My Discovery Of Islam:

My Discovery of Islam Muhammad Asad, 2001-01-01 **My Discovery of God, Islam & Judgment Day** Hamza Ali Abbasi, 2024-12-25

The book emphasizes the Quran's role as a preserved record of divine accountability on earth through the last Rasool Muhammad PBUH. The author hopes for divine accountability and a good outcome in the afterlife for themselves and the readers. This book aims to provide rationally and morally satisfactory answers to existential questions for laypersons. It encourages readers to approach the Quran with an open mind and consider its message of accountability, purity, and sincerity. The main themes of the book revolve around the nature of biases and their impact on the pursuit of truth, the human tendency towards bias in matters of God and religion, the importance of simplicity in understanding divine accountability, the necessity of humility in existential matters, the role of inference in drawing conclusions, the relationship between science and the existence of a divine being, the use of multiple tools in existential inquiries, the significance of consciousness and intelligence in the universe, the simplicity of the uncaused cause, the relevance of our comprehension of what is simple and complex, the justification for believing in a creator with similarities to us, and the realistic possibility of an intelligent consciousness as the first cause of everything.

My Discovery of God, Islam and Judgement Day Hamza Ali Abbasi, 2024-08-15

My Discovery of Islam: God Judgement Day is a profound and passionate exploration of existential questions culminating in a rediscovery of Islam through the teachings of Javed Ahmad Ghamidi. The author, a former atheist, embarks on a journey to find rational and morally satisfactory answers to life's most pressing questions. This book is not just an academic treatise but a heartfelt narrative of a personal quest for truth. The book begins with the author's reflections on the significance of understanding one's true origin and the severe consequences of divine accountability. From there, it delves into the rationality behind belief in a creator and explores religious ideas across cultures. The transition from atheism to Islam is meticulously detailed, emphasizing the role of science and humility in faith. Key themes include the nature of biases, the simplicity required in understanding divine accountability, and the relationship between science and the existence of a divine being. The author passionately argues that humility and open-mindedness are essential in exploring existential questions. Javed Ahmad Ghamidi's teachings play a pivotal role in the author's journey. Ghamidi's rational and contextual interpretation of Islam provides the answers the author seeks, bridging gaps left by traditional interpretations. The author highlights Ghamidi's modern approach to issues such as the death penalty for apostasy, gender relations, and the interpretation of religious texts, making Islam more accessible and relevant to contemporary minds. The author's personal journey is compelling, from grappling with atheism to embracing Islam. The narrative is filled with introspection and sincere inquiry. The book emphasizes that understanding and aligning with

The Islamic Design Module in Latin America John F.

Moffitt,2004-07-15 This study analyzes the distinctive look of Hispanic architecture Its triangulate format originated in Islamic Spain was based on workshop techniques once used by journeyman designers and simple artisans Spain was the only European transatlantic colonial power to have once been occupied by Islamic overlords Spain s conquistadors took their traditional building methods to Latin America Formal analyses of the facades of various Latin American churches reveal them to reiterate procedures worked out in Andalusia by Islamic builders in the ninth and tenth centuries Though widely separated by time and place both share a proportionate system determining abstract ratios in both cases this regulating format was derived from manipulations of the Pythagorean triangles This trazado regulador is only expressed in ratios with no numbers and is illustrated here with 85 visual examples including measured drawings of Egyptian Greek Roman and medieval European prototypes Grounded in historical and physical data the research is partially drawn from four practical builders manuals two seventeenth century Spanish ones and two Mexican ones from ca 1640 and 1800 In an appendix Viollet le Duc a major nineteenth century architect explains architectural proportionality and the design function of the Pythagorean Triangle

My Year Inside Radical Islam Daveed Gartenstein-Ross,2008-01-31 My Year Inside Radical Islam is a memoir of first a spiritual and then a political seduction Raised in liberal Ashland Oregon by parents who were Jewish by birth but dismissive of strict dogma Daveed Gartenstein Ross converted to Islam in college a process that began with a desire to connect with both a religious community and a spiritual practice and eventually led him to sympathize with the most extreme interpretations of the faith with the most radical political implications In the year following graduation Gartenstein Ross went to work for the Al Haramain Islamic Foundation a charity dedicated to fostering Wahhabism Saudi Arabia s austere form of Islam a theological inspiration for many terrorist groups including al Qaeda Shortly after he left Al Haramain when his own fanaticism had waned the foundation was charged by the U S government for a money laundering scheme that was seemingly designed to finance terrorist organizations Gartenstein Ross by this time a lawyer at a prominent firm volunteered for questioning by the FBI They already knew who he was The story of how a good faith can be distorted and a decent soul can be seduced away from his principles My Year Inside Radical Islam provides a rare glimpse into the personal interface between religion and politics

My Journey from Islam to Christianity Kenny Abdulsalam,2015-05-29 This book is about my life growing up as a Muslim boy and young Islamic scholar in West Africa In search for answers I arrived at the truth through objective study of the Bible and the Quran I began to discover the errors in the Quran Many Muslims have been misled which will be demonstrated in this book and some have become extremists as a result For those who have the potential to become Islamic extremists and terrorists and for the Christian reader this book is my attempt as a former Muslim to create a bridge between the Islamic and Christian world Without judgment or condemnation this is my way of reaching out to my Muslim brethren so that we can at least have a conversation about Jesus Christ and Mohammed

Space, Place and Hybridity in the National Imagination Christine Vandamme,André Dodeman,2021-10-26 This volume explores space

place and hybridity in today's multicultural societies with a strong emphasis on the role of art and spatial representations in order to map out the complexity of modern nations and celebrate the creative powers of their highly dynamic communities and cultures. It considers how the very idea of the nation has evolved since the emergence and development of the idea of the nation state at the end of the eighteenth century and how art can reinvigorate representations of nation states worldwide without relegating their minorities to the margin. Instead of merely focusing on the role of place and land in national representations, the book adopts a wider and more critical approach to space in the arts by investigating the notions of both hybridity and Bhabha's Third Space in the fields of aesthetics, film studies and literature with a particular emphasis on postcolonial literature. *Research in the Social Scientific Study of Religion, Volume 29* Andrew Village, Ralph W.

Hood, 2018-10-16 The general papers in Volume 29 of *Research in the Social Scientific Study of Religion* cover a range of topics including psychological type, prayer, nature and well-being, psychobiography, coping with addiction and the role of place in spirituality. The first special section on congregational studies draws on a range of large datasets from the National Church Life Surveys in Australia. Papers examine the factors that predict individual sense of belonging in Catholic parishes as well as congregational level aspects of vitality, collective confidence and innovativeness. The second special section examines the Ideological Surround Model and how it can help to better understand expressions of faith related to psychological constructs such as mindfulness, fundamentalism and the Dark Triad of Machiavellianism, Narcissism and Psychopathy. Williams. **The Armenians in the Medieval Islamic World, Volume Three** Seta B. Dadoyan, 2013-09-23

In this first of a massive three-volume work, Seta B. Dadoyan studies the Armenian experience in the medieval Islamic world and takes the reader through hitherto undiscovered paradigmatic cases of interaction with other populations in the region. Being an Armenian, Dadoyan argues, means having an ethnic ancestry laden with narratives drawn from the vast historic Armenian habitat. Contradictory trends went into the making of Armenian history, yet most narratives fail to reflect this rich texture. Linking Armenian Islamic history is one way of dealing with the problem. Dadoyan's concern is also to outline revolutionary elements in the making of Armenian ideologies and politics. This extensive work captures the multidimensional nature of the Armenian experience in the medieval Islamic world. The author holds that every piece of literature, including historical writing, is an artifact. It is a composition of many elements arranged in certain forms, order, sequence, proportion, detail, intensity, etc. The author has composed and arranged the larger subjects and their sub-themes in such a way as to create an open, dynamic continuity to Armenian history that is intellectually intriguing, aesthetically appealing and close to lived experiences.
