Gene Expression Systems in Fungi: Advancements and Applications Monika Schmoll, Christoph

Dattenböck, 2016-04-04 Biotechnology has emerged as one of the key environmentally safe technologies for the future which enables use of biomass to develop novel smart materials and to replace oil derived products Fungi are the most efficient producers of the enzymes needed for this purpose and in addition they produce a plethora of secondary metabolites among which novel antibiotics can be found Industrial application and exploitation of the metabolic capacities of fungi requires highly productive and robust gene expression systems which can be achieved by selection of appropriate species and strain

improvement In this book we aim to summarize homologous and heterologous gene expression systems of fungi for production of enzymes and secondary metabolites A broad overview on requirements challenges and successful applications shall serve as a basis for further development of fungi as biotechnological workhorses in research and industry MiRNAs in Aging and Cancer ,2017-08-22 MiRNAs in Aging and Cancer Volume 334 the latest in the International Review of Cell and Molecular Biology series reviews and details current advances in cell and molecular biology This new release includes chapters on a variety of timely topics including the Regulation of autophagy by miRNAs the Impact of miRNAs in cellular senescence miRNAs in hematopoiesis stem cell biology and hematological disorders the Impact of miRNAs on longevity miRNA deregulation in cardiovascular aging and associated disorders miRNA deregulation in aging associated pathologies of the skeletal muscle and miRNAs and neurodegeneration The IRCMB series has a worldwide readership maintaining a high standard by publishing invited articles on important and timely topics that are authored by prominent cell and molecular biologists The articles published in IRCMB have a high impact and an average cited half life of 9 years This great resource ranks high amongst scientific journals dealing with cell biology Publishes only invited review articles on selected topics Authored by established and active cell and molecular biologists Offers a wide range of perspectives on specific subjects

The State of Food and Agriculture 2024 FAO,2024-11-08 Uncovering the true cost of food is the first step in making agrifood systems more inclusive resilient and sustainable As The State of Food and Agriculture 2023 revealed agrifood systems activities generate significant benefits for society but also have negative impacts on economic social and environmental sustainability The quantified hidden costs of agrifood systems amount to around 10 percent of global gross domestic product Therefore strategic action is necessary and all agrifood systems actors from producers and agribusinesses to consumers and governments have a crucial role to play While transforming agrifood systems would yield a net global gain the benefits and costs would be unevenly distributed among stakeholders and countries over time The State of Food and Agriculture 2024 builds on the findings of the 2023 edition delving deeper into the use of true cost accounting assessments of agrifood systems and identifying policy interventions aimed at transformation Using updated global datasets the report confirms previous estimates of the quantified hidden costs of agrifood systems and provides a detailed breakdown of the hidden costs associated with unhealthy dietary patterns and non communicable diseases for 156 countries These findings are analysed through the lens of six agrifood systems categories to take into account various outcomes and hidden costs that require different policy interventions Case studies offering in depth assessments of country local and value chain contexts illustrate the economic social and environmental impacts of current practices to guide policy interventions Crucial to all contexts is the need for inclusive stakeholder consultations to inform interventions and reconcile power imbalances and trade offs

The Top Books of the Year Pathway To Light The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels enthralling the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the captivating narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Pathway To Light : Delia Owens' "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
