lighthouse up to date **Intimate Memories: Edge of Taos desert** Mabel Dodge Luhan,1933 Mabel Dodge Luhan's *Intimate Memories* offers the brilliantly edited memoirs of one woman's rebellion against the whole ghastly social structure under which the United States had been buried since the Victorian era. Luhan fled the Gilded Age prison of the upper classes to lead a life of notoriety among Europe and America's leading artists, writers, and social visionaries among them D. H. Lawrence, Gertrude Stein, and John Reed. *Intimate Memories* details Luhan's assemblage of a series of utopian domains aimed at curing the malaise of the modern age and shows Luhan not just as a visionary hostess but as a talented and important writer. *Proceedings of the American Antiquarian Society* American Antiquarian Society,1922 **Crossing** Sal Taylor Kydd,2024-10-15 Sal Taylor Kydd's book of photographs and poetry *Crossing* takes us on a meditative journey exploring the islands of the coast of Maine in Penobscot Bay. Through her delicate vignettes she explores how the history of these islands lives on in the land and in the remnants of what we leave behind, noting how our sense of what has gone before is intensified and palpable in these isolated settings. **Maine Photography** Libby Bischof, Susan Danly, Earle G. Shettleworth,2023-11-22 Maine has always played a rich and varied role in the art of photography. For hundreds of years, photographers like other artists have made their way to Maine to capture the natural beauty and human culture of the state. So too have many photographers come from Maine, and many contributions by Mainers have been made to the medium. *Maine in Photography* is the first comprehensive overview of the history of photography in the state. Providing basic knowledge of the most important people and institutions to have promoted photography, this volume also studies the ways in which photography has informed the understanding of the social and cultural history of Maine. Beginning with the earliest daguerreotype portraits of the 1840s, this history traces the growth of the medium, emphasizing key contributions such as the Stanley brothers' invention of the dry plate process through to the present. Key topics addressed throughout the book include the importance of photography in documenting labor and economic life, the close relationship between photography and the growth of tourism, and the role of Maine photographers in advancing the medium as a fine art form. Published in conjunction with the Maine Photo Project, this is a unique and timely addition to the body of work on the importance of Maine to American art.

Dogfish Memory Joseph A. Dane,2012-07-18 The Maine dogfish are gone, fished to the brink of extinction. Gone too is Linda Jane, and with her the love and the subjunctive Maine that they might have shared. And what of that fabled Old Maine? Is it gone for good? Written as a sailing chronicle, *Dogfish Memory* is the story of the search for an authentic Maine, a Maine of the past, whether historical or simply imagined, and a Maine of the present, one experienced by both permanent residents and seasonal ones, summerfolk. Joseph Dane is both. He has worked on commercial fishing boats as a local, and he has sailed the coast for years like those who are from away. *Dogfish Memory* tells the story of how his often conflicting Maines are intertwined. Authentic Maine is elusive; stories and even photographs of a past Maine often contradict the memories of those who have lived through the changes they record. *Dogfish Memory* is thus the story of loss, the loss of a Maine recalled and

imagined and the loss of the love with which Maine is irrevocably associated **The Ecology of Hope** Ted Bernard, Jora M. Young, 1997 The Ecology of Hope is a remarkably upbeat account of a number of communities where collaboration among different factions and interest groups has led to breakthrough consensus on plans for achieving sustainability The authors reveal the hopeful trend toward unanimous agreement on difficult local resource issues in forestry rangeland watershed and fisheries management in which citizens government business and even one time foes form exciting collaborative partnerships The Ecology of Hope recounts the stories of nine communities helping to blaze this new trail located as far apart as the Maine and Virginia coasts Tennessee Wisconsin California and the southwest The authors weigh what has worked and what has not and trace hopeful routes toward sustainable resource management applicable to communities everywhere
