Paul Met Artie: The Story of Simon & Garfunkel G. Neri, 2018-03-20 From childhood friendship to musical greatness Neri and Litchfield chronicle the path that led two young boys from Queens to find their own true voices and captivate the world with their talent Back matter includes an Afterword a discography a bibliography and a fascinating list of song influences Full color Beyond Memory Max Mojapelo, 2008 South Africa possesses one of the richest popular music traditions in the world from marabi to mbaqanga from boeremusiek to bubblegum from kwela to kwaito Yet the risk that future generations of South Africans will not know their musical roots is very real Of all the recordings made here since the 1930s thousands have been lost for ever for the powers that be never deemed them worthy of preservation And if one peruses the books that exist on South African popular music one still finds that their authors have on occasion jumped to conclusions that were not as foregone as they had assumed Yet the fault lies not with them rather in the fact that there has been precious little documentation in South Africa of who played what or who recorded what with whom and when This is true of all music making in this country though it is most striking in the musics of the black communities Beyond Memory Recording the History Moments and Memories of South African Music is an invaluable publication because it offers a first hand account of the South African music scene of the past decades from the pen of a man Max Thamagana Mojapelo who was situated in the very thick of things thanks to his job as a deejay at the South African Broadcasting Corporation This book astonishing for the breadth of its coverage is based on his diaries on interviews he conducted and on numerous other sources and we find in it not only the well known names of recent South African music but a countless host of others whose

contribution must be recorded if we and future generations are to gain an accurate picture of South African music history of the late 20th and early 21st centuries

FROM THE INTRODUCTION This book tells of the journeys in both directions between village and city between saxophone and cellphone between Langa and Cape Town between America and Africa that over the past century have created the unique sound dubbed South African Jazz The term itself is contentious As in America some politically aware South African players dislike the term for its social connotations The term jazz was used to describe the music of brothels It was simply

another way of denigrating the creativity of African musicians says percussionist and composer Ndikho Xaba And as in the rest of the world many musical explorers resent the constraints of an externally defined musical box In South Africa apartheid overlaid the word with other more sinister connotations In some critical and ethno musicological contexts the music was evaluated by the degree of its American ness and denigrated as impure when it employed African idioms in composition or playing Also under apartheid the white authorities found it unacceptable that black musicians should be acknowledged as capable of playing such sophisticated music And so symbolic annihilation became part of the hegemonic staging and broadcasting of jazz Playing behind a screen at Cape Town City Hall while a white musician mimed his notes reedman Winston Mankunku Ngozi was billed as Winston Mann In radio broadcasts pianist Tony Schilder heard himself rechristened Peter Evans and trumpeter Johnny Mekoamebotha became Johnny Keen
