Raising Standards State Policies To Improve Academic Preparation For College:

Raising Standards Patricia A. Flanagan, 1999-03 Examines state higher education policies that influence student preparation for college Three policy areas are the focus of this state by state analysis raising admissions requirements for public four year colleges providing regular feedback on student preparation to high schools and establishing statewide merit aid programs **Raising Standards** ,1992 Key High School Reform Strategies Mary G. Visser, David Emanuel, Peter Teitelbaum, 1999 **Resources in Education** ,2001-04 **Pathways to Academic Success in Higher Education** Edward P. St. John, Glenda Droogsma Musoba, 2010-07-02 Pathways to Academic Success in Higher Education examines two major challenges facing the nation preparing high school students for college and creating new pathways to academic success for underrepresented students in higher education *Recent Department of Education Publications in ERIC* United States. Department of Education, 1994 *Recent Department of Education Publications in ERIC* United States. Dept. of Education, 1994 **Higher Education: Handbook of Theory and Research** John C. Smart, Michael B. Paulsen, 2011-03-24 Published annually since 1985 the Handbook series provides a compendium of thorough and integrative literature reviews on a diverse array of topics of interest to the higher education scholarly and policy communities Each chapter provides a comprehensive review of research findings on a selected topic critiques the research literature in terms of its conceptual and methodological rigor and sets forth an agenda for future research intended to advance knowledge on the chosen topic The Handbook focuses on twelve general areas that encompass the salient dimensions of scholarly and policy inquiries undertaken in the international higher education community The series is fortunate to have attracted annual contributions from distinguished scholars throughout the world **Trends in High School Vocational/technical Coursetaking** Karen Levesque, 2003 Vocational Education in the United States ,2000 **Fairness in Access to Higher Education in a Global Perspective** Heinz-Dieter Meyer, Edward P. St. John, Maia Chankseliani, Lina Uribe, 2013-04-20 The purpose of this volume is to help jump start an urgently needed conversation about fairness and justice in access to higher education to counteract the ubiquitous mantras of neoliberal globalization and managerialism The book seeks to carve out a strong moral and normative basis for opposing mainstream developments that engender increasing inequality and market dependency in higher education The book's chapters consider how different national communities channel access to higher education what their implicit social contracts are and what outcomes are produced by different policies and methods The book is essential reading for scholars of higher education and students concerned with increasing inequality in a globalizing educational marketplace *Community Update* ,1993 **Handbook for the College Admissions Profession** Stanley E. Henderson, Claire C. Swann, 1998-04-23 Through expert essays this handbook covers all aspects of the admissions process from a historical overview to a guide to future trends Both new and experienced admissions officers and educational administrators will find here essential tools for successfully recruiting and enrolling a desirable mix of students for their

institutions This handbook has been prepared by the foremost leaders in the college admissions profession under the auspices of the American Association of Registrars and Admissions Officers Topics include the dilemma of quantity versus quality in admissions recruiting understanding enrollment management marketing strategies the role of technology and student body diversity including international students

ASK The Attainment Agenda Laura W. Perna, Joni E. Finney, 2014-05-01 How state leadership determines effective higher education attainment Although the federal government invests substantial resources into student financial aid states have the primary responsibility for policies that raise overall higher educational attainment and improve equity across groups The importance of understanding how states may accomplish these goals has never been greater as educational attainment is increasingly required for economic and social

well being of individuals and society Drawing on data collected from case studies of the relationship between public policy and higher education performance in five states Georgia Illinois Maryland Texas and Washington The Attainment Agenda offers a framework for understanding how state public policy can effectively promote educational attainment Laura W Perna and Joni E Finney argue that there is no silver bullet to improve higher education attainment Instead achieving the required levels of attainment demands a comprehensive approach State leaders must consider how performance in one area such as degree completion is connected to performance in other areas such as preparation or affordability how particular policies interact to produce expected and unexpected outcomes and how policy approaches must be adapted to reflect their particular context The authors call for greater attention to the state role in providing policy leadership to advance a cohesive public agenda for higher education and adopting public policies that not only increase the demand for and supply of higher education but also level the playing field for higher educational opportunity The insights offered in The Attainment Agenda have important implications for public policymakers college and university leaders and educational researchers interested in ensuring sustained higher education attainment

Public Policy and Higher Education Edward P. St. John, Nathan J. Daun-Barnett, Karen M. Moronski-Chapman, 2018-05-04 Public Policy and Higher Education provides readers with new ways to analyze complex state policies and offers the tools to examine how policies affect students access and success in college Rather than arguing for a single approach the authors examine how policymakers and higher education administrators can work to inform and influence change within systems of higher education using research based evidence along with consideration of political and historical values and beliefs Raising new questions and examining recent developments this updated edition is an invaluable resource for graduate students administrators policymakers and researchers who seek to learn more about the crucial contexts underlying policy decisions and college access Special Features Case Studies allow readers to examine strategies used by different types of colleges to improve access and retention Reflective Exercises encourage readers to discuss state and campus context for policy decisions and to think about the strategies used in a state or institution Approachable Explanations unpack complex public policies and financial strategies for readers who seek understanding of public policy in higher education Research Based Recommendations explore how policymakers higher education administrators and faculty can work together to improve quality diversity and financial stewardship New epilogues and a revised Part III reexamine themes and encourage critical thinking about inequality and policy change

Higher Education and School Reform P. Michael Timpane, 1998-05-29 Higher Education and School Reform helps define what schools and higher education need from each other and explores new models for coordinated education policy It analyzes key aspects of higher education school interactions teacher education partnerships for learning college preparatory curricula admissions practices and faculty research endeavors to uncover the factors that stand in the way of more effective collaboration Examining the critical relationship between higher education institutions and K 12 schools especially higher

education's role in implementing systemic school reform the contributors explore new models for a more productive working relationship

Education and the Public Interest Edward P. St. John, 2007-05-28 Economic globalization has been accompanied by implementation of education reforms linked to accountability and public finance schemes that emphasize student choice in schools and student loans in higher education In the U S these reforms are rationalized based on intermediate variables like the number of math credits completed in high school and net prices However the reforms rationalized based on this research are seldom evaluated in relation to outcomes i.e. measures of student achievement and equal opportunity to attain an education In Education and the Public Interest the editor re-examines the political rationales for these reforms John Rawls's theory of justice is reconstructed to develop a framework for assessing the effects of public policy on these outcomes This volume undertakes a comparative study of the states in the U S to examine how education reforms influence student achievement high school graduation and college access and finance schemes influence college access Policies implemented by states in the 1990s were associated with improved achievement as measured by test scores for high school students These policies also correlate with increased high school drop out rates and the widening gap in college enrolment rates across income groups This volume considers how privatization and accountability policies can be reconstructed to reduce inequality while continuing to improve student achievement and college enrolment I enjoyed reading the book and benefited from it and I feel confident others will as well I

am particularly taken by its sweep and by the skill and persuasiveness with which the author ties together the broad trends and themes of privatization globalization school reform preparation equity equality and college access Prof James C Hearn Vanderbilt University USA What I especially like about this book is the framing of the importance of the topic in terms of the global political and economic changes and the notion of access to quality education as a basic right Prof Laura W Perna College of Education University of Maryland USA

Public Policy and Higher Education Nathan J. Daun-Barnett, Edward P. St. John, 2024-11-15
