Monarchy Community:

Community, Identity and the State Moshe Gammer, 2004-08-27 The studies in this volume originated from an international conference on Community Identity and the State held at Tel Aviv University in 2001 The first two chapters examine whether modernisation Westernisation and democratisation are identical and whether democracy is connected to a certain specific type of social structure The third examines similarities in the political economic and social development of Second World and Third World countries while the fourth discusses the relationship between criminal and normal structures in Russian society Subsequent chapters focus on nationalism using case studies from Argentina Syria and Morocco on the Ulama and national movements in the Middle East on Islamic nationalism in Iran and on the discourse between pan Africanism and Islam The final two chapters examine the effects on tribal politics of the exploitation of oil in Abu Dhabi and the problems of the Kurds in northern Iraq

Community Engagement after Christendom Douglas G. Hynd, 2022-02-25 The post Christendom era in the English speaking world has seen a significant reduction in access to political power by the churches a slow loss of their social and cultural influence and a shredding of their moral standing from abuse scandals and other public failings *Community Engagement after Christendom* directly addresses these challenges proposing a different approach to the relationship between church and society Church agencies today are often entangled in contracting with the state and its private partners to deliver government policy and services This means they can be increasingly vulnerable to external pressure So what resources can they and their agencies draw upon to reshape community engagement in a difficult unsettling context *Community Engagement after Christendom* proposes a multifaceted approach It begins by reading Scripture afresh through questions shaped by the present situation Douglas Hynd then explores the story of Anabaptist public servant Pilgram Marpeck identifying how his critique of Christendom can help reshape our understanding today Finally he looks at the current experience of church related agencies and Christian advocacy suggesting fresh imaginative ways forward

Visions of World Community Jens Bartelson, 2009-10-01 Throughout the history of Western political thought the creation of a world community has been seen as a way of overcoming discord between political communities without imposing sovereign authority from above Jens Bartelson argues that a paradox lies at the centre of discussions of world community The very same division of mankind into distinct peoples living in different places which makes the idea of a world community morally compelling has also been the main obstacle to its successful realization His book offers a philosophical and historical analysis of the idea of world community by exploring the relationship between theories of world community and changing cosmological beliefs from the late Middle Ages to the present

American Government Calvin C. Jillson,2013 An introductory American government textbook should do more than simply tell students that politics is relevant today that it will affect their lives in meaningful ways Students are best prepared to recognize this basic fact when they understand the bigger picture of how the system works how it got that way and what are the possibilities for change Cal Jillson s *American Government Political Development and Institutional Change* shows students how the nation s past is present in all aspects of contemporary politics using the dynamics of change as a tool to understand how politics works and how institutions systems avenues of participation and policies have evolved over time to produce today s political environment in the United States Going one step further Jillson identifies the critical question of how American democracy might evolve further focusing in every chapter on reform and change into the future

the history culture and politics of the Olukumi people a marginalised Yoruba community unlike others that had hitherto been the subject of mainstream literature and debates The Olukumi people are a bilingual both Yoruba and Ibo and sophisticated Black African community who were the first humans to inhabit their indigenous homeland but continue to be marginalised and discriminated by the majority newly arrived neighbours The community practiced female to female marriages long before minority rights like the LGBTQIA rights came to be recognised even in so called advanced Western countries like America and in Europe It is because the Olukumis face appalling discrimination and deprivation at home that they continue to migrate Yet their culture of respect for minorities and tolerance for diverse opinions still survive This book is about war and diplomacy It is also about migration and settlement as well as a people s determination for survival and coexistence It is told from an exclusively Olukumi perspective and written by an Olukumi indigene

Rosenthal,2008-05-06 *Crown under Law* is an account of how and why the constitutional idea arose in early modern England The book focuses on two figures Richard Hooker and John Locke Rosenthal represents Hooker as a transitional figure who follows in the medieval natural law tradition even while laying the groundwork for Locke s political thought The book challenges the influential interpretation of Locke by Leo Strauss who saw Locke as a radical modernist by illustrating the lines of continuity between Locke s argument in the Two Treatises of Government and the earlier political tradition represented by Hooker By illustrating the often distinctive manner in which Hooker addressed the great questions and how he powerfully affected later developments such as Locke s conception of the state Rosenthal s *Crown under Law* establishes the important place of Richard Hooker in the history of political thought
