Saving the American Dream Louis Hernandez Jr., 2012-03-12 *Saving the American Dream* is a provocative and thoughtful account of how our nations ideals of equality and the pursuit of happiness emerged as an inspiration and a beacon of hope for the entire world and how politicians Wall Street and our own sense of entitlement have gradually eroded this Dream to the point of endangering Americas preeminence In this fascinating and informative book Louis Hernandez Jr explores the origins evolution and economic underpinnings of the American Dream detailing how key government policies over facilitated the Dreams attainment weakened the will of the American people and drove us inexorably toward the 2007 financial crisis He shows how policies put in place after the crisis not only failed to address the core problems America faces but created a growing disconnect between Wall Street and Main Street that has made things
