wreckage      *The Marx Machine* Charles Barbour, 2012-01-01 This book employs recently developed techniques of literary criticism philosophical argumentation and bibliographical or manuscript analysis to bring Marx's early works and especially his early polemics into conversation with his most contemporary post Marxist critics It argues that some of Marx's best known concepts ideology and historical materialism for example in fact represent responses to the kinds of arguments that many people mount against them today      *Theory as Critique: Essays on Capital* Paul Mattick, 2018-06-12 Theory as Critique while discussing many central issues of Marxian theory has two main emphases First as the title suggests it takes seriously Capital's claim to be a critique of economic theory rather than a contribution to political economy Understanding what this means it shows goes far to unravelling many difficulties traditionally found in Marx's book from the nature of his theory of class to the transformation problem Secondly Mattick's volume carefully explores how to bridge the gap between the extreme abstraction of Marx's ideas and the complex reality that they are intended to help us understand      **A Companion to African-American Studies** Jane Anna Gordon, Lewis Gordon, 2008-04-15 A Companion to African American Studies is an exciting and comprehensive re appraisal of the history and future of African American studies Contains original essays by expert contributors in the field of African American Studies Creates a groundbreaking re appraisal of the history and future of the field Includes a series of reflections from those who established African American Studies as a bona fide academic discipline Captures the dynamic interaction of African American Studies with other fields of inquiry      **Breaking Rocks** Joe Trapido, 2016-12-01 Based on fieldwork in Kinshasa and Paris Breaking Rocks examines patronage payments within Congolese popular music where a love song dedication can cost 6 000 dollars and a simple name check can trade for 500 or 600 dollars Tracing this system of prestige through networks of musicians and patrons who include gangsters based in Europe kleptocratic politicians in Congo and lawless diamond dealers in northern Angola this book offers insights into ideologies of power and value in central Africa's troubled post colonial political economy as well as a glimpse into the economic flows that make up the hidden side of the globalization      **Freedom's Progress?** Gerard Casey, 2021-10-04 In Freedom's Progress Gerard Casey argues that the progress of freedom has largely consisted in an intermittent and imperfect transition from tribalism to individualism from the primacy of the collective to the fragile centrality of the individual person and of freedom Such a transition he argues neither automatic nor complete nor are relapses to tribalism impossible The reason for the fragility of freedom is simple the importance of individual freedom is simply not obvious to everyone Most people want security in this world not liberty Libertarians writes Max Eastman used to tell us that the love of freedom is the strongest of political motives but recent events have taught us the extravagance of this opinion The herd instinct and the yearning for paternal authority are often as strong Indeed the tendency of men to gang up under a leader and submit to his will is of all political traits the best attested by history The charm of the collective exercises a perennial magnetic attraction for the human spirit In the 20th century Fascism Bolshevism and National Socialism were Casey argues each of them a

return to tribalism in one form or another and many aspects of our current Western welfare states continue to embody tribalist impulses Thinkers you would expect to feature in a history of political thought feature in this book Plato Aristotle Machiavelli Locke Mill and Marx but you will also find thinkers treated in Freedom s Progress who don t usually show up in standard accounts Johannes Althusius Immanuel Kant William Godwin Max Stirner Joseph Proudhon Mikhail Bakunin Pyotr Kropotkin Josiah Warren Benjamin Tucker and Auberon Herbert Freedom s Progress also contains discussions of the broader social and cultural contexts in which politics takes its place with chapters on slavery Christianity the universities cities Feudalism law kingship the Reformation the English Revolution and what Casey calls Twentieth Century Tribalisms Bolshevism Fascism and National Socialism and an extensive chapter on human prehistory Marx's Wager Thomas Kemple,2022-10-13 Marx s masterpiece Capital Das Kapital ignored or misread as well as selectively and creatively interpreted by the generation of social scientists that came after him Emile Durkheim Max Weber and Georg Simmel attempt to supplement what they call historical materialism or to engage in debates about socialism through their readings of The Communist Manifesto and occasional Capital Although these and other classical sociologists did not have access to most of Marx s published and unpublished works as we do today each is concerned with revising and refining Marx s unfinished critique of political economy Despite their differences with Marx and with one another they share his concern with how empirically detailed and scientifically valid knowledge of the social world may inform historical struggles for a more human world This commitment can be called Faustian after the title character of the poet J W von Goethe s tragic epic of modernity insofar as Marx and the classical sociologists hope to translate theory into practice while making a pact or wager with the diabolical social political and economic forces of the modern world Marx's Temporalities Massimiliano Tomba,2012-11-09 The book rethinks the central categories of Marx s work beyond any philosophy of history providing a critical analysis of his political and theoretical development from his early writings to the elaboration of the critique of political economy and his final anthropological studies on pre individualistic and communist forms The study aims to integrate the paradigm of the spatialisation of time with that of the temporalisation of space showing how capital places diverse temporalities into hierarchies that incessantly produce and reproduce new forms of class struggle An adequate historiographical paradigm for globalised capitalism has to consider the plurality of temporal layers that are combined and come into conflict in the violently unifying historical dimension of modernity **The Oxford Handbook of the Sociology of Finance** Karin Knorr Cetina,Alex Preda,2012-11-29 The Handbook brings together leading international scholars to provide a comprehensive overview of research and theory on the sociology of finance and the workings of financial institutions and financial markets It will serve as a reference point for this rapidly expanding discipline **Money as a Social Institution** Ann Davis,2017-07-14 Money is usually understood as a valuable object the value of which is attributed to it by its users and which other users recognize It serves to link disparate institutions providing a disguised whole and prime tool for the

invisible hand of the market This book offers an interpretation of money as a social institution Money provides the link between the household and the firm the worker and his product making that very division seem natural and money as imminently practical Money as a Social Institution begins in the medieval period and traces the evolution of money alongside consequent implications for the changing models of the corporation and the state This is then followed with double entry accounting as a tool of long distance merchants and bankers then the monitoring of the process of production by professional corporate managers Davis provides a framework of analysis for examining money historically beyond the operation of those particular institutions which includes the possibility of conceptualizing and organizing the world differently This volume is of great importance to academics and students who are interested in economic history and history of economic thought as well as international political economics and critique of political economy
