## **Magic Among The Ancients:**

*Magic Among the Ancients* Joseph Ennemoser, 2005-12 This scarce antiquarian book is a facsimile reprint of the original. Due to its age it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving and promoting the world's literature in affordable, high-quality modern editions that are true to the original work. [Magic in the Ancient Eastern Mediterranean](#) Nina Nikki, Kirsi M.J. Valkama, 2020-12-14 *Magic in the Ancient Eastern Mediterranean: Cognitive, Historical, and Material Perspectives* brings together articles with the shared conviction that the category of magic remains useful in religious studies and provides new insights to biblical and related texts and artifacts. Historically, magic has been considered in both scholarly and popular discourse to be questionable, obscure, and potentially subversive. 19th-century scholars of religion viewed magical beliefs and practices as primitive and inferior compared to Judeo-Christian forms of worship, which were considered true religion. More recently, the category has been defended, especially by scholars of the cognitive science of religion who find it useful for delineating a set of beliefs and practices fundamental to all forms of religion. The volume joins current scholarship in refraining from using the concept as an othering device and in arguing that it can still serve as a helpful analytical tool. In addition to analyzing the discourse on magic in both ancient literature and modern scholarship, the articles provide individual examples of how literary and material culture attest to the existence of magical beliefs and practices in sources from the Ancient Near East to the Byzantine Period. The book is divided into three parts. The contributions in the first part approach magic from the theoretical perspective of cognitive studies, ritual studies, and cultural evolution, while the rest of the book focuses on how magic and magicians are understood in ancient sources. The second part discusses a specific set of textual material dealing with blessings and curses. The third part of the volume discusses the world of various destructive celestial beings from which one and one's loved ones had to be defended, as well as the multitude of protective beings such as angels. **Magic and Ritual in the Ancient World** Paul Mirecki, Marvin Meyer, 2002-01-01 This volume contains a series of provocative essays that explore expressions of magic and ritual power in the ancient world. The essays are authored by leading scholars in the fields of Egyptology, ancient Near Eastern studies, the Hebrew Bible, Judaica, classical Greek and Roman studies, early Christianity and patristics, and Coptic and Islamic Egypt. The strength of the present volume lies in the breadth of scholarly approaches represented. The book begins with several papyrological studies presenting important new texts in Greek and Coptic, continuing with essays focusing on taxonomy and definition. The concluding essays apply contemporary theories to analyses of specific test cases in a broad variety of ancient Mediterranean cultures. [Magic in Ancient Greece and Rome](#) Lindsay C. Watson, 2019-05-02 Parting company with the trend in recent scholarship to treat the subject in abstract, highly theoretical terms, *Magic in Ancient Greece and Rome* proposes that the magic working of antiquity was in reality a highly pragmatic business with very clearly formulated aims.
