T. Scott, 2010-01-01 This book sets out to explore the way with the onset of a new and integral relationship between text and image the modern poster is able to evolve distinctive persuasive strategies that will transform modern advertising The book shows how this fundamental development is closely related to contemporary developments in the visual arts in particular Futurism and Art Deco and reflects the increasing cross fertilisation and symbiosis between art and graphic design The book focuses in particular on the way conventional textual strategies metaphor metonymy rebus are adapted by the modern poster to produce visual or textual visual equivalents which through their employment of combined pictorial and linguistic elements maximise their attractive or persuasive power over the viewer reader A key aim of the book is to clarify the assumptions on which semiology the study of signs is based in the context of modern poster artists practice The text-image relation is explored through five chapters focussing on 1 the rhetoric of image-text in general 2 text and image in airline logos British Airways and Air France 3 visual metonymies in boxing posters 4 text and image in posters expressing speed 5 text-image in Swiss tourist posters There are approximately 120 colour illustrations arranged in groups that reflect the different orientations of the chapters **Catalog of the Library of the Museum of Modern Art: Col** Museum of Modern Art (New York, N.Y.). Colonial Metropolis Jennifer Anne Boittin, 2010-06-01 World War I gave colonial migrants and French women unprecedented access to the workplaces and nightlife of Paris After the war they were expected to return without protest to their homes either overseas or metropolitan Neither group however was willing to be discarded Between the world wars the mesmerizing capital of France's colonial empire attracted denizens from Africa the Caribbean and the United States Paris became not merely their home but also a site for political engagement Colonial Metropolis tells the story of the interactions and connections of these black colonial migrants and white feminists in the social cultural and political world of interwar Paris and of how both were denied certain rights lauded by the Third Republic such as the vote how they suffered from sensationalist depictions in popular culture and how they pursued parity in ways that were often interpreted as politically subversive This compelling book maps the intellectual and physical locales that the disenfranchised residents of Paris frequented revealing where their stories intersected and how the personal and local became political and transnational With a focus on art culture and politics this study reveals how both groups considered themselves inhabitants of a colonial metropolis and uncovers the strategies they used to colonize the city Together through the politics of anti imperialism
