Monocromos De Malevich Al Presente:

Monocromos Valeria Varas, Raúl Rispa, 2004 La exposición está concebida como una instalación las obras presentadas no están dispuestas en el orden cronológico convencional sino ordenadas con arreglo a una serie de entornos de color pertenecen a distintos periodos y están realizadas por diversos artistas procedentes de distintas culturas de todo el mundo Europa Occidental y Oriental América del Norte y del Sur y Asia El conjunto constituye un experimento con la percepción visual que suscita preguntas como por ejemplo si la recontextualización de las obras modifica su significado o si los colores generan una resonancia psicológica y emocional e influyen en el temperamento y el carácter

Practices of Abstract Art Wiebke Gronemeyer, Isabel Wünsche, 2016-12-14 Recent decades have seen a renewed interest in the phenomenon of abstract art particularly regarding its ability to speak to the political social and cultural conditions of our times This collection of essays which looks at historical examples of artistic practice from the early pioneers of abstraction to late modernism investigates the ambivalent role that abstraction has played in the visual arts and cultures of the last hundred years In addition it explores various theoretical and critical narratives that seek to articulate new perspectives on its legacy in the visual arts From metaphysical considerations and philosophical reflections to debates on interculturality and global perspectives the contributors examine and reconsider abstraction in the visual arts from a contemporary point of view that acknowledges the many social economic cultural and political aspects of artistic practice As such the volume progressively expands the boundaries of thinking about abstract art by engaging it in its increasingly diverse cultural environment

Genealogías del arte contemporáneo Jaime Repollés Llauredó, 2011-05-06 Genealogías del arte contemporáneo no es un manual de movimientos artísticos contemporáneos ni un glosario de artistas plásticos destacados por la reciente historia del arte ni tampoco una muestra de las tendencias estéticas más pujantes de la modernidad Es un libro que pretende narrar el origen prehistórico clásico o medieval de aquellas obras de arte contemporáneo cuyas genealogías se enraizan en el primitivismo el paganismo y el cristianismo En sus capítulos se han abarcado estas tres grandes tradiciones occidentales de la mano de un cicerone que sesga tajantemente la interpretación de cada legado por la modernidad El primitivismo actual se ha revisado de la mano de Leo Strauss el paganismo gracias al mito de Ulises y el cristianismo gracias al escritor Marcel Proust
