Campbell, 1992-08-07 A broad range of current experimental research on numerical cognition and the acquisition of mathematical skills is covered in this volume The individual chapters provide in depth analysis of specific issues methodologies phenomena and theory The book is divided into two parts In the first part the focus

is on the acquisition and development of numerical skills Part 2 of the book contains research on the information processing basis of numerical skills focusing on the mechanisms of perception attention and memory that support number skills The range of theoretical and methodological orientations represented in the volume captures both the diversity and coherence of contemporary research into mathematical skills The research of educational psychologists cognitive psychologists and cognitive neuropsychologists mutually informs and reinforces theoretical developments within each area The multidisciplinary interest in mathematics skills reflects the pervasiveness and importance of mathematics in education technology and science and also indicates that questions about mathematical competence address important issues in diverse areas of psychology and cognitive science

Beneath the Sands of Time Jody Cooke,2021-06-08 The poetry of Jody Cooke while greatly varied and at times seemingly unfocused in theme is a wonderful read and filled with rich emotional commentary From man s base desires and carnal hunger to the more brutal aspects of rage obsession and the need for violence Mr Cooke takes a deep look into man s heart and pulls out the things we all try so desperately to hide In other works he explores more romantic themes such as love family and the untamed wilds of our deepest imagination Contained within this book are many such pieces A body of work that is the result of a lifetime of creation Here is a brief examination of a few of my favorites

Toddler Storytimes II Diane Briggs,2008 School Library Journal With 25 theme based chapters this is a handy resource Each theme includes book recommendations often 10 or more with a nice mixture of classic and newer titles and a suggestion to choose two or three per session Words and instructions for fingerplays rhymes and songs are provided while a discography provides melody sources for all songs Each theme includes a flannel board activity complete with reproducible patterns and brief directions on how to present the story or song on the board Safe and simple crafts ideas are presented as optional activities Activities are listed by type rather than in an ordered list so tellers can pick choose and order according to individual style and preference An introduction provides tips and rationale for all of the types of activities A couple of sentences note the potential impact on brain development and early literacy skills but the focus is on the activities themselves strategies for sharing early literacy information with parents and caregivers are not addressed Judy Nichols s Storytimes for Two Year Olds ALA 2007 and Linda L Ernst s Baby Rhyming Time Neal Schuman 2008 provide more comprehensive looks at all aspects of storytime planning and presentation This update of Briggs s Toddler Storytime Programs Scarecrow 1993 will be most useful as a resource for programming ideas and fleshing out themes

Horror Films of the 1980s John Kenneth Muir,2010-07-28 John Kenneth Muir is back This time the author of the acclaimed Horror Films of the 1970s turns his attention to 300 films from the 1980s From horror franchises like Friday the 13th and Hellraiser to obscurities like The Children and The Boogens Muir is our informative guide Muir introduces the

scope of the decade's horrors and offers a history that draws parallels between current events and the nightmares unfolding on cinema screens. Each of the 300 films is discussed with detailed credits, a brief synopsis, a critical commentary, and where applicable, notes on the film's legacy beyond the 80s. Also included is the author's ranking of the 15 best horror films of the 80s.

Narrative Inquiries of School Reform Cheryl J. Craig, 2003-05-01. This book culminates five years of extensive field-based inquiry with teachers and principals in four reforming school contexts. It arises from living alongside teachers and principals entering into their realities, engaging them in conversations, seeing school life through their eyes, and employing the words and images they use to wrap around their experiences. It involved thinking narratively about schools as sites of high drama within which teachers and principals negotiate meaning as knowledgeable and knowing human beings. It gave primacy to everyday events taking shape on school landscapes. It meant creating spaces and devoting enormous amounts of time to observing and listening hard to what teachers and principals say and do when reform initiatives become personally lived in context from their points of view.

The Write to Happiness Samantha Shad, 2020-02-25. The author of *Write Through the Crisis* teaches how to craft better stories and how writing can improve the writer's mind and their life. *The Write to Happiness* is a miraculous tool that helps writers change their lives in the direction they choose. With this book, author Samantha Shad teaches self-help enthusiasts and writers how to create great stories and how writing can change their life for the better, whether it is the main focal point or not. Samantha shows writers how the process for positively changing the brain and the process for writing a great story are the same. *The Write to Happiness* teaches story structure from the professionals to help writers understand the power of storytelling while also teaching them why gossiping is central to their existence, how forgetting gives meaning, why memory is a myth, what happens in your brain when you read and when you write. Now you will be able to simultaneously change your life and tell your story. Praise for *The Write to Happiness*. Put Samantha Shad's book at the top of your reading list. Not just because of the masterfully delivered scientific data that demonstrates how the act of writing can provide solace for heart, body, and soul, but especially for the hard-won wisdom that teaches how we can all manifest the confidence to create conscious choice in our lives. Georgia Jeffries, author, screenwriter, and professor, University of Southern California School of Cinematic Arts. An intelligent, thoughtful, and thoroughly entertaining presentation of the best strategies and tactics for crafting the best stories. Carl Nordgren, author of *Becoming a Creative Genius* again.
