**Under-Reporting Covid-19 Deaths: 15 Times the Official Death Toll.**

**Uk's over Half a Million People Dead. the Covid-19 Cover-Ups** Harry Myra,2021-02-28 Everyone is aware of the public outcry regarding how the elderly were abandoned to die of Covid 19 in care homes and in their houses There s a big reveal in that the UK has taken global leadership in under counting and under reporting its official death toll Countries over run by the pandemic are heavily attributing Covid 19 deaths to underlying conditions and co morbidities That has been surprising But what is even more shocking is the extent to which this has happened To say it is a tip of the iceberg is perhaps an understatement Is the UK s actual death toll as much as 15 times the official figures That s the big reveal There is a reason why the official death toll only focused only on the NHS and hospital deaths The book reveals it is a tip of the iceberg but the extent is one that is shocking The book highlights the women leaders who protected their countries from the crisis contrasting them with macho men leaders who chose the path of herd immunity even against shocking scenes yet due to massive egos refused to change course The book covers George Floyd in a unique way The race for a vaccine is presented but will the public accept the shortcuts and the methods used

**Political Assassinations and Attempts in US History** J. Michael Martinez,2017-11-14 The long dark history of political violence in the United States Violence has been employed to achieve political objectives throughout history Taking the life of a perceived enemy is as old as mankind Antiquity is filled with examples of political murders such as when Julius Caesar was felled by assassins in 44 BCE While assassinations and assassination attempts are not unique to the American way of life denizens of other nations sometimes look upon the US as populated by reckless cowboys owing to a Wild West attitude about violence especially episodes involving guns In this book J Michael Martinez focuses on assassinations and attempts in the American republic Nine American presidents Andrew Jackson Abraham Lincoln James A Garfield William McKinley Harry S Truman John F Kennedy Richard Nixon Gerald Ford and Ronald Reagan have been the targets of assassins President elect Franklin D Roosevelt was also a target shortly before he was sworn into office in 1933 Moreover three presidential candidates Theodore Roosevelt Robert F Kennedy and George Wallace were shot by assailants In addition to presidents and candidates for the presidency eight governors seven U S senators nine U S House members eleven mayors seventeen state legislators and eleven judges have been victims of political violence Not all political assassinations involve

elected officials Some of those targeted such as Joseph Smith Malcolm X and Martin Luther King Jr were public figures who influenced political issues But their cases are instructive because of their connection to and influence on the political process No other nation with a population of over 50 million people has witnessed as many political assassinations or attempts These violent episodes trigger a series of important questions First why has the United States a country constructed on a bedrock of the rule of law and firmly committed to due process been so susceptible to political violence Martinez addresses these questions as he examines twenty five instances of violence against elected officials and public figures in American history
