Random Violence How We Talk About New Crimes And New Victims

John Curra

Random Violence How We Talk About New Crimes And New Victims:

Random Violence Joel Best, 1999-03-02 *Random Violence* is a deft and thought provoking exploration of the ways we talk about and why we worry about new crimes and new forms of victimization Focusing on so called random crimes such as freeway shootings gang violence hate crimes stalking and wilding Joel Best shows how new crime problems emerge and how some quickly fade from public attention while others spread and become enduring subjects of concern Best s original and incisive argument illuminates the fact that while these crimes are in actuality neither new nor epidemic nor random the language used to describe them nonetheless shapes both private fears and public policies Best scrutinizes the melodramatic quality of the American public s attitudes toward crime exposing the cultural context for the popularity of random violence as a catch all phrase to describe contemporary crime and the fallacious belief that violence is steadily rising He points out that the age race and sex of homicide victims reveal that violence is highly patterned Best also details the contemporary ideology of victimization as well as the social arrangements that create and support a victim industry that can label large numbers of victims He demonstrates why it has become commonplace to declare war on social problems including drugs crime poverty and cancer and outlines the complementary influence of media activists officials and experts in institutionalizing crime problems Intrinsic to all these concerns is the way in which policy choices and outcomes are affected by the language used to describe social problems Collective Morality and Crime in the Americas Christopher Birkbeck, 2013 This book examines the nature of collective morality as it materializes in public commentary about crime in the Americas and identifies the ways in which the moral community is talked into being and how the imagined moral universe is mapped **Courting Disaster, intimate Stalking, Culture, and Criminal Justice** Jennifer L. Dunn, Crime and Criminal Justice in American Society Randall G. Sheldon, William B. Brown, Karen S. Miller, Randal B. Fritzler, 2015-06-22 Today s headlines vividly illustrate the importance of understanding aspects of the criminal justice system too often ignored While the second edition of *Crime and Criminal Justice in American Society* includes the most recent statistics on the police courts and corrections its provocative current examples also spur critical thinking about justice in the United States The authors offer an alternative interpretation of criminal justice rarely presented in traditional textbooks or by the media They encourage readers to examine their beliefs about crime punishment and the law Discussions in the chapters about how African Americans Hispanics whites women juveniles the rich and the poor experience crime and the criminal justice system contribute context for understanding different viewpoints The poor and minorities are the most likely to be caught in the net of criminal justice but inequities have consequences for everyone Reflection on various perspectives provides helpful input for assessing attitudes and for becoming actively involved with issues that have significant consequences Eighteen thoroughly revised chapters present historical backgrounds theories and emerging issues New to the second edition is a chapter on veterans involved in the criminal justice system Affordable succinct and engaging this textbook presents the key concepts of the criminal justice system at less than

half the cost of many competing textbooks

The New Punitiveness John Pratt, David Brown, Mark Brown, Simon

Hallsworth, Wayne Morrison, 2013-06-17 Throughout much of the western world more and more people are being sent to prison one of a number of changes inspired by a new punitiveness in penal and political affairs This book seeks to understand these developments bringing together leading authorities in the field to provide a wide ranging analysis of new penal trends compare the development of differing patterns of punishment across different types of societies and to provide a range of theoretical analyses and commentaries to help understand their significance As well as increases in imprisonment this book is also concerned to address a number of other aspects of the new punitiveness firstly the return of a number of forms of punishment previously thought extinct or inappropriate such as the return of shaming punishments and chain gangs in parts of the USA and secondly the increasing public involvement in penal affairs and penal development for example in relation to length of sentences and the California Three Strikes Law and a growing accreditation of the rights of victims The book will be essential reading for students seeking to understand trends and theories of punishment on law criminology penology and other courses

Handbook of Constructionist Research James A. Holstein, Jaber F. Gubrium, 2013-10-21

Constructionism has become one of the most popular research approaches in the social sciences But until now little attention has been given to the conceptual and methodological underpinnings of the constructionist stance and the remarkable diversity within the field This cutting edge handbook brings together a dazzling array of scholars to review the foundations of constructionist research how it is put into practice in multiple disciplines and where it may be headed in the future The volume critically examines the analytic frameworks strategies of inquiry and methodological choices that together form the mosaic of contemporary constructionism making it an authoritative reference for anyone interested in conducting research in a constructionist vein

When Crime Waves

Vincent Sacco, 2005-05-11 Despite its wide usage the concept of the crime

wave has rarely been given explicit and detailed attention by criminologists It is important that we understand where they come from how they develop and what their consequences are When Crime Waves offers an in depth exploration of a large number of social issues involved in the study of crime waves Issues such as how and why crime rates change over time why some types of crime and not others come in waves and the role played by the mass media politicians and interest group leaders in the promotion of crime waves are discussed to help students develop analytical skills and apply them to real world situations Key Features Critically examines the phenomenon of crime waves in an engaging fashion Provides multiple perspectives via historical and contemporary examples throughout the book Delves into the role played by politicians and the media in creating the perception that a crime wave has occurred Presents themes of myth making cultural imagery and social constructionism When Crime Waves is intended to be a supplementary text for undergraduate criminology and sociology courses including Introduction to Criminology and Criminal Justice Crime when and where crimes occur and what contributes to the views on crime held by the police lawmakers and members of the general public

Permission to Shoot?

Jyoti Belur, 2010-09-27 Extrajudicial executions have blighted parts of the world for generations but criminological coverage has been superficial and selective in that it has concentrated on South America giving the impression that this is a problem specific to that part of the world and associated with military rule dictatorial regimes and colonial heritage *Permission to Shoot: Police Use of Deadly Force in Democracies* brings a new dimension to the problem of police abuse of deadly force by concentrating on India and the United States both large democracies and vibrant superpowers In the book the research is based on primary sources interviews with police officers of varying ranks those who are involved in the killings those who facilitate such operations and those who are mute spectators The book deals with universal fundamental themes such as what makes ordinary decent human beings do horrible things What motivational techniques and justifications are used to override social norms governing moral conduct centring on the sector of society mandated to use deadly force against civilians Why in a democratic country the abuse of police powers appears to be overtly and tacitly encouraged *Permission to Shoot* seeks to provide broad guidelines and recommendations for reforms in policing policy and practice in developing countries The research peels back the lies and deceit that surround this issue but more than that it shows how those lies and deceit act to support the practice itself **The Dark Side of the Ivory Tower** John J. Sloan III, Bonnie S. Fisher, 2010-09-30

A cursory reading of the history of US colleges and universities reveals that campus crime has been part of collegiate life since the Colonial Era yet it was not until the late 1980s that it suddenly became an issue on the public stage Drawing from numerous mass media and scholarly sources and using a theoretical framework grounded in social constructionism this text chronicles how four groups of activists college student advocates feminists victims and their families and public health experts used a variety of tactics and strategies to convince the public that campus crime posed a new danger to the safety and security of college students and the ivory tower itself while simultaneously convincing policymakers to take action against the problem Readers from a range of disciplinary interests will find the book both compelling and valuable to understanding campus crime as a newly constructed social reality *Surveillance* Sean P. Hier, Josh Greenberg, 2010-01-01

Surveillance is commonly rationalized as a practice to address existing political or social problems such as crime fraud and terrorism This book explores how surveillance disguised as managing risk or reducing harm can cause a range of problems including poverty over policing and exclusion The scholars represented in this volume interrogate the moral and ideological bases and material effects of surveillance practices and systems in diverse cultural and institutional arenas policing consumerism welfare administration disaster management popular culture moral regulation news media social movements and anti terrorism campaigns *Surveillance* addresses and asks us to consider the question How can we ensure a future in which surveillance and its consequences are not accepted as normal or necessary features of modern life *Terror Post 9/11 and the Media* David L. Altheide, 2009 Throughout the world the mass media are responsible for shaping the form and content of experiences In this book David L Altheide examines how the mass media including news and popular culture have

cast terrorism propaganda and social control post 9 11 Altheide shows how fear works with terrorism to alter discourse social meanings and our sense of being in the world Emphasis is placed on the different institutional interventions and how these particular stories become framed and inform the wider media narratives of terror The author argues that post 9 11 we are witnessing the emergence of new communication formats that not only constitute counter narratives but also shape future communicative experience The text is suitable for scholars and students interested in the ongoing relationship between the media and terror post 9 11

The Relativity of Deviance John Curra, 2019-10-21 The Relativity of Deviance is a primer on the constructivist perspective on deviance the idea that deviance cannot be explained in terms of absolutes nor can it be understood apart from its social setting The book is frequently used alongside all of the major core deviance textbooks on the market It answers such questions as What is deviant What is deviant behavior How should the deviant be treated Why is the same act sometimes praised and sometimes condemned Readers will see that what qualifies as deviance varies from place to place time to time and situation to situation The book explores some of the most frequent contexts for deviant behavior in ways that challenge definitive or objective judgments The Fifth Edition has been updated to include the most current developments in American society including deviance at the highest levels of national politics and corporate life sex abuse scandals the opioid crisis and the growing decriminalization of marijuana

[Encyclopedia of Murder and Violent Crime](#) Eric Hickey, Ph.D., 2003-07-22 Click Additional Materials for downloadable samples As a good encyclopedia does the Encyclopedia of Murder and Violent Crime brings together articles that offer diverse insights into the topic while at the same time giving the reader a feel for its overall scope

AGAINST THE GRAIN This carefully researched and excellently presented compendium will be a welcome addition to all libraries

REFERENCE USER SERVICES QUARTERLY Murder and violent crime take many forms Who are the perpetrators What do they have in common and how are they different The Encyclopedia of Murder and Violent Crime presents the latest research insightful commentary and true crime case studies to help in the understanding and deterrence of one of society's gravest problems Although there is no easy or single answer to the question of why people kill or commit violent crimes this important new reference work provides a wealth of information to create a background for cogent analysis

Written for a Wide Audience The Encyclopedia of Murder and Violent Crime is intended for a wide audience including school public and university libraries It will also prove invaluable to those who report violent crime's unfolding stories such as mass media news outlets television and radio stations editorial offices of magazines and newspapers Criminal justice professionals will also find it valuable and fascinating balance of academic research and true crime material they can relate to in their own experience

Edited by the World's Leading Authority on Multiple Homicide Offenders Eric W Hickey Ph D enjoys a worldwide reputation for his work with serial killers sex crimes workplace violence stalking and the Unabomber case A professor of criminal psychology at California State University Fresno and adjunct professor for Fresno City College and the California School of Professional Psychology Dr Hickey has published and lectured extensively on the

Social Problems Donileen Loseke, 2017-07-05 This collection of focused essays is directed at several levels of students of social problems. It is accessible to the uninitiated who are not familiar with the constructionist literature and aimed at those who are not particularly interested in subtle theoretical and empirical issues of concern to academics studying social problems from constructionist perspectives. Some readings focus on the construction of problems by scientists and other professionals; others examine the work of social activists, mass media, and social service personnel. Among the topics included are studies of social inequalities and individual deviance, a comparison of the images of social problems in the United States with those in other countries, and an examination of the importance of politics and power in constructing public images of social problems. Constructionist perspectives have become the leading theoretical approach for sociology and allied fields in studying social problems. Yet constructionists' impact on the teaching of social problems has been far less dramatic. Undergraduate courses on social problems are often subject to a theoretical barrage of eclectic perspectives. Just as the first social problems textbooks did almost a century ago, textbooks continue to present a series of unrelated chapters, each devoted to a particular social problem. *Social Problems* is an effort at systematic analysis rather than random thought on the subject. *Social Problems* presents detailed case studies demonstrating how constructionist perspectives can actually be applied to understand particular social problems. While these articles can be read alone, the editors have organized these selections to correspond with the chapter topics in the second edition of Donileen Loseke's *Thinking about Social Problems*, an accessible introduction to constructionist approaches. At the same time, some instructors who use this edited collection might wish to provide the

The Social Construction of Crime: Oxford Bibliographies Online Research Guide Oxford University Press, 2010-05-01 This ebook is a selective guide designed to help scholars and students of criminology find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear, from books, chapters, and journal articles to online archives, electronic data sets, and blogs. Written by a leading international authority on the subject, the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated. A reader will discover, for instance, the most reliable introductions and overviews to the topic and the most important publications on various areas of scholarly interest within this topic. In criminology, as in other disciplines, researchers at all levels are drowning in potentially useful scholarly information, and this guide has been created as a tool for cutting through that material to find the exact source you need. This ebook is a static version of an article from Oxford

Bibliographies Online Criminology a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study and practice of criminology Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit www.oxfordbibliographies.com

Terrorism and the Politics of Fear David L. Altheide, 2017-06-27 This thoughtful text demonstrates how the mass media constructs a politics of fear in the United States Using a social interactionist perspective the chapters examines such issues as the expansion of surveillance on the Internet the construction of a terrorism fighting hero to promote patriotism the use of social media by terror groups the fear of the other fostered by the refugee crisis and western radicalization as well as the mass mediated reaction to recent terrorist attacks Also covered are the politics of fear involving disease Ebola Zika social control efforts and harsh attacks on American governmental officials for not keeping people safe from harm All chapters in this new edition have been updated with descriptions and relevant analysis of significant events including two Israeli Hamas wars terrorism attacks e g Boston Marathon Charlie Hebdo San Bernadino etc global reactions often hostility to refugees in the United States and especially Europe the development of ISIS surveillance Wiki Leaks Snowden NSA and the growing significance of social media The text explains how the social construction of fear is used to steer public and foreign policy arguing that security policies to protect the citizenry from violence have become control systems that most often curtail privacy and civil liberties

The SAGE Dictionary of Criminology Eugene McLaughlin, Professor John Muncie, 2001-05-08 Eugene McLaughlin and John Muncie have brought together for the first time the work of some 70 academics and practitioners worldwide to produce the definitive reference and research tool for criminological studies and related fields The Sage Dictionary of Criminology is informed by the principle that criminology is a contested contradictory and interdisciplinary discourse marked by constant incursion interactions translations deviations and transgressions It is this diversity that makes the study of crime and criminal justice both complex and challenging The dictionary sets out and explores traditional and emergent agendas in criminological studies to not only reveal its grounding in a myriad of theoretical and conceptual

Reinventing Justice James L. Nolan Jr., 2021-07-13 Drug courts offer radically new ways to deal with the legal and social problems presented by repeat drug offenders often dismissing criminal charges as an incentive for participation in therapeutic programs Since the first drug court opened in 1989 in Florida close to 600 have been established throughout the United States Although some observers have questioned their efficacy no one until now has constructed an overall picture of the drug court phenomenon and its place in an American history of the social control of drugs Here James Nolan examines not only how therapeutic strategies deviate from traditional judiciary proceedings but also how these differences reflect changes afoot in American culture and conceptions of justice Nolan draws upon extensive fieldwork to analyze a new type of courtroom drama in which the judge engages directly and regularly with the defendant turned client lawyers play a reduced and less adversarial role and treatment providers exert unprecedented influence in determining judicially imposed sanctions

The author considers the intended as well as unexpected consequences of therapeutic jurisprudence for example behavior undergoes a pathological reinterpretation guilt is discredited and the client's life story and ability to convince the judge of his or her willingness to change take on a new importance Nolan finds that fueled in part by the strength of therapeutic sensibilities in American culture the drug court movement continues to expand and advances with it new understandings of the meaning and practice of justice

Criminology Chris Hale, Keith Hayward, Azrini Wahidin, Emma Wincup, 2013-06-13 Criminology is a broad ranging and stimulating introduction that is ideal for undergraduates approaching the subject for the first time Each chapter is written by an expert in their field and includes a range of learning features designed to help students engage with the material covered

Thinking About Social Problems Donileen Loseke, 2017-07-05 The new second edition of this distinctive and widely adopted textbook brings into the classroom an overview of how images of social problems can shape not only public policy and social services but also the ways in which we make sense of ourselves and others It introduces two primary changes First some attention is devoted to the new social movements that emphasize social change through identity transformation rather than through structural change Second the text now also looks more closely at the importance of emotions in constructing public consciousness of social problems When the first edition was published Teaching Sociology noted Loseke does a superb job explaining the relationship between sociology and social problems in a text that is very well researched and engaging yet with tremendous attention to detail and accuracy Would provide a solid base for any social problems class Contemporary Sociology wrote that the book is engagingly well written in a personal unpretentious style and well informed by the author's knowledge of the professional literature

Random Violence How We Talk About New Crimes And New Victims Introduction

In the digital age, access to information has become easier than ever before. The ability to download Random Violence How We Talk About New Crimes And New Victims has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Random Violence How We Talk About New Crimes And New Victims has opened up a world of possibilities. Downloading Random Violence How We Talk About New Crimes And New Victims provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Random Violence How We Talk About New Crimes And New Victims has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Random Violence How We Talk About New Crimes And New Victims. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Random Violence How We Talk About New Crimes And New Victims. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not

only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Random Violence How We Talk About New Crimes And New Victims, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Random Violence How We Talk About New Crimes And New Victims has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Random Violence How We Talk About New Crimes And New Victims Books
