Paul Nash Paul Nash,2003 DESCRIPTIONPaul Nash was born in London in 1889 the son of a successful lawyer Influenced by the work of William Blake and contemporary Stanley Spencer Nash held shows in 1912 and 1913 before joining the Artists Rifles upon the outbreak of World War I It was as a result of his harrowing experience in the trenches that his work developed from early imaginary landscapes to the harsh world of tragedy and triumph that he experienced on the Western Front The essays in the book examine the dominant themes evident throughout Nash s career decay death and renewal and cycles of nature and place them in the context of British national

sensibility during the interwar years They also discuss the tension between the artist's increasing fascination with heritage prehistoric cultures and primitive forms and the invocation of the modern through industrialization technology and the machine aesthetic This book reveals Nash as a painter who looked both back to the humanist English landscape tradition and forward to the technological age Who's who in Art Bernard Dolman,1927 *Herbert Read* Robin Skelton,2015-07-24 As a poet and critic of art and literature and as a social and political philosopher Sir Herbert Read exerted an important influence on the culture of his time Not only did he assist and inspire many writers and artists but through his work for the idea of education through art he greatly influenced education in particular the teaching of art and literature in schools For this symposium first issued in 1969 as the ninth number of *The Malahat Review* Professor Skelton has gathered together original essays poems and drawings which illustrate many aspects of Sir Herbert Read's life and work **The Tate Gallery 1980-82** Tate Gallery,1984 *Aircraft* David Pascoe,2004-09-03 In his celebrated manifesto *Aircraft* 1935 the architect Le Corbusier presented more than 100 photographs celebrating airplanes either in imperious flight or elegantly at rest Dwelling on the artfully abstracted shapes of noses wings and tails he declared Ponder a moment on the truth of these objects Clearness of function In *Aircraft* David Pascoe follows this lead and offers a startling new account of the form of the airplane an object that in the course of a hundred years has developed from a flimsy contraption of wood wire and canvas into a machine compounded of exotic materials whose wings can touch the edges of space Tracing the airplane through the twentieth century he considers the subject from a number of perspectives as an inspiration for artists architects and politicians as a miracle of engineering as a product of industrialized culture as a device of military ambition and finally in its clearness of function as an instance of sublime technology Profusely illustrated and authoritatively written *Aircraft* offers not just a fresh account of aeronautical design documenting in particular the forms of earlier flying machines and the dependence of later projects upon them but also provides a cultural history of an object whose very shape contains the dreams and nightmares of the modern age **A Fractured Landscape of Modernity** J. Wilkes,2014-01-21 This book uses the contradictions fractures and coincidences of a twentieth century rural landscape to explore new methods of writing place beyond new nature writing In doing so it opens up new ways of reading modernist artists and writers such as Vanessa Bell Mary Butts and Paul Nash
