Politics and the Professors Henry Aaron,2010-12-01 In the early 1960s America was in a confident mood and embarked on a series of efforts to solve the problems of poverty racial discrimination unemployment and inequality of educational opportunity The programs of the Great Society and the War on Poverty were undergirded by a broad consensus about what our problems as a nation were and how we should solve them But by the early seventies both political and scholarly tides had shifted Americans were divided and uncertain about what to do abroad fearful of military inferiority and pessimistic about the capacity of government to deal affirmatively with domestic problems A new administration renounced the rhetoric of the Great Society and changed the emphasis of many programs On the scholarly front new research called into question the old faiths on which liberal legislation had been based In this book the sixteenth volume in the Brookings series in Social Economics Henry Aaron describes both the initial consensus and its subsequent decline He examines the evolution of attitude and pronouncements by scholars and popular writers on the role of the federal government and its capacity to bring about beneficial change in three broad areas poverty and discrimination education and training and unemployment and inflation He argues that the political eclipse of the Great Society depended more on events external to it war in Vietnam dissolution of the civil rights coalition and finally the Watergate scandal and all its repercussions than on its intrinsic failings Aaron concludes that both the initial commitment to use national policies to solve social and economic problems and the subsequent disillusionment of scholars and laymen alike rest largely on preconceptions and faiths that have little to do with research themselves

Race And Place John W. Frazier,2019-05-20 This book addresses the issues in an empirical fashion after examining different

sociological and geographic perspectives It provides a basic understanding of the multi faceted nature of racial inequalities in urban America both in a broad context and in separate analyses of housing **Manpower Research Projects** United States. Department of Labor. Manpower Administration,1974 *Racialization and Religion* Nasar Meer,2015-04-10 This volume locates the contemporary study of anti-Semitism and Islamophobia squarely within the fields of race and racism As such it challenges the extent to which discussion of the racialization of these minorities remains unrelated to each other or is explored in distinct silos as a series of internal debates By harnessing the explanatory power of long established organizing concepts within the study of race and racism this collection of articles makes a historically informed theoretical and empirical contribution to aligning these analytical pursuits The collection brings together a range of perspectives on this subject including a comparison between Islamophobia in early modern Spain and twenty first century Europe an examination of the new anti-Semitism and an analysis of online anti-Muslim and anti-Semitic jokes This book was originally published as a special issue of Ethnic and Racial Studies **Occasional Papers in Housing and Community Affairs** ,1979

Protection of Personnel in Peace Operations Ola Engdahl,2007-02-28 The 1994 Convention on the Safety of United Nations and Associated Personnel Safety Convention was the first multilateral convention to deal specifically with the protection of personnel engaged in peace operations It should be viewed against the background of the increasingly volatile environments in which peace operation personnel were required to operate at the beginning of the 1990s An Optional Protocol extending the automatic application of the Safety Convention to new categories of operation was adopted in December 2005 Protection which a host government is responsible for securing for personnel in peace operations may be categorised as general and special protection The former includes for example human rights law and international humanitarian law The latter comprises privileges and immunities accorded to agents of states or organisations The contribution of the Safety Convention is mainly one of interstate penal law co-operation States parties are obligated to co-operate in order to effectively prosecute the perpetrators of stipulated crimes The protection afforded by the Safety Convention may therefore be categorised as being part of an emerging legal regime against impunity An effective protection needs to address the specific challenges surrounding peace operations Some of these challenges identified in this study are related to the interplay between the rules of peace and war as well as responsibility and accountability of protected personnel It is also contended that there is a need for an effective implementation of existing rules and a careful development of so called status of forces agreements applicable in peace operations **Racism in the United States, Third Edition** Ann Marie Garran,Joshua L. Measuring the Effects of Racism Robert T. Carter,Alex L. Pieterse,2020-07-21 A large body of research has established a causal relationship between experiences of racial discrimination and adverse effects on mental and physical health In *Measuring the Effects of Racism* Robert T Carter and Alex L Pieterse offer a manual for mental health professionals on how to understand assess and treat the effects of racism as a psychological injury Carter and Pieterse provide guidance on how to recognize the psychological effects of racism and racial discrimination They propose an approach to understanding racism that connects particular experiences and incidents with a person s individual psychological and emotional response They detail how to evaluate the specific effects of race based encounters that produce psychological distress and possibly impairment or trauma Carter and Pieterse outline therapeutic interventions for use with individuals and groups who have experienced racial trauma and they draw attention to the importance of racial awareness for practitioners The book features a racial trauma assessment toolkit including a race based

traumatic stress symptoms scale and interview schedule Useful for both scholars and practitioners including social workers educators and counselors Measuring the Effects of Racism offers a new framework of race based traumatic stress that helps legitimize psychological reactions to experiences of racism *Resources in Education* ,2001-10 Handbook of Gender Research in Psychology Joan C. Chrisler,Donald R. McCreary,2010-03-12 Donald R McCreary and Joan C Chrisler The Development of Gender Studies in Psychology Studies of sex differences are as old as the eld of psychology and they have been conducted in every sub eld of the discipline There are probably many reasons for the popularity of these studies but three reasons seem to be most prominent First social psychological studies of person perception show that sex is especially salient in social groups It is the rst thing people notice about others and it is one of the things we remember best Fiske Haslam Stangor Lynch Duan Glass 1992 For example people may not remember who uttered a witty remark but they are likely to remember whether the quip came from a woman or a man Second many people hold rm beliefs that aspects of physiology suit men and women for particular social roles Men s greater upper body strength makes them better candidates for manual labor and their greater height gives the impression that they would make good leaders i e people we look up to Women s reproductive capacity and the caretaking tasks e g breastfeeding baby minding that accompany it make them seem suitable for other roles that require gentleness and nurturance Third the logic that underlies hypothesis testing in the sciences is focused on difference Researchers design their studies with the hope that they can reject the null hypothesis that experimental groups do not differ Racism and Discrimination in Britain Paul Gordon,Francesca Klug,1984 **An Investigation of Racial Disadvantage** Derek Leslie,1998 Focusing on Great Britain as a case study of the economic consequences of discrimination against racial minorities Derek economics Manchester Metropolitan U and colleagues from elsewhere in the UK address models of discrimination the international context of immigration the wage gap and unemployment in Britain s ethnic communities self employment and occupational choice earnings in the 1970s and 1980s and staying on rates in full time education They conclude that economists data and models can offer insights into and guide policy options re the complexities of economically disadvantaged ethnic groups globally Distributed in the US by St Martin s Press Annotation copyrighted by Book News Inc Portland OR
