**Monetary Cooperation Between East and West** Adam Zwass, 2017-07-28 The fifth volume of the Institute series Comparative Studies in Economics and Economic Systems treats the problems of monetary relations between East and West. The author Dr Adam Zwass brings his extensive knowledge of monetary relations in Eastern Europe gained while he held a number of posts in Poland and during his association with the CMEA Secretariat in Moscow. It was not the author's intention to draw up a master plan for closer cooperation between the two monetary systems which differ widely in many respects. His main concern is the Eastern monetary system and its instruments. Institutions and functions are subjected to a thorough analysis. Problems are pinpointed and suggestions made for improvements. Finally Dr Zwass considers the prospects for the development of a worldwide currency system. It is hoped that his book will stimulate further research that would pave the way for productive cooperation between East and West in monetary relations. This title was first published in 1975.

Watts, 1978-12-14      **East-West Financial Relations** Ilana Zloch-Christy, 1991-04-26 The impact of Eastern Europe's convertible currency external debt situation on the financing of East-West trade in the late 1980s and early 1990s      **Industrial Cooperation between East and West** Friedrich Levčik, Jan Stankovsky, 2017-09-08 This title was first published in 1979. A number of valuable and interesting publications have appeared in the last few years on East-West cooperation. These studies, which by means of interviews and direct contacts with the firms concerned, have shed some light on a subject that in the past had remained little known, also provided us with extremely valuable incentives. Most of these studies dealt only with individual aspects of cooperation, particularly the legal and microeconomic aspects. The quantitative data used, however, did not easily lend themselves to comparison. Eastern European studies more often contained the views of the respective governments than the experiences of enterprises involved in cooperative undertakings. In this book the authors have attempted to provide a unified picture of the most important problems of East-West cooperation. The motivations and goals of those concerned in all their microeconomic, macroeconomic, commercial and political aspects are brought together with the pertinent legal and institutional factors and are analyzed.

*East-West Relations and the Future of Eastern Europe* Morris Bornstein, Zvi Gitelman, William Zimmerman, 2024-11-18 Both domestic and foreign policy considerations led Eastern European nations in the 1970s to involve their economies more deeply with the West. This increased economic interdependence encompassed trade, technology transfer, through industrial cooperation and international credit. These growing links came as a mixed blessing as Western economic problems (inflation, recession, unemployment, energy) began to affect the economic development and political stability in Eastern Europe. First published in 1981, *East-West Relations and the Future of Eastern Europe* examines the implications of these problems for East-West relations and the domestic scene in Eastern Europe. The authors analyze the interaction of economic and political

forces at three interlocking levels international regional and national The first part deals with the evolution of East West political and economic relations in the 1970s and the prospects for the 1980s and considers the implications of developments in East West relations for Soviet and East European regional economic political and military ties Thereafter experts from East and West offer their perspectives on political economic strategies for individual East European countries in the context of their regional and international relations This book will be of interest to students of comparative economics international trade and international relations

Economic Adjustment and Reform in Eastern Europe and the Soviet Union Franklyn D. Holzman,1988 Economic reform structural adjustment macroeconomic stabilization and participation in the world economy are interconnected aspects of the same issue the long term economic viability of centrally planned economies in the rapidly changing economic environment of the modern world Any economic strategy that focuses on only one or two of these aspects at the expense of the others is

likely to fail yet even strategies that build on all of these bases may well fail unless political leaders can muster exceptional skill garner international support and enjoy some good luck The contributions to this volume reflect the recent research on this issue by various specialists on the economies of the Soviet Union and Eastern Europe Each author emphasizes macroeconomic stabilization structural adjustment participation in the larger world economy or economic reform     **The Helsinki Process and East West Relations** United States.
