HBO's Girls and the Awkward Politics of Gender, Race, and Privilege Elwood Watson, Jennifer Mitchell, Marc Edward Shaw, 2015-08-27 HBO's *Girls and the Awkward Politics of Gender, Race, and Privilege* is a collection of essays that examines the HBO program *Girls*. Since its premiere in 2012, the series has garnered the attention of individuals from various walks of life. The show has been described in many terms: insightful, out of touch, brash, sexist, racist, perverse, complex, edgy, daring, provocative, just to name a few. Overall, there is no doubt that *Girls* has firmly etched itself in the fabric of early twenty-first century popular culture. The essays in this book examine the show from various angles, including white privilege, body image, gender culture, race, sexuality, parental and generational attitudes, third-wave feminism, male emasculation, and immaturity, hipster, indie, and urban music, as it relates to Generation Y and Generation X. By examining these perspectives, this book uncovers many of the most pressing issues that have surfaced in the show while considering the broader societal implications therein.

The Feminist Uncanny in Theory and Art Practice Alexandra M. Kokoli, 2016-08-11 The Feminist Uncanny in Theory and Art Practice investigates the widely debated deeply flawed yet influential concept of the uncanny through the lens of feminist theory and contemporary art practice Not merely a subversive strategy but a cipher of the fraught but fertile dialogue between feminism and psychoanalysis the uncanny makes an ideal vehicle for an arrangement marked by ambivalence and acts as a constant reminder that feminism and psychoanalysis are never quite at home with one another The Feminist Uncanny begins by charting the uncanniness of femininity in foundational psychoanalytic texts by Ernst Jentsch Sigmund Freud Jacques Lacan and Mladen Dolar and contextually introduces a range of feminist responses and appropriations by Hélène Cixous Julia Kristeva and Sarah Kofman among others The book also offers thematically organised interpretations of famous artworks and practices informed by feminism including Judy Chicago's Dinner Party Faith Ringgold's story quilts and Susan Hiller's paraconceptualism as well as less well known practice such as the Women's Postal Art Even Feministo and the photomontages of Maud Sulter Dead lexicalised metaphors unhomey domesticity identity and dis identification and the tension between family stories and art's histories are examined in and from the perspective of different artistic and critical practices illustrating different aspects of the feminist uncanny Through a partisan yet comprehensive critical review of the fascinating concept of the uncanny The Feminist Uncanny in Theory and Art

Practice proposes a new concept the feminist uncanny which it upholds as one of the most enduring legacies of the Women's Liberation Movement in contemporary art theory and practice

Television Dialogue

Paulo Quaglio, 2009 This book explores a virtually untapped yet fascinating research area: television dialogue. It reports on a study comparing the language of the American situation comedy *Friends* to natural conversation. Transcripts of the television show and the American English conversation portion of the Longman Grammar Corpus provide the data for this corpus-based investigation, which combines Douglas Biber's multidimensional methodology with a frequency-based analysis of close to 100 linguistic features. As a natural offshoot of the research design, this study offers a comprehensive description of the most common linguistic features characterizing natural conversation. Illustrated with numerous dialogue extracts from *Friends* and conversation topics such as vague, emotional, and informal language are discussed. This book will be an important resource not only for researchers and students specializing in discourse analysis, register variation, and corpus linguistics, but also anyone interested in conversational language and television dialogue.
