Paul Valéry An Anthology:

Paul Valéry, an Anthology Paul Valéry, 1977-07-21 James R Lawler's elegant introduction deals with Valéry's concerns and his influence and also with critical interpretations of his work. The volume begins with *The Evening with Monsieur Teste* 1896 from the famous anti novel *Monsieur Teste* for whose translation Jackson Mathews received the National Book Award in 1974. It includes such notable essays as *The Introduction to the Method of Leonardo da Vinci*, *The Crisis of Mind and Poetry* and *Abstract Thought*. The importance of Valéry's prose poetry has only recently been recognized and a selection is presented here. There are also ten of his best known poems in verse among them *La Jeune Parque* and *Le Cimetière Marin* with the French texts facing the English translations by David Paul. The anthology closes with two dialogues one dating from the twenties the other from 1943 which demonstrate the play of ideas the intellectual vigor and grace that are characteristic of Valéry's work as a whole. The Collected Works of Paul Valéry Paul Valéry, 1977 **PAUL VALÉRY: AN ANTHOLOGY J. R. LAWLER. P. A. VALER, An Anthology of Modern French Poetry, 1927** **The Making of T.S. Eliot** Joseph Maddrey, 2009-05-13 This chronological survey of major influences on T.S. Eliot's worldview covers the poet's spiritual and intellectual evolution in stages by trying to see the world as Eliot did. It examines his childhood influences as well as the literary influences that inspired him to write his earliest poetry his life as an American expatriate living in London from 1915 to 1930 including his ill-fated marriage and his intellectual engagement with the literary traditions of his new country and the ways in which his intellectual pursuits fostered a spiritual rebirth that simultaneously reflected his past and revealed his future demonstrating how the early Romantic revolutionary became a staunch defender of tradition. Paul Valéry Agathe Rouart Valéry, 1966 *This Side of Philosophy* Stephen Gingerich, 2023-02-01 Struck by the contrast between the prestige of their literary tradition and their apparent philosophical insignificance modern writers from

Spain have devoted themselves to exploring the relation between literature and philosophy This Side of Philosophy focuses on four major authors Miguel de Unamuno Jos Ortega y Gasset Antonio Machado and Mar a Zambrano who engage literary resources in order to reach beyond philosophy to the essential sources of life Connecting their work to that of other European thinkers dedicated to illuminating the fertile interaction of literature and philosophy especially Plato Schlegel Heidegger and Derrida Stephen Gingerich makes a case for the relevance of Spanish thought to contemporary efforts to expand the ethical and theoretical powers of thinking through literature At the same time Gingerich challenges the conventional view that contemporary Spanish thought fuses or reconciles literature and philosophy instead discerning a call to appreciate their difference in relation For these writers literature and philosophy are repulsed by each other as inexorably as they are drawn together

Unselfing Michaela Hulstyn, 2022-08-31 Altered states of consciousness including experiences of deprivation pain hallucination fear desire alienation and spiritual transcendence can transform the ordinary experience of selfhood Unselfing explores the nature of disruptive self experiences and the different shapes they have taken in literary writing The book focuses on the tension between rival conceptions of unselfing as either a form of productive self transcendence or a form of alienating self loss Michaela Hulstyn explores the shapes and meanings of unselfing through the framework of the global French literary world encompassing texts by modernist figures in France and Belgium alongside writers from Algeria Rwanda and Morocco Together these diverse texts prompt a re evaluation of the consequences of the loss or the transcendence of the self Through a series of close readings Hulstyn offers a new account of the ethical questions raised by altered states and shows how philosophies of empathy can be tested against and often challenged by literary works Drawing on cognitive science and phenomenology Unselfing provides a new methodology for approaching texts that give shape to the fringes of conscious experience
