Analysis ,1988 **A Sociolegal Analysis of Formal Land Tenure Systems** Bernardo Ribeiro de Almeida,2022-03-24 This
sociolegal study focuses on the political legal and institutional problems and dilemmas of regulating land tenure By studying
the development of the Timorese formal land tenure system this book engages in the larger debate about the role of state
systems in addressing and aggravating social problems such as insecurity poverty inequality destruction of nature and
cultural and social estrangement Land tenure issues in Timor Leste are complex and deeply shaped by the nation s history
Taking an insider s perspective based on the author s experience in Timorese state administration and through the
investigation of five analytical themes political environment lawmaking legal framework institutional framework and social
relationships and practices this book studies the development of the Timorese formal land tenure system from independence
in 2002 to 2018 It shows how political legal and administrative decisions on land administration are made what and who
influences them which problems and dilemmas emerge and how the formal system works in practice The result is a portrait
of a young nation grappling with the enormous task of creating a land tenure system that can address the needs of its
citizens in the wake of centuries of socio political tumult and huge fluctuations in resources The book concludes by
highlighting the importance of lawmaking and how abuses of power can be curbed by adequate administrative processes and
laws Finally it argues that land administration is primarily a political matter The political dimension of technical solutions
must be considered if we aim to achieve fairer formal land tenure systems The pertinence of the topics covered the multi
disciplinary perspective and the research methodology followed make this book appealing to a variety of readers including
international organizations practitioners academics and students engaged in land administration post colonial and conflict
