Kaftarian, Abraham Wandersman, 2014-09-10 This Second Edition celebrates 21 years of the practice of empowerment evaluation a term first coined by David Fetterman during his presidential address for the American Evaluation Association Since that time this approach has altered the landscape of evaluation and has spread to a wide range of settings in more than 16 countries In this new book an outstanding group of evaluators from academia government nonprofits and foundations assess how empowerment evaluation has been used in practice since the publication of the landmark 1996 edition The book includes 10 empowerment evaluation principles a number of models and tools to help put empowerment evaluation into practice reflections on the history and future of the approach and illustrative case studies from a number of different projects in a variety of diverse settings The Second Edition offers readers the most current insights into the practice of this stakeholder involvement approach to evaluation Poverty Reduction and Pro-Poor Growth The Role of Empowerment OECD, 2012-04-27 Empowerment of those living in poverty is both a critical driver and an important measure of poverty reduction This report aims to build donor understanding of empowerment and how best to support it Empowering Rural Women Zubair Meenai, 2003 Women Self Help Groups Are Increasingly Being Used As Tool For Various Developmental Interventions Credit And Its Delivery Through Self Help Groups Have Also Been Taken As A Means For Empowerment Of Rural Women This Integrated Approach Whereby Credit Is Only An Entry Point And An Instrument To Operationalise Other Aspects Of Group Dynamics And Management Also Caters To The Need For Social Intermediation Of These Groups A Self Help Group Is Conceived As A Sustainable People S Institution That Provides The Poor Rural Women With Space And Support Necessary For Them To Take Effective Steps Towards Achieving Greater Control Of Their Lives It Is With This Perspective That This Book Has Been Attempted This Work Seeks To Elucidate And Simplify The Approach To Women S Empowerment Through Credit Based Self Help Groups By Both Providing The Theoretical Perspective As Well As Practical Guidance And Tips To Operationalise The Same This Book Is Meant Primarily As A First Level Reader For Middle Level Functionaries In The Development Sector The Process of Women's Empowerment Sara Longwe, 2024-09-17 This book begins with a cautionary tale about a development wide area in rural Zambia with the purpose of lessening the burden of labour on women who previously had to fetch water from faraway streams The result of the programme was exactly the opposite it had the actual effect of increasing women s burden of labour In this book Longwe and Clarke seek to explain how a more considered approach can avoid such farcical disaster Central to women s advancement is their own collective participation in the process of recognising and overcoming the instances of systemic gender discrimination which stand in their way The Longwe Empowerment Framework which provides the central core of this book sets out five essential elements of collective action by which women can obtain more control over their own labour and their own lives in a continuous process of increasing collective empowerment This empowerment process being self

generative is seen as being equally as important as the resulting material benefits Hope Chigudu a noted feminist and gender consultant concludes her preface to this book by writing that in a nutshell it offers an analytical framework for identifying the potentially progressive and regressive factors to anticipate at each stage of a women s empowerment programme and how to dance with the power dynamics that are inevitable in a patriarchal world

Innovations as Key to the Green Revolution in Africa Andre Bationo, Boaz Waswa, Jeremiah M. Okeyo, Fredah Maina, Job Maguta Kihara, 2011-08-30. Africa can achieve self-sufficiency in food production through adoption of innovations in the agriculture sector. Numerous soil fertility and crop production technologies have been generated through research; however, wide adoption has been low. African farmers need better technologies, more sustainable practices, and fertilizers to improve and sustain their crop productivity and to prevent further degradation of agricultural lands. The agricultural sector also needs to be supported by functional institutions and policies that will be able to respond to emerging challenges of globalization and climate change.

Empowering smallholders and family farms in Europe and Central Asia Food and Agriculture Organization of the United Nations, 2020-09-01. The farm structures in the countries in Eastern Europe and Central Asia are highly diverse but in most of the countries are still largely dominated by smallholders and family farms. Supporting smallholders and family farms is one of four priorities for the Food and Agriculture Organization of the United Nations. FAO in Europe and Central Asia confirmed by the FAO Regional Conference in 2018. FAO established in the region in 2014 the Regional Initiative on Empowering Smallholders and Family Farms for Improved Rural Livelihoods and Poverty Reduction. Regional Initiative 1 as a programmatic umbrella for the implementation of support to smallholders and family farms in the programme countries in the region. During 2018-2019, FAO REU conducted country studies on the needs and constraints of smallholders and family farms in eight countries of the region. Seven of these were funded from a regional project TCP/RER/3601 and the Serbian study was financed from extra-budgetary funds. The countries were selected from among those where smallholders and family farms dominate the farm structures and from the various sub-regions so that together they provide a regional overview. The countries covered in the report are Albania, Armenia, Georgia, Kyrgyzstan, Republic of Moldova, North Macedonia, Serbia, and Tajikistan. The methodology was common among the eight country studies, although with some variations from country to country due to differences in national contexts. The eight studies were elaborated by national experts supported by international consultants and FAO technical guidance. The research methodology combines the use of desk research and statistics, interviews with key stakeholders, workshops with key stakeholders and decision makers, and the use of qualitative cases.

Empowered School David H. Hargreaves, David Hopkins, 2004-12-23. The Education Reform Act 1988 and recent legislation aim to raise levels of pupil achievement in particular through the introduction of the National Curriculum and improved self-management by schools. For governors, heads, and teachers, bringing together these changes will require, as part of the new partnership strategies for managing development and change, to make the school more effective. School development plans are a means of realizing this goal. The

distinctive feature of a development plan is that it brings together in an overall plan national and LEA policies and initiatives the school's aims and values its existing achievements and its needs for development By co-ordinating aspects of planning which are otherwise separate the school acquires a shared sense of direction and is able to control and manage the tasks of development and change This book based on the DES project draws on the experience of LEAs and schools which have pioneered school development plans Besides giving advice on constructing and implementing a school development plan the authors provide a full and practical account of how planning and development need to be managed and what this implies for the way the school is organized at present They also describe how schools can be supported in this process and how development planning fits into current movements for school improvement and effectiveness Empowering Women Panchayat Members Debabrata Bandyopadhyay, Amitava Mukherjee, 2006 This handbook attempts to address the political and social learning needs of women in Panchayati Raj Institutions in India It develops thematic gender focused training modules on a range of subjects including social mobilization and use of social capital formation for ushering development of a network of women PRIs at the grassroots level Peer Justice and Youth Empowerment Tracy M. the many dimensions of what empowerment means for and to women Looking back on a life lived through commitment to a cause rather than to an organisation or to a sector and working for it at many levels and locations she traces the evolution of the concept from the late 1980s till now unravelling its ambiguities highlighting insights gained through practice and analysing how and why it has been depoliticised and reduced by the state and aid agencies Along the way Batliwala traverses key sectors including education for women politics outside political systems grassroots movements energy for sustainable development and a controversial questioning of a rights based approach to women s equality *Action for climate empowerment* Paas, Leslie,2016-12-31 Integrating gender into implementation and monitoring and evaluation of cash transfer and public works programmes - FAO Technical Guide 3 Food and Agriculture Organization of the United Nations ,2018-11-01 Many social protection programmes including cash transfers public works programmes and asset transfers target women as main beneficiaries or recipients of benefits Extending social protection to rural populations has great potential for fostering rural women s economic empowerment However to tap into this potential more needs to be done There is much scope for making social protection policies and programmes more gender sensitive and for better aligning them with agricultural and rural development policies to help address gender inequalities Recognizing this potential and capitalizing on existing evidence FAO seeks to enhance the contribution of social protection to gender equality and women s empowerment by providing country level support through capacity development knowledge generation and programme support To move forward this agenda FAO has developed the Technical Guidance Toolkit on Gender sensitive Social Protection Programmes to Combat Rural Poverty and Hunger The Toolkit is designed to support SP and gender policy makers and practitioners in their efforts to systematically apply a gender lens to SP programmes in ways that are in line with global agreements and FAO commitments to expand inclusive SP systems for rural populations The Toolkit focuses on the role of SP in reducing gendered social inequalities and rural poverty and hunger **Education Policy Outlook 2023 Empowering All Learners to Go Green** OECD,2023-11-20 The report OECD Education Policy Outlook 2023 aims to support countries to follow up on the goals established by the 2022 OECD Declaration on Building Equitable Societies Through Education
