Rakes Progress:

The Danger of Music and Other Anti-Utopian Essays Richard Taruskin, 2008-12-02 The Danger of Music gathers some two decades of Richard Taruskin's writing on the arts and politics ranging in approach from occasional pieces for major newspapers such as the New York Times to full scale critical essays for leading intellectual journals. Hard hitting provocative and incisive these essays consider contemporary composition and performance the role of critics and historians in the life of the arts and the fraught terrain where ethics and aesthetics interact and at times conflict. Many of the works collected here have themselves excited wide debate including the title essay which considers the rights and obligations of artists in the aftermath of the 9/11 terrorist attacks. In a series of lively postscripts written especially for this volume Taruskin America's public musicologist addresses the debates he has stirred up by insisting that art is not a utopian escape and that artists inhabit the same world as the rest of society. Among the book's forty two essays are two public addresses one about the prospects for classical music at the end of the second millennium C.E. the other a revisiting of the performance issues previously discussed in the author's *Text and Act* 1995 that appear in print for the first time. Stravinsky, the Composer and His Works Eric Walter White, 1979 In the second edition of the definitive account of Stravinsky's life and work arranged in two separate sections the author revised the whole book completing the biographical section by taking it up to Stravinsky's death in 1971. To the list of works the author added some early pieces that have recently come to light as well as the late compositions including the Requiem Canticles and The Owl and the Pussycat. Four more of Stravinsky's own writings appear in the Appendices and there are several important additions to the bibliography. Opera as Drama Joseph Kerman, 2005-12-14 Focusing on operatic criticism this work is of interest to students and lovers of opera. *The New Grove Stravinsky* Stanley Sadie, John Tyrrell, 2003-03-15 Of Russian French and later American nationality Stravinsky's musical styles are startlingly diverse reflecting his life and era from Tsarist Russia to 1920s France and post war USA. His early years in Russia saw him launch his international career with Diaghilev's Ballets Russes in Paris and the premieres of The Firebird Petrushka and The Rite of Spring. Between 1920-1939 Stravinsky lived and worked in France producing his great neo-classical compositions reactivating the modes and manners of the eighteenth century. This stylistic inclination eventually gave way to a highly individual use of serial techniques in his last years when he took up residence in the United States. This biography of Igor Stravinsky is one in a new series of composer biographies derived and adapted from the second edition of The New Grove Dictionary of Music and Musicians. These newly written biographies bring the best of the book length pieces in The New Grove to a wider audience. Each title provides fresh new insights into the life and works of a major composer derived from the most recent scholarship. In addition to a detailed and informative view of the subject's life and works written by an expert in the field each book includes comprehensive tabular work lists and a fully revised and updated bibliography.

The Oxford Handbook of Faust in Music Lorna Fitzsimmons, Charles McKnight, 2019-07-08 Since its emergence in

sixteenth century Germany the magician Faust's quest has become one of the most profound themes in Western history Though variants are found across all media few adaptations have met with greater acclaim than in music Bringing together more than two dozen authors in a foundational volume The Oxford Handbook of Faust in Music testifies to the spectacular impact the Faust theme has exerted over the centuries The Handbook's three part organization enables readers to follow the evolution of Faust in music across time and stylistic periods Part I explores symphonic choral chamber and solo Faust works by composers from Beethoven to Schnittke Part II discusses the range of Faustian operas and Part III examines Faust's presence in ballet and musical theater Illustrating the interdisciplinary relationships between music and literature and the fascinating tapestry of intertextual relationships among the works of Faustian music themselves the volume suggests that rather than merely retelling the story of Faust these musical compositions contribute significant insights on the tale and its unrivalled cultural impact Engravings by Hogarth William Hogarth, 2013-06-03 Rake's Progress Harlot's Progress

in his prizewinning uncanny one of a kind work *The Changing Light at Sandover* In his virtuosic poetry and in the candid letters and diaries that enrich every page of this deliciously readable life Merrill created a prismatic art of multiple perspectives and comic self knowledge expressing hope for a world threatened by nuclear war and environmental catastrophe Holding this life and art together in a complex evolving whole Hammer illuminates Merrill s chronicles of love loss and the poignant personal journey they record
