Pattison Portrait Of A Capitalist Superstar:

Pattison Russell Kelly,1986-01-01 **I Know that Name!** Mark Kearney,Randy Ray,2002-09 Full of fun facts intriguing trivia and engrossing explorations of more than 100 Canadians who beat the odds to become household names *A Better Place on Earth* Andrew MacLeod,2015-04-25 In British Columbia like most of the world the wealth of the richest one percent has grown exponentially in recent decades while the majority have found their incomes stagnant or even declining The top 10 percent in BC now hold 56.2 percent of the wealth a greater share than anywhere else in Canada Our richest have wealth counted in the billions while the poorest sleep in downtown doorways or have to choose between medicine and food Those in the middle report working harder without getting ahead and many British Columbians owe more than they own To illustrate the wide ranging ramifications of inequality MacLeod interviews economists politicians policy makers and activists as well as those living on the edge a single parent whose child support payments are clawed back by the government a 25 year old struggling to live on disability payments who won't share his identity for fear of repercussions from the system a security guard who wasn't given bathroom breaks didn't drink water at work and eventually had to have a kidney removed as a result of severe dehydration Some assume that such disparity is inevitable even in BC a wealthy province lauded by the government as The Best Place on Earth However MacLeod deftly argues that British Columbians are living with the consequences of short sighted public policies and adjusting those policies can achieve a different set of results Informative well researched cautionary and hopeful *A Better Place on Earth* provides an in depth look at inequality and suggests what British Columbians can do to make sure everyone's basic needs are met pull back stratospheric incomes and create a fairer society **The Big Book of Canadian Trivia** Mark Kearney,Randy Ray,2009-04-27 Here in one big book is all the trivia and facts about Canada anyone needs to know The Big Book is jam packed with facts and stories There are stories of important Canadian artifacts and history including what became of Canada's World War II spy camp All regions and provinces are covered as well as important Canadian figures like John Molson Elizabeth Arden and Russ Jackson If that isn't enough there will also be pieces explaining whatever happened to such Canadian icons as the last spike the first skidoo and the first Tim Hortons donut shop Some of the items are classics Others are little known facts Approximately 25% of the material has never before appeared in print This fascinating Big Book brings together for the first time in one package the most notable facts and trivia from the archives of the trivia guys collection *Evictions and the Right to Housing* International Development Research Centre (Canada),1998 *Evictions and the Right to Housing* Experience from Canada Chile the Dominican Republic South Africa and South Korea *Cannibal Tours and Glass Boxes* Michael M. Ames,2010-10-01 *Cannibal Tours and Glass Boxes* poses a number of probing questions about the role and responsibility of museums and anthropology in the contemporary world In it Michael Ames an internationally renowned museum director challenges popular concepts and criticisms of museums and presents an alternate perspective which reflects his experiences from many years of museum work Based on the author's

previous book *Museums the Public and Anthropology* the new edition includes seven new essays which argue as in the previous volume that museums and anthropologists must contextualize and critique themselves they must analyse and critique the social political and economic systems within which they work In the new essays Ames looks at the role of consumerism and the market economy in the production of such phenomena as worlds fairs and McDonald s hamburger chains referring to them as museums of everyday life and indicating the way in which they like museums transform ideology into commonsense thus reinforcing and perpetuating hegemonic control over how people think about and represent themselves He also discusses the moral political ramifications of conflicting attitudes towards Aboriginal art is it art or artifact censorship is it liberating or repressive and museum exhibits are they informative or disinformative The earlier essays outline the development of museums in the Western world the problems faced by anthropologists in attempting to deal with the often conflicting demands of professional as opposed to public interests the tendency to both fabricate and stereotype and the need to establish a reciprocal rather than exploitative relationship between museums anthropologists and Aboriginal people Written during the course of the last decade these essays offer an accessible often anecdotal journey through one professional anthropologist s concerns about and hopes for his discipline and its future
