**Protecting Intellectual Property in the Arabian Peninsula** David Price, Alhanoof AlDebasi, 2017-09-13 This work examines the endeavours of the Arabian Peninsula States namely the Gulf Cooperation Council member States of Bahrain Kuwait Oman Qatar Saudi Arabia and the UAE as well as Jordan and Yemen as prospective GCC members in establishing national intellectual property protection regimes which both meet their international treaty obligations and are also congruent with their domestic policy objectives It uses the WTO s TRIPS Agreement of 1995 as the universal benchmark against which the region s laws are assessed The challenges faced by the States in enforcing their intellectual property laws receive particular attention Protecting Intellectual Property in the Arabian Peninsula considers the changing nature of the States intellectual property laws since 1995 It argues that the decade immediately following the TRIPS Agreement was marked by a period of foreign forces shaping or influencing the character of the States intellectual property legislative regimes primarily through multilateral or bilateral trade based agreements The second and current decade however see a significant shift away from foreign influences and a move towards domestic and regional imperatives and initiatives taking over The work also examines regional initiatives for the protection of traditional knowledge and cultural heritage as areas of intellectual property which fall outside the parameters of the TRIPS Agreement but which are of significant concern to the States and other developing countries and to which they are giving increasing attention in terms of providing proper protection

increasingly acceptable and even desirable throughout the Western world From Righteousness to Far Right follows nineteen months of ethnographic fieldwork with a grassroots NGO in a small Swedish village where over one hundred refugees were housed Through an embedded anthropological study of day to day life in refugee resettlement Emma Mc Cluskey examines how increasingly antagonistic and xenophobic policies concerning refugees gained legitimacy Arguing that existing approaches to critical security studies inadequately address the textured contradictory and often resistant practices of everyday life within societies Mc Cluskey re gears securitization theory along anthropological lines and shifts the focus of the investigation onto the quotidian realm where much of the controversy over migration and security plays out A provocative and original political statement on today s increasingly conservative society From Righteousness to Far Right presents an astounding new perspective on the recent refugee crises and the acceptance and normalization of far right and securitarian politics
