The power which resides in him is new in nature, and none but he knows what that is which he can do, nor does he know until he has tried.

Ralph Waldo Emerson How To Know Him:

Ralph Waldo Emerson Samuel McChord Crothers, 1973 *Ralph Waldo Emerson: how to Know Him* Samuel McChord Crothers, 1921 The mind of Emerson was a searchlight revealing not itself but the various objects on which it successively turned An intense and narrow beam of light would shoot through the darkness and reveal some object Then it would pick up another object which would have its brief moment of visibility The landscape was never revealed in any one view The only way to know Emerson is to join him in his intellectual exercises In spite of his personal aloofness I know of no one with whom we can more readily come to a feeling of intellectual intimacy He had no pretensions and no reserves In clear sentences he told us what from time to time he thought He made no attempt to connect these thoughts into a coherent system For any one else to attempt to do this would be to misrepresent him In the short chapters which follow I have treated Emerson as a contemporary rather than as a writer of the last generation His thought is as pertinent to the twentieth century as to the nineteenth Indeed I think that in many respects we may be nearer to him than were those who first listened to him The prejudices which he encountered have largely died away The problems over which he was mediating remain **Ralph**

How to Know Him ... With Portrait* Samuel McChord Crothers, 1921 *Ralph Waldo Emerson: how to know him* Samuel McChord Crothers, 1973 Manhood and the American Renaissance David Leverenz, 2019-06-30 In the view of David Leverenz such nineteenth century American male writers as Emerson Hawthorne Melville Thoreau and Whitman were influenced more profoundly by the popular model of the entrepreneurial man of force than they were by their literary precursors and contemporaries Drawing on the insights of feminist theory gender studies psychoanalytical criticism and social history *Manhood and the American Renaissance* demonstrates that gender pressures and class conflicts played as critical a role in literary creation for the male writers of nineteenth century America as they did for the women writers Leverenz interprets male American authors in terms of three major ideologies of manhood linked to the social classes in the Northeast patrician

artisan and entrepreneurial He asserts that the older ideologies of patrician gentility and of artisan independence were being challenged from 1820 to 1860 by the new middle class ideology of competitive individualism The male writers of the American Renaissance patrician almost without exception in their backgrounds and self expectations were fascinated yet horrified by the aggressive materialism and the rivalry for dominance they witnessed in the undeferential new men In close readings of the works both of well known male literary figures and of then popular authors such as Richard Henry Dana Jr and Francis Parkman Leverenz discovers a repressed center of manhood beset by fears of humiliation and masochistic fantasies He discerns different patterns in the works of Whitman with his artisan s background and Frederick Douglass who rose from artisan freedom to entrepreneurial power Emphasizing the interplay of class and gender Leverenz also considers how women viewed manhood He concludes that male writers portrayed manhood as a rivalry for dominance but contemporary female writers saw it as patriarchy Two chapters contrast the work of the genteel writers Sarah Hale and Caroline Kirkland with the evangelical works of Susan Warner and Harriet Beecher Stowe A bold and imaginative work Manhood and the American Renaissance will enlighten and inspire controversy among all students of American literature nineteenth century American history and the relation of gender and literature
