Patient Endurance The Great Famine In Connemara Patient Endurance The Great Famine In Connemara:

Patient Endurance Kathleen Villiers-Tuthill,1997 In 1841 Connemara had a population of 33 465 by 1851 that number was reduced through starvation fever and emigration to 21 349 This is the story of the people behind the statistics Back cover The Great Famine Ciarán Ó Murchadha,2011-06-02 Over one million people died in the Great Famine and more than one million more emigrated on the coffin ships to America and beyond Drawing on contemporary eyewitness accounts and diaries the book charts the arrival of the potato blight in 1845 and the total destruction of the harvests in 1846 which brought a sense of numbing shock to the populace Far from meeting the relief needs of the poor the Liberal public works programme was a first example of how relief policies would themselves lead to mortality Workhouses were swamped with thousands who had subsisted on public works and soup kitchens earlier and who now gathered in ragged crowds Unable to cope workhouse staff were forced to witness hundreds die where they lay outside the walls The next phase of degradation was the clearances or exterminations in popular parlance which took place on a colossal scale From late 1847 an exodus had begun The Famine slowly came to an end from late 1849 but the longer term consequences were to reverberate through future decades Connemara Tim Robinson,2007-06-19 The first volume in Tim Robinson s phenomenal Connemara Trilogy which Robert Macfarlane has called One of the most remarkable non fiction projects undertaken in English In its landscape history and folklore Connemara is a singular region ill defined geographically and yet unmistakably a place apart from the rest of Ireland Tim Robinson who established himself as Ireland s most brilliant living non fiction writer with the two volume Stones of Aran moved from Aran to Connemara nearly twenty years ago This book is the result of his extraordinary engagement with the mountains bogs and shorelines of the region and with its folklore and its often terrible history a work as beautiful and surprising as the place it attempts to describe Chosen as a book of the year by Iain Sinclair Robert Macfarlane and Colm T ib n One of the greatest writers of lands No one has disentangled the tales the stones of Ireland have to tell so deftly and retold them so beautifully Fintan O Toole Dazzling an indubitable classic Giles Foden Cond Nast Traveller He is that rarest of phenomena a scientist and an artist and his method is to combine scientific rigour with artistic reverie in a seamless blend that both informs and delights John Banville One of contemporary Ireland s finest literary stylists Joseph O Connor Guardian **Connemara** Michael Gibbons,2004 **An Irish-Speaking Island** Nicholas M. Wolf,2014-11-25 This groundbreaking book shatters historical stereotypes demonstrating that in the century before 1870 Ireland was not an anglicized kingdom and was capable of articulating modernity in the Irish language It gives a dynamic account of the complexity of Ireland in the nineteenth century developments in church and state and the adaptive bilingualism found across all regions social levels and religious persuasions **1945: The Reckoning** Phil Craig,2025-04-24 As the fate of the world is decided so too is that of the British Dutch and French empires In India a generation committed to independence must decide whether to support the Raj or fight alongside the Japanese One military family is bitterly divided Will it be the brother

who serves under British command or the one who follows Subhas Chandra Bose and his Indian National Army who goes on to help build a new and free India In Borneo a little known Australian special forces campaign secretly controlled from London goes horribly wrong as questions are asked about whether its true purpose is military or imperial And in Indochina and the East Indies British Generals free and arm Japanese prisoners of war and use them in savage campaigns that aim to put colonial rulers back into their palaces Clearing away the haze of nostalgia many uncomfortable truths emerge but so too does a humane and balanced exploration of what victory in the Second World War truly means

Confronting Genocide René Provost, Payam Akhavan, 2010-11-11 Never again stands as one the central pledges of the international community following the end of the Second World War upon full realization of the massive scale of the Nazi extermination programme Genocide stands as an intolerable assault on a sense of common humanity embodied in the Universal Declaration of Human Rights and other fundamental international instruments including the Convention on the Prevention and Punishment of the Crime of Genocide and the United Nations Charter And yet since the Second World War the international community has proven incapable of effectively preventing the occurrence of more genocides in places like Cambodia Yugoslavia Rwanda and Sudan Is genocide actually preventable or is ever again a more accurate catchphrase to capture the reality of this phenomenon The essays in this volume explore the complex nature of genocide and the relative promise of various avenues identified by the international community to attempt to put a definitive end to its occurrence Essays focus on a conceptualization of genocide as a social and political phenomenon on the identification of key actors Governments international institutions the media civil society individuals and on an exploration of the relative promise of different means to prevent genocide criminal accountability civil disobedience shaming intervention

Eating People Is Wrong, and Other Essays on Famine, Its Past, and Its Future Cormac Ó Gráda, 2020-10-13 New perspectives on the history of famine and the possibility of a famine free world Famines are becoming smaller and rarer but optimism about the possibility of a famine free future must be tempered by the threat of

global warming That is just one of the arguments that Cormac Gr da one of the world s leading authorities on the history and economics of famine develops in this wide ranging book which provides crucial new perspectives on key questions raised by famines around the globe between the seventeenth and twenty first centuries The book begins with a taboo topic Gr da argues that cannibalism while by no means a universal feature of famines and never responsible for more than a tiny proportion of famine deaths has probably been more common during very severe famines than previously thought The book goes on to offer new interpretations of two of the twentieth century s most notorious and controversial famines the Great Bengal Famine and the Chinese Great Leap Forward Famine Gr da questions the standard view of the Bengal Famine as a perfect example of market failure arguing instead that the primary cause was the unwillingness of colonial rulers to divert food from their war effort The book also addresses the role played by traders and speculators during famines more generally invoking evidence from famines in France Ireland Finland Malawi Niger and Somalia since the 1600s and overturning Adam Smith s claim that government attempts to solve food shortages always cause famines Thought provoking and important this is essential reading for historians economists demographers and anyone else who is interested in the history and possible future of famine [Irish Nationalism and the British State](#) Brian Jenkins,2006-05-12 No detailed description available for
