The Board's scope was broadened; it was renamed the Space Studies Board and among other new initiatives the Committee on Human Exploration was created. The new committee was intended to focus on the scientific aspects of human exploration programs rather than engineering issues. Their research led to three reports: *Scientific Prerequisites for the Human Exploration of Space* published in 1993, *Scientific Opportunities in the Human Exploration of Space* published in 1994, and *Science Management in the Human Exploration of Space* published in 1997. These three reports are collected and reprinted in this volume in their entirety as originally published. *Exploring Space* William E. Chapters discuss the evolution of astronomy, early attempts at manned flight, the race between the Soviet Union and the United States to land on the moon, the advances in science yielding from space exploration that have changed life on Earth and the future of space exploration as space programs contract and budgets tighten. **Space Rangers vs. Cosmic Dragons** Pasquale De Marco, 2025-08-12 Prepare yourself for an awe-inspiring journey through the cosmos in *Space Rangers vs Cosmic Dragons*, a captivating exploration of the epic conflict between the Space Rangers and the Cosmic Dragons.
