Random House Historical Dictionary of American Slang: A-G Jonathan E. Lighter, Random House (Firm), 1994 Dictionary of American slang covering all eras of American history with accurate definitions and extensive dated citations **American English Compendium** Marv Rubinstein, 2011-12-01 A compendium of American proverbs expressions slang colloquialisms British US glossary abbreviations and acronyms and other various odds and ends Widely used by non native speakers and translators **21st Century American English Compendium** Marvin Rubinstein, 2006 A compendium of American proverbs expressions slang colloquialisms British US glossary abbreviations and acronyms and other various odds and ends Widely used by non native speakers and translators **Cultural, Psychological and Typological Issues in Cognitive Linguistics** Masako K. Hiraga, Chris Sinha, Sherman Wilcox, 1999-10-15 Cognitive linguistics is nothing if not an interdisciplinary and comparative enterprise This collection addresses both the implications OF and the implications FOR cognitive linguistics of psycholinguistic computational neuroscientific cross cultural and cross linguistic research Racism in Contemporary America Meyer Weinberg, 1996-05-23 Racism in Contemporary America is the largest and most up to date bibliography available on current research on the topic It has been compiled by award winning researcher Meyer Weinberg who has spent many years writing and researching contemporary and historical aspects of racism Almost 15 000 entries to books articles dissertations and other materials are organized under 87 subject headings In addition there are author and ethnic racial indexes Several aids help the researcher access the materials included In addition to the subject organization of the bibliography entries are annotated whenever the title is not self explanatory An author index is followed by an ethnic racial index which makes it convenient to follow a single group through any or all the subject headings This is a source book for the serious study of America s most enduring problem as such it will be of value to students and researchers at all levels and in most disciplines Studies in Etymology and Etiology David L. Gold, 2009 Dictionaries usually give only brief treatment to etymologies and even etymological dictionaries often do not lavish on them the attention which many deserve To help fill the gap the author deals in depth with several etymologically problematic words in various Germanic Jewish Romance and Slavic languages all of which have hitherto either been misetymologized or not etymologized at all Sometimes he succeeds in cracking the nut Sometimes he is able only to clear away misunderstanding and set the stage for further treatment Usually he marshals not only linguistic but also historical and cultural information Since this book also discusses methodology it has the makings of an introduction to the science art and craft of etymology David L Gold is the founder of the Jewish Name and Family Name File the Jewish English Archives and the Association for the Study of Jewish Languages as well as the editor of Jewish Language Review and Jewish Linguistic Studies **Vanity Fair**, 1996 Word Myths David Wilton, 2008-11-06 Do you know that posh comes from an acronym meaning port out starboard home That the whole nine yards comes from pick one the length of a WWII gunner s belt the amount of fabric needed to make a kilt a sarcastic football

expression That Chicago is called The Windy City because of the bloviating habits of its politicians and not the breeze off the lake If so you need this book David Wilton debunks the most persistently wrong word histories and gives to the best of our actual knowledge the real stories behind these perennially mis etymologized words In addition he explains why these wrong stories are created disseminated and persist even after being corrected time and time again What makes us cling to these stories when the truth behind these words and phrases is available for the most part at any library or on the Internet Arranged by chapters this book avoids a dry A Z format Chapters separate misetymologies by kind including The Perils of Political Correctness picnics have nothing to do with lynchings Posh Phat Pommies the problems of bacronyming the desire to make every word into an acronym and CANOE which stands for the Conspiracy to Attribute Nautical Origins to Everything Word Myths corrects long held and far flung examples of wrong etymologies without taking the fun out of etymology itself It is the best of both worlds not only do you learn the many wrong stories behind these words you also learn why and how they are created and what the real story is
