Ramon Llull's New Rhetoric Mark D. Johnston, 2020-08-13 Modern histories of medieval culture often assert without qualification that the oral exercise of public eloquence during the European Middle Ages was limited to preaching by the clergy The classical art of rhetoric supposedly survived only as a written subject for study in the schools During the past thirty years however knowledge of medieval rhetorical theory and practice has grown tremendously Historians and philologists have devoted particular attention to the relationship between oral and written communication in medieval Europe Their investigations are beginning to suggest not surprisingly that interest in eloquence was not confined to the schools or clergy Secular officials arguing in princely courts or town halls and laypeople seeking to develop their learning or piety also cultivated an interest in rhetoric Given the paucity of testimony available the New Rhetoric of the Mallorcan lay theologian and philosopher Ramon Llull 1232-1316 offers an exceptional witness to the non academic and non clerical concern for eloquence His proposals for new Christian arts of communication are among the best evidence available for assessing the diffusion of rhetorical doctrines from the cloisters and schools into the courts town halls and private chapels of Western Europe around 1300 Growing interest in Llull's work and in medieval rhetoric have combined to produce this first published edition The first part on order shows how Llull's entire program attempts to correlate ethical metaphysical and linguistic categories into a single system of Anselmian rightness The next section on beauty could almost form a complete art of preaching in itself thanks to the brief compilations of sermon material that it includes The broad range of discursive elements and techniques in which Llull seeks verbal beauty makes this section very eclectic in scope Part three on knowledge attempts to explain the diffusion of right linguistic and rhetorical doctrine almost exclusively through the Divine Dignities and other categories of the Great Art The final section on love consists of ten proverbs regarding loving speech each

Time, Space, Matter in Translation Pamela Beattie, Simona Bertacco, Tatjana Soldat-Jaffe, 2022-09-28 *Time, Space, Matter in Translation* considers time, space, and materiality as legitimate habitats of translation. By offering a linked series of interdisciplinary case studies that show translation in action beyond languages and texts, this book provides a capacious and innovative understanding of what translation is, what it does, how, and where. The volume uses translation as a means through which to interrogate processes of knowledge transfer and creation, interpretation, and reading, communication, and relationship building, but it does so in ways that refuse to privilege one discipline over another, denying any one of them an entitled perspective. The result is a book that is grounded in the disciplines of the authors and simultaneously groundbreaking in how its contributors incorporate translation studies into their work. This is key reading for students in comparative literature and in the humanities at large, and for scholars interested in seeing how expanding intellectual conversations can develop beyond traditional questions and methods.

The Art of Conversion Harvey Hames, 2021-10-01 This book discusses Ramon Llull, ca. 1232-1316, the Christian missionary philosopher and mystic, his relations with Jewish contemporaries, and how he integrated Jewish mystical teachings, Kabbalah, into his thought system so as to persuade the Jews to convert. Issues dealt with include Llull's attitude towards the Jews, his knowledge of Kabbalah, his theories regarding the Trinity and Incarnation, the Art, and the impact of his ideas on the Jewish community. The book challenges conventional scholarly opinion regarding Christian knowledge of contemporary Jewish thought and questions the assumption that Christians did not know or use Kabbalah before the Renaissance. Further, it suggests that Llull was well aware of ongoing intellectual and religious controversies within the Jewish community as well as being the first Christian to acknowledge and appreciate Kabbalah as a tool for conversion.
