**Patriots and Paupers** Mary Lindemann,1990-10-04 Patriots and Paupers carefully analyzes a crucial juncture in the history of a great city Hamburg s passage from the pre modern into the modern world Despite the relative wealth of historical literature on Reformation Germany and on Germany after unification few English language histories have addressed the events of the eighteenth and early nineteenth centuries Mary Lindemann here details issues associated with poor relief indigency mendicancy public health labor regulation social control and disciplining then uses these as springboards to broader historical debates She draws out the subtle yet decisive political shift from the paternalistic dirigism of a government of fathers and uncles to the socio economic laissez faire of early liberalism and locates this political metamorphosis firmly within the framework of Hamburg s dynamic economic development and dramatic demographic growth She links these political and social changes to the intellectual cultural and prosopographical contexts of the German Enlightenment Far more than a history of poverty and social welfare policies Patriots and Paupers explores the critical interconnections between economics demographics social change and government in the closing years of the European Old Regime

Ideas of poverty in the Age of Enlightenment Niall O'Flaherty,Robin Mills,2024-04-16 This collection of essays examines the ways in which poverty was conceptualised in the social political and religious discourses of eighteenth century Europe It brings together experts with a wide range of expertise to offer pathbreaking discussions of how eighteenth century thinkers thought about the poor Because the theme of poverty played important roles in many critical issues in European history it was central to some of the key debates in Enlightenment political thought throughout the period including the controversies about sovereignty and representation public and private charity as well as questions relating to

crime and punishment The book examines some of the most important contributions to these debates while also ranging beyond the canonical Enlightenment thinkers to investigate how poverty was conceptualised in the wider intellectual culture as politicians administrators and pamphlet writers grappled with the issue *Europäisches Spitalwesen* Martin Scheutz, 2008 **Menschen in Bewegung** Harald Kleinschmidt, 2002 **Arts & Humanities Citation Index**, 1993 **Assistenza e solidarietà in Europa, secc.
