Modern Mongolia Morris Rossabi, 2005-04-25 Land locked between its giant neighbors Russia and China Mongolia was the first Asian country to adopt communism and the first to abandon it When the Soviet Union collapsed in the early 1990s Mongolia turned to international financial agencies including the International Monetary Fund the World Bank and the Asian Development Bank for help in compensating for the economic changes caused by disruptions in the communist world Modern Mongolia is the best informed and most thorough account to date of the political economy of Mongolia during the past decade In it Morris Rossabi explores the effects of the withdrawal of Soviet assistance the role of international financial agencies in supporting a pure market economy and the ways that new policies have led to greater political freedom but also to unemployment poverty increasingly inequitable distribution of income and deterioration in the education health and well being of Mongolian society Rossabi demonstrates that the agencies providing grants and loans insisted on Mongolia s adherence to a set of policies that did not generally take into account the country s unique heritage and society Though the sale of state assets minimalist government liberalization of trade and prices a balanced budget and austerity were supposed to yield marked economic growth Mongolia the world s fifth largest per capita recipient of foreign aid did not recover as expected As he details this painful transition from a collective to a capitalist economy Rossabi also analyzes the cultural effects of the sudden opening of Mongolia to democracy He looks at the broader implications of Mongolia s international situation and considers its future particularly in relation to China

Mongolia in the Twentieth Century Stephen Kotkin, Bruce Allen Elleman, 2015-02-12 The remote vastness of Mongolia has remained somewhat of a mystery to most Westerners no less so in the 20th century Homeland of the legendary conqueror Chingiz Khan in modern times Mongolia itself has been the object of imperial rivalry For most of the 20th century it was under Soviet domination Mikhail Gorbachev began the withdrawal of Soviet troops from Mongolia in 1989 a process completed in 1992 By 1996 a coalition of opposition parties triumphed in national elections and Mongolia launched itself on a new course It is perhaps the most intriguing of the post community transition societies This volume examines Mongol history over the past century embracing not only Mongolia proper but also Mongol communities in Russia and China Contributions based on new archival research and the latest fieldwork are from the world s top experts in the field including four authors from Mongolia and others from Japan Russia Taiwan Great Britain and the United States Stephen Kotkin s introductory chapter is an overview of Mongol studies The essays in part 1 examine Sino Russian competition over Outer Mongolia Part 2 looks at international diplomacy in Mongolia including the role of Japan Part 3 focuses on contemporary issues ranging from economic and cultural change to emergent elites A concluding essay surveys Mongolian foreign policy

entri **From Yuan to Modern China and Mongolia** Morris Rossabi, 2015-01-27 This wide ranging work consisting of selected essays of Morris Rossabi reflects the diverse interests of a leading scholar of China and Inner Asia It encompasses the eras from the thirteenth century to the present territories stretching from China to Mongolia to Central Asia and to the Middle East and religions from Islam to Nestorian Christianity to Judaism and Confucianism in East Central and West Asia Rossabi first challenged the conventional wisdom concerning traditional Chinese foreign relations by showing the pragmatism of Chinese officials who were not bound by Confucian strictures and stereotypes about foreigners and were actually knowledgeable about neighboring regions His studies of the territories surrounding China led to the discovery of a major omission in historical writing the lack of a biography of Khubilai Khan one of the most renowned rulers in Eurasian history His biography of Khubilai resulted in further studies of the Mongolian legacy on global history and of the significant role of women in the Mongolian empire His repeated travels in Mongolia in turn stimulated an interest in modern Mongolia especially the turbulence following the turbulence after the collapse of socialism in 1990 a subject he writes about in this book The need for greater public knowledge and awareness of China Mongolia Central Asia the Silk Roads and Islam in Asia prompted Rossabi to write general occasionally pedagogical articles about these topics for a wider audience **Young Adults in Urban China and Taiwan** Désirée Remmert, 2019-08-22 This book compares aspirations and life choices among educated young adults in urban China and Taiwan As two places that share a cultural heritage but very different political and economic systems it assesses how the socio economic and political trajectories of China and Taiwan have influenced young people s decision making and the strategies they apply to realize their goals Drawing upon ethnographic research this book analyzes young adults choices in the areas of education career and marriage considering their individual social backgrounds and economic resources In this context it also discusses how feelings of hope doubt and disenchantment are mitigated by the specific societal atmospheres and ideological discourses Whereas stable employment and marriage appeared to be universal goals this book demonstrates how young adults in Beijing had more autonomy in decision making concerning individual life choices than those in Taipei Among other things China s demographic controls and urban migration policies appear to increase the independence of young people from their parents Further the prevalence of boarding school education in China compared to Taiwan provides an opportunity for earlier autonomy for young people in China Taking a comparative approach *Young Adults in Urban China and Taiwan* will be a valuable resource to students and scholars of Chinese Studies and Taiwan Studies as well as social and cultural anthropology and youth culture **Truth, History and Politics in Mongolia** Christopher Kaplonski, 2004-07-31 Using Mongolia as its example this book examines how knowledge is transmitted and transformed in light of political change by looking at shifting conceptions of historical figures It suggests that the reflection of people s concept of themselves is a much greater influence in the writing of history than has previously been thought and examines in detail how history was used to subvert the socialist project in Mongolia This is the first study of the symbolic struggle over

who controlled the past and the true identity of a Mongol fought between the ruling party and its protesters during the democratic revolution **Mongolia's Economic Transition and Development Challenges** Enkhbayar

Shagdar,2012-03-01 Mongolia began transforming its economy from the centrally planned command economy to a market oriented one in 1990 Conventional neo liberal policy packages were implemented almost simultaneously in a relatively short period of time which is known as a shock therapy transition However this study argues that the conventional neo liberal policy package implemented in a rapid manner would not succeed in transforming a centrally planned economy into a market oriented one unless a properly sequenced and firmly coordinated policies along with an accurately thought out program for economic transition are readily in place Similar to other transitional economies Mongolia experienced almost all forms of neo liberal policy syndrome and transitional difficulty along with the emergence of other social problems such as unemployment poverty and inequality The sluggish economic growth has been insufficient to bring the country out of the setbacks experienced in the initial years of transition After a passage of more than a decade the economy was still based on the primary industries with raw and semi processed materials from the mining and agriculture dominating the exports
