Disaster Nationalism Richard Seymour, 2024-10-29 Liberal civilisation is in crisis now is a time of monsters The rise of the new far right has left the world grappling with a profound misunderstanding While the spotlight often shines on the actions of charismatic leaders such as Donald Trump and Jair Bolsonaro the true peril lies elsewhere Defeating these people will not stem the tide driving them forward They are merely the embodiment of profound forces that are rarely understood Propelled through the vast networks of social media and fueled by far right influencers enthralled by images of disaster and fantasies of doom they have emerged from a reservoir of societal despair fear and isolation Within this seething cauldron we witness not only the surge of far right political movements but also the sparks of individual and collective violence against perceived enemies from lone wolf killers to terrifying pogroms Should a new fascism emerge it will coalesce from these very elements This is disaster nationalism Richard Seymour delves deep into this alarming development in world politics dissecting its roots its influencers and the threats it poses With meticulous analysis and compelling storytelling Seymour offers a stark warning The battle against disaster nationalism is not just political it is a struggle for our collective soul and the future of civilization itself Unless we understand the deeper forces propelling the far right resurgence we have little chance of stopping it
