Patients Rights:

Patients' Rights Amnon Carmi, Harry Wax, 2002 Protecting Patients' Rights? Stephen Mackenney, Lars Fallberg, 2004
Ombudsman has been adopted in a number of countries over the years as a term for an administrative system that aims to protect the interests of individuals who complain against the system. However, this protection varies considerably from country to country. With an eminent list of international contributors, this book provides an overview of the role of the Ombudsman in relation to healthcare in countries with substantial cultural and historical differences. It demonstrates practical ways to protect patients' rights, looking at how each system operates, identifying the best components from each, as well as proposing future reforms. All healthcare professionals, including policy makers and shapers, will find this essential reading, gaining valuable lessons and insights to incorporate into their own organisations and systems. Jansen, 2011 Patients' Rights, Law and Ethics for Nurses Paul Buka, 2014-07-14 The second edition of this acclaimed text integrates health care law and ethics in relation to patients' rights and in the context of everyday nursing and health care practice. Focusing on principles of law and including clear outlines of the essential legal precedent, the author lays a solid foundation for understanding the intersection of law and ethics.

Patients' Rights, Law and Ethics for Nurses: A practical guide Paul Buka, 2008-02-29 Understanding the legal and ethical rights of any patient in their care is essential to good clinical practice. *Patients' Rights, Law and Ethics for Nurses: A Practical Guide* is a comprehensive pocket size book for nurses, midwives and allied health professionals that integrates health care law and ethics in relation to patient rights and in the context of everyday nursing and health care practice. Transposition of the Patients' Rights Directive 2011/24/EU Goscinska, Daria, 2014-07-21 The Directive on the application of patients' rights in cross border healthcare was adopted by the Council of the European Union and the European Parliament on March 9th 2011. In the context of the adoption deadline on October 25th 2013, as well as considering the national positioning towards the Directive and the interpretational leeway, it is interesting to see how and to what extent national legislators transpose the Directive's implications. This paper will focus on the process of transposition, specifically domestic public consultations. The analysis is a two level comparison: on the one hand, it presents an intrastate study of the various stakeholders involved in the discourse during the transposition process, whereby a country specific picture of diverse proposals, opinions and challenges can be drawn. On the other hand, the paper marks an inter country comparison, offering a sample of European adaptational patterns. The healthcare systems of the analysed countries, Germany, Poland and Austria, are characterised by a Statutory Health Insurance (SHI) system; nevertheless, they differ concerning systemic specifics of healthcare, their voting behaviours towards the Directive and initial situations regarding

transposable provisions The study of domestic discourses from an actor centred perspective concludes on the most critical points of the Directive which reflect on prior authorisation reimbursement information provision and National Contact Points and on transposition patterns in the member states Hypotheses on the goodness of fit the scope of patients rights and difficult interpretational areas of the Directive were tested and partly verified The intrastate study and cross national comparison revealed considerable differences among a small sample of EU states with only some analogies regarding stakeholder and governmental behaviour The contrast is visible in the number and type of stakeholders timing of public consultations the emphasis set in the discourse frequency of discussed articles and accurateness of implementation This results not only from the difficult and debated area of health policy but also from country specific characteristics Overall the analysis indicates how important the process of transposition as part of EU law making is for the correctness and success of European policies An emphasis on the implementation phase is required to closely understand analyse and improve the functioning of the Acquis Communautaire Die Richtlinie ber die Aus bung der Patientenrechte in der grenz berschreitenden Gesundheitsversorgung wurde vom Rat der Europ ischen Union sowie dem Europ ischen Parlament am 9 M rz 2011 verabschiedet Im Kontext der Umsetzungsfrist am 25 Oktober 2013 sowie unter Ber cksichtigung nationaler Positionen gegen ber der Richtlinie und dem zu Verf gung stehenden Interpretationsspielraum gilt es zu erforschen inwieweit die nationalen Gesetzgeber die Implikationen der Richtlinie umsetzen Diese Arbeit besch ftigt sich mit dem Transpositionsprozess der Patientenrichtlinie 2011 24 EU insbesondere mit den nationalen Konsultationen w hrend der Umsetzungsphase Die Analyse besteht aus einem zwei Ebenen Vergleich einerseits pr sentiert sie eine innerstaatliche Studie ber diverse in den Transpositionsprozess involvierte Stakeholder wodurch eine l nderspezifische Skizze bez glich verschiedener Umsetzungsvorschl ge Meinungen sowie Herausforderungen gezeichnet wird Andererseits stellt die Studie einen zwischenstaatlichen Vergleich dar durch welchen Europ ische Transpositions und Implementierungsmuster verdeutlicht werden Die drei ausgew hlten Staaten Deutschland Polen und sterreich sind jeweils durch das Gesundheitssystem der Gesetzlichen Krankenversicherung gekennzeichnet nichtsdestotrotz unterscheiden sie sich im Hinblick auf die systemischen Auspr gungen ihr Abstimmungsverhalten zur Richtlinie im Rat der Europ ischen Union sowie ihre Ausgangsposition der Transposition Die Analyse der nationalen Diskurse aus einer Akteur zentrierten Perspektive m ndet in einer Zusammenstellung der kritischsten Aspekte der Richtlinie welche die Vorabgenehmigung Kostenerstattung Informationsbeschaffung und die Nationalen Kontaktstellen beinhaltet Gleichzeitig fasst die Studie die Transpositionsmuster der Mitgliedstaaten zusammen Die Hypothesen zu Goodness of fit zur Reichweite der Patientenrechte sowie zu interpretativen Problemfeldern der Richtlinie wurden getestet und teilweise verifiziert Sowohl der inner wie auch zwischenstaatliche Vergleich zeigt die enormen Differenzen einer relativ geringen Staatenprobe auf mit lediglich wenigen Analogien in Bezug auf die Stakeholder und das Verhalten der staatlichen Entscheidungstr ger Der Kontrast zeigt sich

insbesondere hinsichtlich der Anzahl und des Typs der Akteure der zeitlichen Koordinierung der öffentlichen Konsultationen des Diskursschwerpunkts der Häufigkeit der diskutierten Umsetzungsartikel sowie der Transpositionsgenauigkeit Die hervorstechenden Differenzen sind nicht nur Ausdruck eines sensiblen und umstrittenen Politikfelds sondern resultieren aus den staatspezifischen Eigenschaften Insgesamt zeigt die Analyse auf wie wichtig der Transpositionsprozess als Teil der EU Gesetzgebung für die Korrektheit und den Erfolg Europäischer Politik ist Die Fokussierung auf die Implementierungsphase ist notwendig um die Funktionsfähigkeit des Acquis Communautaire genau zu verstehen analysieren und zu verbessern
