Greek women routinely wore the veil That is the unexpected finding of this meticulous study one with interesting implications for the origins of Western civilisation The Greeks popularly and rightly credited with the invention of civic openness are revealed as also part of a more Eastern tradition of seclusion Llewellyn Jones work proceeds from literary and notably from iconographic evidence In sculpture and vase painting it demonstrates the presence of the veil often covering the head but also more unobtrusively folded back onto the shoulders This discreet fashion not only gave a privileged view of the face to the ancient art consumer but also incidentally allowed the veil to escape the notice of traditional modern scholarship From Greek literary sources the author shows that full veiling of the head and face was commonplace He analyses the elaborate Greek vocabulary for veiling and explores what the veil meant to achieve He shows that the veil was a conscious extension of the house and was often referred to as tegidion literally a little roof Veiling was thus an ingenious compromise it allowed women to circulate in public while maintaining the ideal of a house bound existence Alert to the different types of veil used the author uses Greek and more modern evidence mostly from the Arab world to show how women could exploit and subvert the veil as a means of eloquent sometimes emotional communication First published in 2003 and reissued as a paperback in 2010 Llewellyn Jones book has established itself as a central and inspiring text for the study of ancient women **Full Metal**

Inventing the New Negro Daphne Lamothe,2013-03-01

It is no coincidence Daphne Lamothe writes that so many black writers and intellectuals of the first half of the twentieth century either trained formally as ethnographers or worked as amateur collectors of folklore and folk culture In *Inventing the New Negro* Lamothe explores the process by which key figures such as Zora Neale Hurston Katherine Dunham W E B Du Bois James Weldon Johnson and Sterling Brown adapted ethnography and folklore in their narratives to create a cohesive collective and modern black identity Lamothe explores how these figures assumed the roles of self reflective translators and explicators of African American and African diasporic cultures to Western largely white audiences Lamothe argues that New Negro writers ultimately shifted the presuppositions of both literary modernism and modernist anthropology by making their narratives as much about ways of understanding as they were about any quest for objective knowledge In critiquing the ethnographic framework within which they worked they confronted the classist racist and cultural biases of the dominant society and challenged their readers to imagine a different set of relations between the powerful and the oppressed *Inventing the New Negro* combines an intellectual history of one of the most important eras of African American letters with nuanced and original readings of seminal works of literature It will be of interest not only to Harlem Renaissance scholars but to anyone who is interested in the intersections of culture literature folklore and ethnography
