"*Marketing Art in the British Isles, 1700 to the Present* " Charlotte Gould, 2017-07-05 A cultural history of the first truly modern art market Marketing Art in the British Isles 1700 to the Present furthers the burgeoning exploration of Britain s struggle to carve a niche for itself on the international art scene Bringing together scholars from the UK US Europe and Asia this collection sheds new light on such crucial notions as the internationalization of the art market the emergence of an increasingly complex exhibition culture issues of national rivalry and emulation artists individual and collective strategies for their own promotion and survival the persistent anti commercialism of an elite group of art lovers and critics and accusations of philistinism levelled at the middle classes as well as an unquestionable native British genius at reconciling jarring discourses Essays explore the unresolved tension between artistic aspirations and commercial interest a tension that has come to shape Britain s national artistic tradition from the perspectives of artists dealers and super collectors and the upwardly mobile middle classes whose consumerism gave rise to the British art market as it is known today Specific case studies include Whistler Roger Fry Damien Hirst and Charles Saatchi essays consider art markets from London and Manchester to Paris and Flanders **Art Collecting and Middle Class Culture from London to Brighton, 1840-1914**

David Adelman, 2024-06-28 This study explores the interplay between money status politics and art collecting in the public and private lives of members of the wealthy trading classes in Brighton during the period 1840-1914. Chapters focus on the collecting practices of five rich and upwardly mobile Victorians: William Coningham (1815-84), Henry Hill (1813-82), Henry Willett (1823-1905) and Harriet Trist (1816-96) and her husband John Hamilton Trist (1812-91). The book examines the relationship between the wealth of these would-be members of the Brighton bourgeoisie and the social and political meanings of their art collections paid for out of fortunes made from sugar, tailoring, beer and wine. It explores their luxury lifestyles and civic activities including the making of Brighton Museum and Art Gallery which reflected a paradoxical mix of patrician and liberal views of aristocratic aspiration and radical rhetoric. It also highlights the centrality of the London art world to their collecting facilitated by the opening of the London to Brighton railway line in 1841. The book will be of interest to scholars working in art history, museum studies and British history.

Radical Art and the Formation of the Avant-Garde David Cottington, 2022-03-08 An authoritative redefinition of the social, cultural and visual history of the emergence of the avant-garde in Paris and London. Over the past fifty years the term avant-garde has come to shape discussions of European culture and modernity ubiquitously taken for granted but rarely defined. This ground-breaking book develops an original and searching methodology that fundamentally reconfigures the social, cultural and visual context of the emergence of the artistic avant-garde in Paris and London before 1915, bringing the material history of its formation into clearer and more detailed focus than ever before. Drawing on a wealth of disciplinary evidence from socio-economics to histories of sexuality, bohemia, consumerism, politics and popular culture, David Cottington explores the different models of cultural collectivity in and presumed hierarchies between these two focal cities while identifying points of ideological influence and difference between them. He reveals the avant-garde to be at once complicit with, resistant to and a product of the modernizing forces of professionalization, challenging the conventional wisdom on this moment of cultural formation and offering the means to reset the terms of avant-garde studies.

Paintings and the Past Ivan Gaskell, 2019-05-13 This book is an exploration of how art specifically paintings in the European manner can be mobilized to make knowledge claims about the past No type of human made tangible thing makes more complex and bewildering demands in this respect than paintings Ivan Gaskell argues that the search for pictorial meaning in paintings yields limited results and should be replaced by attempts to define the point of such things which is cumulative and ever

subject to change He shows that while it is not possible to define what art is other than being an open kind it is possible to define what a painting is as a species of drawing regardless of whether that painting is an artwork or not at any given time The book demonstrates that things can be artworks on some occasions but not necessarily on others though it is easier for a thing to acquire artwork status than to lose it That is the movement of a thing into and out of the artworld is not symmetrical All such considerations are properly matters not of ontology what is and what is not an artwork but of use that is how a thing might or might not function as an artwork under any given circumstances These considerations necessarily affect the approach to paintings that at any given time might be able to function as an artwork or might not be able to function as such Only by taking these factors into account can anyone make viable knowledge about the past This lively discussion ranges over innumerable examples of paintings from Rembrandt to Rothko as well as plenty of far less familiar material from contemporary Catholic devotional works to the Chinese avant garde Its aim is to enhance philosophical acuity in respect of the analysis of paintings and to increase their amenability to philosophically satisfying historical use Paintings and the Past is a must read for all advanced students and scholars concerned with philosophy of art aesthetics historical method and art history

Cleansing the City Sanitary Geographies in Victorian London explores not only the challenges faced by reformers as they strove to clean up an increasingly filthy city but the resistance to their efforts Beginning in the 1830s reform minded citizens under the banner of sanitary improvement plunged into London's dark and dirty spaces and returned with the material they needed to promote public health legislation and magnificent projects of sanitary engineering Sanitary reform however was not always met with unqualified enthusiasm While some improvements such as slum clearances the development of sewerage and the embankment of the Thames may have made London a cleaner place to live these projects also destroyed and reshaped the built environment and in doing so altered the meanings and experiences of the city From the novels of Charles Dickens and George Gissing to anonymous magazine articles and pamphlets resistance to reform found expression in the nostalgic appreciation of a threatened urban landscape and anxiety about domestic autonomy in an era of networked sanitary services Cleansing the City emphasizes the disruptions and disorientation occasioned by purification a process we are generally inclined to see as positive By recovering these sometimes oppositional sometimes ambivalent responses Michelle Allen elevates a significant undercurrent of Victorian thought into the mainstream and thus provides insight into the contested nature of sanitary modernization *Tampa Bay Magazine* , 2005-01 Tampa Bay Magazine is the area's lifestyle magazine For over 25 years it has been featuring the places people and pleasures of Tampa Bay Florida that includes Tampa Clearwater and St Petersburg You won't know Tampa Bay until you read Tampa Bay Magazine **Tampa Bay Magazine** , 2005-03 Tampa Bay Magazine is the area's lifestyle magazine For over 25 years it has been featuring the places people and pleasures of Tampa Bay Florida that includes Tampa Clearwater and St Petersburg You won't know Tampa Bay until you read Tampa Bay Magazine **Fleeting Impressions** James McNeill Whistler, 2006
