while in other instances the domestic group was split and members preferred to pursue individual strategies This illuminating book examines the European past using case studies from present day situations in Asia and Africa

Livelihood and Microfinance Hotze B. Lont, Otto Hospes, 2004 Publisher Description **Beyond the Resources of Poverty** Sebnem Eroglu, 2016-04-08 This groundbreaking volume researches the lives of gecekondu settlers in the capital city of Turkey in order to understand how households cope with poverty and why some households are more successful than others in reducing their deprivation It takes a critical stance towards existing conceptions such as household survival livelihood and coping strategy and develops an alternative model based on four types of household response to poverty income generation income allocation consumption and investment In explaining household responses and their outcomes for poverty the book demonstrates the role of different resources beyond income including social economic and cultural capital It emphasises broader structural factors such as labour market processes and state policies which influence the availability and or benefit delivery capacity of household resources and thereby moves beyond the dominant view which overemphasises the resilience of the poor Gender divisions within the household are also examined The book adopts an innovative method for measuring poverty The new method combines objective and subjective dimensions of deprivation to develop a unique way of addressing two central questions what are those standards of living whose absence indicates deprivation and how can the value of each standard of living be determined *Gender and Social Protection in the Developing World* Rebecca Holmes, Nicola Jones, 2013-03-14 Millions of pounds of international development funds are invested annually in social protection programmes to tackle poverty Poverty is perpetuated by risk and vulnerability much of which is gendered Despite this little attention has been paid to gender sensitive policy and programme design and implementation *Gender and Social Protection in the Developing World* introduces a much needed gender lens to these debates Drawing on empirical evidence from poor households and communities in Africa Asia and Latin America the book provides rich insight into the effects of a range of social protection instruments It concludes that with relatively simple changes to design and with investment in implementation capacity social protection can contribute to transforming gender relations at the individual intrahousehold and community levels With a foreword by Stephen Devereux **Workers of the World** Marcel van der Linden, 2008-10-02 The studies offered in this volume integrate the history of wage labor of slavery and of indentured labor They contribute to a Global Labor History freed from Eurocentrism and methodological nationalism
