#### **Patriotism Morality And Peace:**

Patriotism, Morality, and Peace Stephen Nathanson, 1993 Is patriotism a worthy ideal one that we ought to promote and support Or is it a dangerous and destructive notion that leads to war and hostility Patriotism Morality and Peace provides the first sustained philosophical treatment of these questions distinguishes different forms of patriotism and shows why some forms are indeed dangerous while others can be valuable and constructive Patriotism, Morality, and Peace Stephen Nathanson, 1993-02-01 It is rare that a philosopher addresses a topic that is at once of vital interest to non philosophers and philosophers alike CONCERNED PHILOSOPHERS FOR PEACE NEWSLETTER Patriotism, Morality, and Peace Stephen Nathanson, 1993-02-01 It is rare that a philosopher addresses a topic that is at once of vital interest to non philosophers and philosophers alike CONCERNED PHILOSOPHERS FOR PEACE NEWSLETTER Primoratz, 2016-05-13 Economic and cultural globalization and the worldwide threat of terrorism have contributed to the resurgence of patriotic loyalty in many parts of the world and made the issues it raises highly topical This collection of new essays by philosophers and political theorists engages with a wide range of conceptual moral and political questions raised by the current revival of patriotism It displays both similarities and differences between patriotism and nationalism and considers the proposal of Habermas and others to disconnect the two Ideal as a supplementary reader for undergraduate and postgraduate courses in political science especially in political theory contemporary political ideologies and nationalism and in philosophy for courses on applied ethics and political philosophy Global Journalism Ethics Stephen J.A. Ward, 2010-03-26 Stephen Ward argues that present media practices are narrowly based within the borders of single country and thus unable to successfully inform the public about a globalized world Presenting an ethical framework for work in multimedia the author extends John Rawl s theories of justice and the human good to redefine the aims for which journalism should strive and then applies this new foundation to issues such as the roles of patriotism and objectivity in journalism An innovative argument that presents a necessary corrective to contemporary media practices Global Journalism Ethics is a theoretically rich study for journalists on the air in print and on the internet **Encyclopedia of Global Justice** Deen K. Chatterjee, 2012-01-23 This two volume Encyclopedia of Global Justice published by Springer along with Springer's book series Studies in Global Justice is a major publication venture toward a comprehensive coverage of this timely topic The Encyclopedia is an international interdisciplinary and collaborative project spanning all the relevant areas of scholarship related to issues of global justice and edited and advised by leading scholars from around the world The wide ranging entries present the latest ideas on this complex subject by authors who are at the cutting edge of inquiry The Encyclopedia sets the tone and direction of this increasingly important area of scholarship for years to come The entries number around 500 and consist of essays of 300 to 5000 words. The inclusion and length of entries are based on their significance to the topic of global justice regardless of their importance in other areas Patriotic Education in a Global Age Randall

Curren, Charles Dorn, 2018-04-30 Should schools attempt to cultivate patriotism If so why And what conception of patriotism should drive those efforts Is patriotism essential to preserving national unity sustaining vigorous commitment to just institutions or motivating national service Are the hazards of patriotism so great as to overshadow its potential benefits Is there a genuinely virtuous form of patriotism that societies and schools should strive to cultivate In Patriotic Education in a Global Age philosopher Randall Curren and historian Charles Dorn address these questions as they seek to understand what role patriotism might legitimately play in schools as an aspect of civic education They trace the aims and rationales that have quided the inculcation of patriotism in American schools over the years the methods by which schools have sought to cultivate patriotism and the conceptions of patriotism at work in those aims rationales and methods They then examine what those conceptions mean for justice education and human flourishing Though the history of attempts to cultivate patriotism in schools offers both positive and cautionary lessons Curren and Dorn ultimately argue that a civic education organized around three components of civic virtue intelligence friendship and competence and an inclusive and enabling school community can contribute to the development of a virtuous form of patriotism that is compatible with equal citizenship reasoned dissent global justice and devotion to the health of democratic institutions and the natural environment Patriotic Education in a Global Age mounts a spirited defense of democratic institutions as it situates an understanding of patriotism in the context of nationalist populist and authoritarian movements in the United States and Europe and will be of interest to anyone concerned about polarization in public life and the future of democracy The Rights of Strangers Georg Cavallar, 2017-07-05 This study investigates the thinking of European authors from Vitoria to Kant about political justice the global community and the rights of strangers as one special form of interaction among individuals of divergent societies political communities and cultures Taking an interdisciplinary approach it covers historical material from a predominantly philosophical perspective interpreting authors who have tackled problems related to the rights of strangers under the heading of international hospitality Their analyses of the civitas maxima or the societas humani generis covered the nature of the global commonwealth Their doctrines of natural law ius naturae were supposed to provide what we nowadays call theories of political justice The focus of the work is on international hospitality as part of the law of nations on its scope and justification It follows the political ideas of Francisco de Vitoria and the Second Scholastic in the 16th century of Alberico Gentili Hugo Grotius Samuel Pufendorf Christian Wolff Emer de Vattel Johann Jacob Moser and Immanuel Kant It draws attention to the international dimension of political thought in Thomas Hobbes John Locke Jean Jacques Rousseau David Hume Adam Smith and others This is predominantly a study in intellectual history which contextualizes ideas but also emphasizes their systematic relevance Global Justice and International Affairs Thom Brooks, 2011-11-25 Global justice and international affairs is perhaps the hottest topic in political philosophy today This book brings together some of the most important essays in this area Topics include sovereignty and self determination cosmopolitanism and nationalism

global poverty and international distributive justice and war and terrorism The Morality of Nationalism Robert McKim, Jeff McMahan, 1997 theorists to policy makers and scholars of multiculturalism The Ethnicity of Neurons: Nationalism a Self-Esteem of Fools Darko Pozder, 2023-03-06 Nationalism is nothing less than a psychological self destruction When one goes beyond the need of identity a strong sense of security and wellbeing often demonstrates in confidence and self control resulting in showing empathy and trust in others Trust and empathy unite our societies while fear low self esteem anxiety and primitivism as well as an illusion of control results in new nations new religions new states and countries rarely without bloody wars and human suffering To conclude nationalism is nothing more than a self esteem of fools a very dangerous cognitive or psychological error created by our faulty thinking patterns So far it caused nothing more than horrible irreversable and devastating damage to human race Einstein was wrong when he sad that nationalism is just an infantile disease in my eyes nationalism is not only an illusion with no future it is the cancer to human race I am shocked by the fact that every second two people die from war conflict around the globe while cancer takes a life every 14 seconds Nationalism is constantly promoted and on the rise even 28 times more deadlier than cancer As a rational human being I felt the urge to write this book which will hopefully create an impact on the humanity and save lives of many As mentioned earlier in my previous books fight against the nature is the mission impossible however we all must give our best in that regard In Hemingway's novel The old man and sea an old fisherman Santiago didn't give up fighting the nature and I think The Advocate of Peace ,1896 we should all follow his steps at all costs Nationalism and Ethnic Conflict Nenad Miščević, 2000 This collection of essays approaches the problems and strengths of nationalism from a number of philosophical perspectives The contributors craft a definition of nation nationalism that emphasizes the cultural and sociopolitical ties uniting members of a country rather than merely their place of origin Advocate of Peace and Universal Identity, Self-Determination and Secession Igor Primoratz, Aleksander Pavkovic, 2018-01-18 Engaging Brotherhood .1895 with a range of interconnected and highly topical issues of identity self determination and secession this book examines the import and implications of identity claims and looks into identity politics motivated by such claims which is becoming ever more salient in democratic and culturally and ethnically heterogeneous states It discusses nationalism as an important component of identity of individuals and groups and a position that generates claims of self determination and secession on the part of ethnic and cultural groups It also examines patriotism which until recently seemed to be on the wane but has undergone a dramatic revival after the terrorist attacks in the US on 11 September 2001 and the start of a global war on terror The book offers a typology of facets of patriotism an assessment of its moral standing and a critique of the beliefs about the patria it characteristically involves Also discussed are topics such as political liberalism vs identity liberalism the ways a liberal society should treat nonliberal communities within it the role of heritage and remembrance in national identity the status of national minorities as an issue of equality arrangements concerning indigenous peoples and intrastate autonomy

as an alternative to secession and whether secession can be a legal act The book includes contributions by prominent philosophers and political and legal theorists from Australia Canada Israel and the United States Olympic Ethics and Philosophy Mike McNamee, Jim Parry, 2014-07-10 This book contains an international collection of essays by leading philosophers of sport on the ethics and philosophy of the Olympic Games The essays consider a range of topics including critical reflections on nationalism and internationalism within the Olympic movement sexism in Olympic marketing and sponsorship the preservation and corruption of Olympism the underlying ideology of the Olympic Games the inequalities of perception in ability and disability as it informs our understanding of the Olympic and Paralympic Games and comparisons between ancient and modern interpretations of the meaning and significance of the Olympic Games This book will be of interest to historians philosophers and sociologists of sports as well as to the sporting public who simply want to know more about the grounding ideas behind the greatest show on earth This book was originally published as a special issue of Sport Ethics and Philosophy Ethical Journalism in a Populist Age, Stephen J. A. Ward, 2018-09-26 Fake news alternative facts and daily attacks on the media from the Trump White House are redefining the media s role for a new generation Mainstream media has traditionally allowed journalists two roles In order to remain ethical they must either be neutral observers reporting the facts or signal that they are biased interpreters espousing a partisan agenda In this provocative new work leading global media ethicist Stephen Ward suggests that journalism needs to embrace a third path and begin practicing a new kind of journalism democratically engaged journalism It is only by breaking free of dualistic ethical practices that the world's media will be able to address Trumpism a heady mix of populism authoritarian leadership narrow patriotism and moral tribalism Us versus Them Weaving in rich examples from daily journalism this timely book will address practical questions such as how to cover a constant torrent of presidential tweets how fact checking plays a part in democratically engaged media and how journalists should respond to the pressure to be patriotic in their coverage of global issues such as immigration and the impact of Trump's America First foreign policy At issue is the need to construct a new journalism ethics for today s social context We need a new approach to journalism ethics not only to report on the Trump presidency but also for reporting in a digital global world

The Ethics of Patriotism John Kleinig, Simon Keller, Igor Primoratz, 2015-02-16 The unique approach taken within The Ethics of Patriotism brings together the differing perspectives of three leading figures in the philosophical debate who deliver an up to date accessible and vigorous presentation of the major views and arguments Brings together the differing perspectives of three leading philosophers who together explore the major positions on the ethics of patriotism Connects with several burgeoning fields of interest in philosophy and politics including nationalism civic virtue liberalism and republicanism loyalty and cosmopolitanism Demonstrates that it is possible to make progress on the question of the ethics of patriotism while taking an ecumenical approach to larger theoretical questions A timely and relevant response to the upsurge of interest in nationalism patriotism and secessions From the

Eve of the Storm, 2022-07-04 From the Eye of the Storm Regional Conflicts and the Philosophy of Peace presents to the reader a cross section of an emerging field of study the philosophy of peace The editors bring together articles that explore the philosophic implications of many recent regional conflicts Reflecting the diversity and vitality and any new field of study this volume contains five sections Conceptual Foundations America's Homefront Desert Storm Assessments Jihad Intifada and Other Mideast Concerns and Latin American Issues The topics of the articles include war militarism patriotism nationalism nonviolence conscientious objection feminist peace the media the ethics of the Gulf War the Israeli Palestinian conflict Islamic pacifism and Latin American resistance A concluding postscript assesses prospects for achieving peace and change within our fast changing international scene This volume has an extensive bibliography of writings concerning peace and conflict and is suited to professional and student audiences Jane Addams's Essays and Speeches on Peace Jane Addams, 2006-03-24 The pragmatist philosopher Jane Addams 1860 1935 is celebrated as the founder of Hull House the settlement house for disadvantaged people in Chicago where for many years she put into practice her progressive ideas for social reform Addams was also deeply involved in international peace efforts Remaining a pacifist throughout World War I she was a founder of the Women's International League for Peace and Freedom and went on to receive the Nobel Peace Prize in 1931 Her books and essays on peace are frequently cited but long out of print and hard to obtain Interest in Jane Addams is rapidly growing As the American government withdraws from international treaties her call for international law and cooperation has a new relevance And in our increasingly dangerous world her call for peace is being heard again This volume contains the most complete collection ever made of Addams s essays articles and speeches on peace and international relations written between 1899 and 1935
