Magic And Modernity Interfaces Of Revelation And Concealment:

Magic and Modernity Birgit Meyer, Peter Pels, 2003 This is the first book to explore comparatively how magic usually portrayed as the antithesis of the modern is also at home in modernity **Magic and Modernity** Birgit Meyer, Peter Pels, 2022 Magic and Modernity is the first book to explore comparatively how magic usually portrayed as the antithesis of the modern is also something that is at home in modernity Magic and modernity are rarely regarded as belonging together Evolutionism regarded magic as quintessentially unmodern Although psychologists and romantic artists have sometimes declared magic to be a human universal few modern scholars in the humanities and social sciences have studied how modern culture and institutions incorporated and even produced magic This book is the first to adopt a comparative approach to the study of magic as something that has a place in modernity and that helped to constitute modern society at local and global levels The essays in this collection contribute to recent discussions in anthropology cultural studies comparative literature history and sociology that increasingly question the extent to which modern self conceptions are accurate reflections of a state of affairs in the world rather than cultural interventions **Engaging the Spirit World** Kirsten W. Endres, Andrea Lauser, 2012-03-01 In many parts of the contemporary world spirit beliefs and practices have taken on a pivotal role in addressing the discontinuities and uncertainties of modern life The myriad ways in which devotees engage the spirit world show the tremendous creative potential of these practices and their innate adaptability to changing times and circumstances Through in depth anthropological case studies from Indonesia Malaysia Thailand Myanmar Laos and Vietnam the contributors to this book investigate the role and impact of different social political and economic dynamics in the reconfiguration of local spirit worlds in modern Southeast Asia Their findings contribute to the re enchantment debate by revealing that the spirited modernities that have emerged in the process not only embody a distinct feature of the contemporary moment but also invite a critical rethinking of the concept of modernity itself Signal and Noise Brian Larkin, 2008-03-31 Examines the role of media technologies in shaping urban Africa through an ethnographic study of popular culture in northern Nigeria **Reframing the Ethnographic Museum** Michael Rowlands, Nick Stanley, Graeme Were, 2025-03-20 Since the later part of the twentieth century ethnographic museums have come under increasing scrutiny and many have reflected on and changed their presentation as they questioned collections so often made by colonial officials and explorers Now is a good time to explore whether new developments in display and cultural politics provide a viable future for ethnographic museums In particular policies for restitution by colonial era institutions create a changed landscape for ethnographic display both in the countries from which they originate and in former colonising states Reframing the Ethnographic Museum presents a wide range of cultural settings across the world where ethnographic displays have appeared in their local circumstances Non European museum strategies raise new problems but also new solutions Nationalism has been especially significant in museology in Asia and in Africa new museum objectives have emerged They

share a problematic future in a digital age when the aura of artefacts is challenged by digital repositories and a public less willing to travel to visit original objects Authors in this book grapple with the new complexities facing them as curators in the contemporary world Praise for Reframing the Ethnographic Museum Ethnographic museums have been controversial and have been undergoing re invention for decades They are considered illegitimate but have renewed prominence as highly visible contact zones and theatres of cross cultural mediation This book reviews and explores the sector with insight and nuance reporting the successes and failures of key curatorial projects both within Europe and across the Global South Nicholas Thomas University of Cambridge

The Anthropology of Magic Susan Greenwood, 2020-05-28 Magic is arguably the least understood subject in anthropology today Exotic and fascinating it offers us a glimpse into another world but it also threatens to undermine the foundations of anthropology due to its supposed irrational and non scientific nature Magic has thus often been explained away by social or psychological reduction The Anthropology of Magic redresses the balance and brings magic as an aspect of consciousness into focus through the use of classic texts and cutting edge research Suitable for student and scholar alike The Anthropology of Magic updates a classical

anthropological debate concerning the nature of human experience A key theme is that human beings everywhere have the potential for magical consciousness Taking a new approach to some perennial topics in anthropology such as shamanism mythology witchcraft and healing the book raises crucial theoretical and methodological issues to provide the reader with an engaging and critical understanding of the dynamics of magic Join the live discussion on Facebook [Regimes of Ignorance](#) Roy Dilley, Thomas G. Kirsch, 2015-10-01 Non knowledge should not be simply regarded as the opposite of knowledge but as complementary to it each derives its character and meaning from the other and from their interaction Knowledge does not colonize the space of ignorance in the progressive march of science rather knowledge and ignorance are mutually shaped in social and political domains of partial shifting and temporal relationships This volume s ethnographic analyses provide a theoretical frame through which to consider the production and reproduction of ignorance non knowledge and secrecy as well as the wider implications these ideas have for anthropology and related disciplines in the social sciences and humanities

Magic's Reason Graham M. Jones, 2017-12-06 In *Magic s Reason* Graham M Jones tells the entwined stories of anthropology and entertainment magic The two pursuits are not as separate as they may seem at first As Jones shows they not only matured around the same time but they also shared mutually reinforcing stances toward modernity and rationality It is no historical accident for example that colonial ethnographers drew analogies between Western magicians and native ritual performers who in their view hoodwinked gullible people into believing their sleight of hand was divine Using French magicians engagements with North African ritual performers as a case study Jones shows how magic became enshrined in anthropological reasoning Acknowledging the residue of magic s colonial origins doesn t require us to dispense with it Rather through this radical reassessment of classic anthropological ideas *Magic s Reason* develops a new perspective on the promise and peril of cross cultural comparison *Astrology and Popular Religion in the Modern West* Nicholas Campion, 2016-04-15 This book explores an area of contemporary religion spirituality and popular culture which has not so far been investigated in depth the phenomenon of astrology in the modern west Locating modern astrology historically and sociologically in its religious New Age and millenarian contexts Nicholas Campion considers astrology s relation to modernity and draws on extensive fieldwork and interviews with leading modern astrologers to present an invaluable contribution to our understanding of the origins and nature of New Age ideology This book challenges the notion that astrology is either marginal or a feature of postmodernism Concluding that astrology is more popular than the usual figures suggest Campion argues that modern astrology is largely shaped by New Age thought influenced by the European Millenarian tradition that it can be seen as an heir to classical Gnosticism and is part of the vernacular religion of the modern west **Coping with Versnel: A Roundtable on Religion and Magic** , 2023-05-25 Henk Versnel s work on ancient religion has been seminal For his 80th birthday a group of scholars assembled to celebrate and analyze his oeuvre What have been his most important insights What will he bequeath to the 21st century Specialists hold up to the light the main strands of Versnel s scholarship

and he reacts to their praise and critique An introduction that seeks to contextualize this oeuvre and a bibliography of Versnel's publications round out the picture of a scholar who has put his stamp on the study of ancient religions and magical practices and who has promoted the field in many ways especially as the driving force behind Brill's flagship series Religion in the Graeco Roman World of which this fittingly is the 200th volume

Political Magic Christopher F. Loar, 2014-06-05 Political Magic examines early modern British fictions of exploration and colonialism arguing that narratives of intercultural contact reimagine ideas of sovereignty and popular power These fictions reveal aspects of political thought in this period that official discourse typically shunted aside particularly the political status of the commoner whose liberty was often proclaimed even as it was undermined both in theory and in practice Like the Hobbesian sovereign the colonist appears to the colonized as a giver of rules who remains unruly At the heart of many texts are moments of savage wonder provoked by European displays of technological prowess In particular the trope of the first gunshot articulates an origin of consent and political legitimacy in colonial showmanship Yet as manifestations of force held in abeyance these technologies also signal the ultimate reliance of sovereigns on extreme violence as the less than mystical foundation of their authority By examining works by Cavendish Defoe Behn Swift and Haywood in conjunction with contemporary political writing and travelogues Political Magic locates a subterranean discourse of sovereignty in the century

after Hobbes finding surprising affinities between the government of savages and of Britons **The Long Life of Magical Objects** Allegra Iafrate, 2019-07-01 This book explores a series of powerful artifacts associated with King Solomon via legendary or extracanonical textual sources Tracing their cultural resonance throughout history art historian Allegra Iafrate delivers exciting insights into these objects and interrogates the ways in which magic manifests itself at a material level Each chapter focuses on a different Solomonic object a ring used to control demons a mysterious set of bottles that constrain evil forces an endless knot or seal with similar properties the shamir known for its supernatural ability to cut through stone and a flying carpet that can bring the sitter anywhere he desires Taken together these chapters constitute a study on the reception of the figure of Solomon but they are also cultural biographies of these magical objects and their inherent aesthetic morphological and technical qualities Thought provoking and engaging Iafrate's study shows how ancient magic artifacts live on in our imagination in items such as Sauron's ring of power Aladdin's lamp and the magic carpet It will appeal to historians of art religion folklore and literature **The New Lives of Images** Adrian J. Ivakhiv, 2025-09-30 In this ambitious new work eco philosopher and cultural theorist Adrian Ivakhiv presents an incisive new way of thinking about images and imagination Drawing upon an immense range of materials Ivakhiv reassesses the place of imagination in cultural life analyzing how people have interacted with images in the past and the ways that digital media are profoundly altering these relationships today The book contributes powerfully to the study of visual culture and digital media and provides provocative interpretations of a range of important artists and media movements from the work of photographer Edward Burtynsky the ambitious multi screen installations of John Akomfrah the abstract art of Swedish spiritualist Hilma af Klint and the Afrofuturism of jazz musicians like Sun Ra and poet Alexis Pauline Gumbs to the ever expanding universe of animal videos on YouTube Along the way the book delves into animacy and religious imagery iconophilia and iconoclasm divination and prophecy truthiness and enchantment networks online communities and artificial intelligence the political and affective economies of digital media and the role of utopian futurism in the present climate colonial Anthropocene predicament The result is a vital contribution toward a more empowering conception of the creative imagination and its possibilities in today's emerging digital ecology **The Lovelorn Ghost and the Magical Monk** Justin Thomas McDaniel, 2013-12-01 Focusing on representations of a famous ghost and monk from the late eighteenth century to today Justin Thomas McDaniel builds a case for interpreting modern Thai Buddhist practice through the movements of these transformative figures He follows embodiments of the ghost and monk in a variety of genres and media including biography drama ritual art liturgy film television and the Internet Sourcing nuns monks laypeople and royalty McDaniel shows how relations with these figures have been instrumental in crafting histories and modernities particularly local conceptions of being Buddhist and the formation and transmission of such identities across different venues and technologies **The Palgrave Walter Benjamin Handbook** Nathan Ross, 2025-02-26 Walter Benjamin is one of the most influential authors in contemporary humanities
