Understanding Signed Languages Erin Wilkinson, Jill P. Morford, 2024-01-31 *Understanding Signed Languages* provides a broad and accessible introduction to the science of language with evidence drawn from signed languages around the world. Readers will learn about language through a unique set of signed language studies that will surprise them with the diversity of ways human languages achieve the same functional goals of communication. Designed for students with no prior knowledge of signed languages or linguistics, this book features a comprehensive introduction to the sub fields of linguistics including sociolinguistics, linguistic structure, language change, language acquisition, and bilingualism. Examples from more than 50 of the world's signed languages and a brief Language in Community snapshot in each chapter highlighting one signed language and the researchers who are documenting it. Opportunities to reflect on how language ideologies have shaped scientific inquiry and contributed to linguistic bias. Review and discussion questions, useful websites, and pointers to additional readings and resources at the end of each chapter. *Understanding Signed Languages* provides instructors with a primary or secondary text to enliven the discourse in introductory classes in linguistics, interpreting deaf education, disability studies, cognitive science, human diversity, and communication sciences and disorders. Students will develop an appreciation for the language specific and universal characteristics of signed languages and the global communities in which they emerge.

Centuries of Quilts Linda Baumgarten, Kimberly Smith Ivey, 2014-10-28 An exquisite and authoritative look at four centuries of quilts and quilting from around the world. Quilts are among the most utilitarian of art objects yet the best among them possess a formal beauty that rivals anything made on canvas. This landmark book drawn from the world renowned collection of the Colonial Williamsburg Foundation highlights the splendor and craft of quilts with more than 300 superb color images and details. Fascinating essays by two noted scholars trace the evolution of quilting styles and trends as they relate to the social, political, and economic issues of their time. The collection includes quilts made by diverse religious and cultural groups over 400 years and across continents from the Mediterranean, England, France, America, and Polynesia. The earliest quilts were made in India and the Mediterranean for export to the west and date to the late 16th century. Examples from 18th to 20th century America many made by Amish and African American quilters reflect the multicultural nature of American society and include boldly colored and patterned worsteds and brilliant pieced and appliquéd works of art. Grand in scope and handsomely produced, *Four Centuries of Quilts: The Colonial Williamsburg Collection* is sure to be one of the most useful and beloved references on quilts and quilting for years to come. *Heritage Auctions Music and Entertainment Auction Catalog #696* Jim Steele, 2008-09
