Sung Chull Kim,2023-03-01 In *China and Its Small Neighbors* Sung Chull Kim examines the political implications of the
economic asymmetry between China and its small neighbors part of wider changes in international relations brought about
by the rise of China While being critical of the current trend that focuses on the China U S rivalry alone Kim argues that a
microanalysis of China s advances toward its neighbors is a guide to understanding the trajectory of China s expanding
influence and transitions in world politics more broadly Economic asymmetry as seen in trade concentration non
transparency and reliance on bilateral aid has made China s small neighbors vulnerable on the political front thus generating
potential threats to their sovereignty and independence Because China has the upper hand in the bilateral relationships
these weak states practice dual core hedging as a strategy for survival They hedge on China for expected economic benefits
and at the same time hedge against their powerful neighbor to mitigate the risks involved in that hedging on Each small state
s mode of hedging depends on its degree of vulnerability and its availability of policy instruments such as multilateral
institutions and bilateral partnerships with extra regional powers **Associations' Publications in Print** ,1984 1981 in 2 v
