Innovating Luis Perez-Breva,2018-08-28 Discover the MIT developed doer s approach to innovation with this guide that reveals you don t need an earth shattering idea to create a standout product service or business just a hunch that you can scale up to impact Innovation is the subject of countless books and courses but there s very little out there about how you actually innovate Innovation and entrepreneurship are not one and the same although aspiring innovators often think of them that way They are told to get an idea and a team and to build a show and tell for potential investors In *Innovating* Luis Perez Breva describes another approach a doer s approach developed over a decade at MIT and internationally in workshops

classes and companies He shows that innovating doesn't require an earth shattering idea all it takes is a hunch Anyone can do it By prototyping a problem and learning by being wrong innovating can be scaled up to make an impact As Perez Brea demonstrates nothing is new at the outset of what we only later celebrate as innovation In *Innovating the process* illustrated by unique and dynamic artwork is shown to be empirical experimental nonlinear and incremental You give your hunch the structure of a problem Anything can be a part Your innovating accrues other people's knowledge and skills Perez Brea describes how to create a kit for innovating and outlines questions that will help you think in new ways Finally he shows how to systematize what you've learned to advocate communicate scale up manage innovating continuously and document you need a notebook to converse with yourself he advises Everyone interested in innovating also needs to read this book

Bain Capital purchased every major showroom building and the majority of downtown real estate was under one owner Showroom City is a story of exclusionary growth and unchecked development of a city flailing to fill the void left by its dwindling factories But beyond that Schlichtman engages the general lessons behind both High Point s deindustrialization and its stunning reinvention as a furniture fashion merchandising and design node With great nuance he delves deeply to reveal how power operates locally and how citizens may affirm exploit influence and resist the takeover of their community
