Elofson, 2004-04-28 In Frontier Cattle Ranching in the Land and Times of Charlie Russell Warren Elofson debunks the myth of the American wild west and the Canadian mild west by demonstrating that cattlemen on both sides of the forty ninth parallel shared a common experience Focusing on Montana Southern Alberta Southern Saskatchewan and the well known figure of Charlie Russell an artist and storyteller from that era who spent time on both sides of the border Elofson examines the lives of cowboys and ranch owners looking closely at the prevalence of drunkenness prostitution gunplay rustling and vigilante justice in both Canada and the United States Bestowed'? J. A. Mangan, 1988 The study of the European Union has historically been a theoretical battleground Since the 1990s new theoretical directions such as neo institutionalism multi level governance and constructivism have provided a new impetus However despite these new inroads empirical work has often remained sociologically and empirically underspecified This volume seeks to bridge the gap between theory and fieldwork by developing an actor centred political sociology In doing so the volume engages in a critical dialogue with the constructivist framework and proposes to build on its insights through a sociological hardening centred on European actors The renewal of European studies through political sociology is only useful if it generates new understandings through empirical observation This volume seeks to take a new tack on constructivism by asking what it is that Europe constructs by looking at three areas social spaces and professions policy problems and policies and policy instruments such as the Eurobarometer Mavericks Aritha Van Herk, 2010-01-12 The fifth title in our provincial histories series Mavericks is an idiosyncratic and episodic history of what is arguably Canada's most unconventional province From mapmakers to ranchers Stampede Wrestling to Stockwell Day acclaimed writer Aritha van Herk brings the drama and combative beauty of this irascible province to stunning life van Herk's portrait of her home province embraces all its extremes from deadly and spectacular weather to dinosaur graveyards and from oil gushers and geysers to barnstorming social reformers and political haymakers Bronc riders of boom and bust Alberta's people are a beguiling mixture of opinionated extremists hardy pioneers and gentle sinners Alberta is a province that most Canadians simply don t understand the province most Canadians love to hate It is regarded as a land of reckless redneck and ignorant individualists But it is also the province where the Famous Five fought the landmark Person's Case giving Canadian women the same status as men in the eyes of the law a province that truly believes in free speech Albertans tolerate in their midst people whose extreme views on any manner of subjects would make them outcasts elsewhere And Albertans practice the creed of western neighbourliness

giving assiduously to charity and always lending a hand where help is needed They are a tough tender bunch squinting into the wind of determined difference If you re an Albertan you ll recognize yourself and your home in this book If you re not an Albertan this book will be an education for you Mavericks will open your eyes to the real Alberta as she was and is

Bowman, 2016-05-20 Blood Oranges traces the origins and legacy of racial differences between Anglo Americans and ethnic Mexicans Mexican nationals and Mexican Americans in the South Texas borderlands in the twentieth century Author Tim Bowman uncovers a complex web of historical circumstances that caused ethnic Mexicans in the region to rank among the poorest least educated and unhealthiest demographic in the country The key to this development Bowman finds was a modern colonization movement a process that had its roots in the Mexican American war of the nineteenth century but reached its culmination in the twentieth century South Texas in Bowman's words became an internal economy just inside of the US Mexico border Beginning in the twentieth century Anglo Americans consciously transformed the region from that of a culturally Mexican space with an economy based on cattle into one dominated by commercial agriculture focused on citrus and winter vegetables As Anglos gained political and economic control in the region they also consolidated their power along racial lines with laws and customs not unlike the Jim Crow system of southern segregation Bowman argues that the Mexican
