The Decisive Network

Nadya Bair, 2020 Since its founding in 1947 the legendary Magnum Photos agency has been telling its own story Its photographers were concerned witnesses to history and artists on the hunt for decisive moments their pictures were humanist documents of the postwar world Based in unprecedented archival research *The Decisive Network* peels back layers of the Magnum mythology to offer a new history of what it meant to shoot edit and sell news images after World War II Between the 1940s and 1960s Magnum expanded the human interest story about the everyday life of ordinary people to global dimensions while bringing the aesthetic of news pictures into new markets Its best known work started as humanitarian aid promotion travel campaigns corporate publicity and advertising Working with this range of clients Magnum made photojournalism integral to visual culture Yet Magnum s photographers could not have done this alone This book unpacks the collaborative nature of photojournalism as it transpired on a daily basis focusing on how picture editors sales agents spouses and publishers helped Magnum photographers succeed in their assignments and achieve fame *The Decisive Network* concludes in the late 1960s and early 1970s when amidst the decline of magazine publishing and the rise of an art market for photography Magnum turned to photo books and exhibitions to manage its growing picture archives and consolidate its brand In that moment Magnum s photojournalists became artists and their assignments turned into oeuvres Such ideas were necessary publicity and they also managed to shape discussions about photography for decades Bridging art history media studies cultural history and the history of communication this book transforms our understanding of the photographic profession and the global circulation of images in the pre digital world *Humanitarian Photography* Heide Fehrenbach, Davide Rodogno, 2015-02-23 For well over a century humanitarians and their organizations have used photographic imagery and the latest media technologies to raise public awareness and funds to alleviate human suffering This volume examines the historical evolution of what we today call humanitarian photography the mobilization of photography in the service of humanitarian initiatives across state boundaries and asks how we can account for the shift from the fitful and debated use of photography for humanitarian purposes in the late nineteenth century to our current situation in which photographers market themselves as humanitarian photographers This book investigates how humanitarian photography emerged and how it operated in diverse political institutional and social contexts bringing together more than a dozen scholars working on the history of humanitarianism international organizations and nongovernmental organizations and visual culture in Africa Asia the Middle East Europe and the United States **Peruvian Antiquities** Mariano Eduardo de Rivero y Ustáriz, Johann Jakob von Tschudi, 1853 **Description of a New Craniometer, and of an Exact Method of Taking and Recording Cranial Measurements, &c., &c** John Grattan, 1863 **Bonica's Management of Pain** Scott M.
