Hewitt, Anna E. Kosloski, 2016-09-13 The ideal introductory criminal justice text book Exploring Criminal Justice The Essentials Third Edition examines the relationships between law enforcement corrections law policy making and administration the juvenile justice system and the courts *Congressional Record* United States. Congress, 2000 *The Best Interests of the Child* Joseph Goldstein, 1996 The least detrimental alternative the authors seminal principle for safeguarding a child's growth and development by minimizing intrusions of the law has been cited in more than 1 000 child custody cases since 1973 *Closing the Justice Gap for Adult and Child Sexual Assault* Anne Cossins, 2020-10-21 This book examines the justice gap and trial process for sexual assault against both adults and children in two jurisdictions England and Wales and New South Wales Australia Drawing on decades of research it investigates the reality of the policing and prosecution of sexual assault offences often seen as one of the hardest crimes to prosecute across two similar jurisdictions

Despite the introduction of the many reform options detailed in the book satisfactory outcomes for victims and the public are still difficult to obtain Cossins takes a new approach by examining the nature and effects of adversarialism on vulnerable witnesses jury decision making and the structures of power within the trial process to show how and at what points that process is weighted against complainants of sexual assault in order to make evidence based suggestions for reform She argues that this justice gap is a result of a moralisticadversarial culture which fosters myths and misconceptions about rape and child sexual assault thus requiring the prosecution to prove a complainant s moral worthiness She argues this culture can only be eliminated by a radical replacement of the adversarial system with a trauma informed system By reviewing the relevant psychological literature this book documents the triggers for re traumatisation within an adversarial trial and discusses the reform measures that would be necessary to transform the sexual assault trial from one where the complainant s moral worthiness is on trial to a fully functioning trauma informed system It speaks to students and academics across subjects including law criminology gender studies and psychology and practitioners in law and victim services as well as policy makers
