*Claudel* Angelo Caranfa, 1989 Exploring Paul Claudel's relationship to the creative geniuses Gide Merleau Ponty Proust Redon Sartre Van Gogh and Weil this work clearly demonstrates Claudel's centrality to aesthetic philosophy in France and the profound connection in his work between aesthetics and religious faith **The Triumph of the Dark** Zara

Steiner, 2011-03-31 In this magisterial narrative Zara Steiner traces the twisted road to war that began with Hitler's assumption of power in Germany Covering a wide geographical canvas from America to the Far East Steiner provides an indispensable reassessment of the most disputed events of these tumultuous years Steiner underlines the far reaching consequences of the Great Depression which shifted the initiative in international affairs from those who upheld the status quo to those who were intent on destroying it In Europe the 1930s were Hitler's years He moved the major chess pieces on the board forcing the others to respond From the start Steiner argues he intended war and he repeatedly gambled on Germany's future to acquire the necessary resources to fulfil his continental ambitions Only war could have stopped him an unwelcome message for most of Europe Misperception miscomprehension and misjudgment on the part of the other Great Powers leaders opened the way for Hitler's repeated diplomatic successes It is ideology that distinguished the Hitler era from previous struggles for the mastery of Europe Ideological presumptions created false images and raised barriers to understanding that even good intelligence could not penetrate Only when the leaders of Britain and France realized the scale of Hitler's ambition and the challenge Germany posed to their Great Power status did they finally declare war

**Ambition**, 1919 *From Awakening to Secession* Timothy Stunt, 2000-06-01 A major study of the impact of the Swiss RTveil Awakening on British evangelicals in the 1820s This book provides an important synthesis of a variety of tendencies and movements which have usually been treated and understood as separate By resisting the temptation to read back into the 1820s the partisan labels of later decades Timothy Stunt rediscovers the common ground which was shared by a wide spectrum of Christians who were later seen as mutually hostile The author considers the influence of the Awakening on radical attitudes to mission and ecclesiastical radicalism in Ireland pre Tractarian Oxford and Scotland In dealing with the

reluctant movement towards secession from the established church Stunt illuminates and reinterprets the origins of the early Catholic Apostolic Church and the Brethren

**A Man for All Markets** Edward O. Thorp, 2018-04-17 The incredible true story of the card counting mathematics professor who taught the world how to beat the dealer and as the first of the great quantitative investors ushered in a revolution on Wall Street A child of the Great Depression legendary mathematician Edward O Thorp invented card counting proving the seemingly impossible that you could beat the dealer at the blackjack table As a result he launched a gambling renaissance His remarkable success and mathematically unassailable method caused such an uproar that casinos altered the rules of the game to thwart him and the legions he inspired They barred him from their premises even put his life in jeopardy Nonetheless gambling was forever changed Thereafter Thorp shifted his sights to the biggest casino in the world Wall Street Devising and then deploying mathematical formulas to beat the market Thorp ushered in the era of quantitative finance we live in today Along the way the so called godfather of the quants played bridge with Warren Buffett crossed swords with a young Rudy Giuliani detected the Bernie Madoff scheme and to beat the game of roulette invented with Claude Shannon the world's first wearable computer Here for the first time Thorp tells the story of what he did how he did it his passions and motivations and the curiosity that has always driven him to disregard conventional wisdom and devise game changing solutions to seemingly insoluble problems An intellectual thrill ride replete with practical wisdom that can guide us all in uncertain financial waters A Man for All Markets is an instant classic a book that challenges its readers to think logically about a seemingly irrational world Praise for A Man for All Markets In A Man for All Markets Thorp delightfully recounts his progress if that is the word from college teacher to gambler to hedge fund manager Along the way we learn important lessons about the functioning of markets and the logic of investment The Wall Street Journal Thorp gives a biological summation think Richard Feynman's Surely You're Joking Mr Feynman of his quest to prove the aphorism the house always wins is flawed Illuminating for the mathematically inclined and cautionary for would be gamblers and day traders Library Journal
