The Pleasures of Crime David Platten, 2011-12 For 150 years the French public and literati have enjoyed a love affair with crime fiction This book investigates the nature of this relationship and how through periods of dramatic social and political change in France it has flourished It challenges the conventional view of a popular genre feeding a niche market depicting crime fiction instead as a field of creative endeavour which has gradually matured into one of considerable literary fertility By inviting us to share secrets and crack codes creating suspense and at times not shirking from presenting horrific events in graphic language the crime story brings into play the intellect and emotions of its readership This book explores both this intrinsic literary value of the crime novel and its extrinsic witness to historical events and cultural trends arguing that these apparently distinct aspects are in fact dynamic interrelated parts of the same whole This blend of cultural history with literary analysis allows for the discussion of themes such as politics memory the urban environment and youth cultures mixed with case studies of major French crime writers including Gaston Leroux Georges Simenon Jean Patrick Manchette Daniel Pennac and Fred Vargas

Reading Images and Seeing Words , 2021-11-01 The simultaneously tautological and oxymoronic nature of word image relations has become a subject of massive debate in the post modern period This is not only because of the increasing predominance of word image messages within our modern media saturated culture but also because intellectual disciplines are becoming increasingly sensitized to the essentially hybrid nature of the way we construct meaning in the world The essays in this volume offer an exemplary insight into both aspects of this phenomenon Focussing on both traditional and modern media theatre fiction poetry graphic art cinema the essays of Reading Images and Seeing Words are deeply concerned to show how it is according to signifying codes rhetoric poetics metaphor that meaning and knowledge are produced Not the least value of this collection is the insight it gives into the multiple models of word image interaction and the rich ambiguity of the tautological and oxymoronic relations they embody

Historical Dictionary of French Literature John Flower, 2013-01-17 Almost all of us know French literature even if we don't know French because it is probably the second largest and certainly the most translated into English And even if we don't read we would have seen film and television versions think *Count of Monte Cristo* and even a musical rendition *Les Mis* So this is a particularly interesting volume in the literature series since it covers French literature from the earliest times to the present It is also a particularly rich literature espousing every genre from poetry to novel to biography to drama and adopting every style including realism and surrealism and expressing the views of all classes and political stands with recently strong feminist and gay strains Obviously the core dictionary section includes among its panoply of often substantial and detailed entries hundreds of authors dozens of significant works the various styles mentioned above and many others events that have impacted literature such as the Dreyfus Affair and the Algerian War and literary prizes The chronology manages to cover about 1 200 years of literary output And the introduction sets it all out neatly from one historical and literary period to the next The bibliography broken down by period and author directs us to further reading in both French and English
