder Glenn Watkins explores the fascinating life of the Renaissance composer Carlo Gesualdo a life suffused with scandal and bordering on the fantastical An isolated prince Gesualdo had a personal life that was no less eccentric and bewildering than the music he composed his biography has often clouded our perception of his oeuvre which music scholars have periodically dismissed as a late Renaissance deformation of little consequence Today however Gesualdo's music once deemed so strange as to be unperformable stands as one of the most vibrant legacies of the late Italian Renaissance with an undeniable impact on a host of twentieth century musicians and artists The incendiary details of Gesualdo's life recede and his grip on our musical imagination comes to the fore Watkins challenges our preconceptions of what has become a nearly mythic persona weaving together the cumulative experience of some of the most vibrant artists of the past century from Stravinsky and Schoenberg to Abbado and Herzog Beyond questions of mere influence however The Gesualdo Hex offers a profound meditation on cultural memory and historical awareness how composers attempt to shape the legacy they will bequeath to the world and how music and history inevitably take on a new guise as they are revisited by subsequent generations and reinterpreted in light of contemporary experience In examining Gesualdo's life music myth and memory intertwine with one another to reveal an uncanny affinity with our own time With his elegant and engaging prose Watkins asks us to grapple with our understanding not only of art and the artists who create it but also of history itself
