United States Army Logistics, 1775-1992 Charles R. Shrader, 1997 *The U.S. Intervention in Lebanon, 1958* David W. Gray, Combat Studies Institute (U.S.), 1984 General Gray was contacted by Major Wade to offer input regarding his participation in the 1958 intervention in Lebanon General Gray responded with this paper which provides information about logistics and a detailed and candid account of his activities General Gray also disputed some of the information in the Leavenworth Paper No 3 Not war but like war by historian Dr Roger Spiller *U.S. Army Counterinsurgency and Contingency Operations Doctrine, 1942-1976* Andrew James Birtle, 2006 CMH Pub 70 98 1 This study examines the nature of counterinsurgency and nation building missions the institutional obstacles inherent in dealing effectively with such operations and the strengths and weaknesses of U S doctrine including the problems that can occur when that doctrine morphs into dogma **U.S. Army counterinsurgency and contingency operations doctrine, 1942-1976**

(Paperbound) Andrew James Birtle, 2006 **Eisenhower 1956** David A. Nichols, 2012-02-14 Draws on hundreds of newly declassified documents to present an account of the Suez crisis that reveals the considerable danger it posed as well as the influence of Eisenhower's health problems and the 1956 election campaign Monthly Catalogue, United States Public Documents, 1985 *Monthly Catalog of United States Government Publications* United States. Superintendent of Documents, 1985 February issue includes Appendix entitled Directory of United States Government periodicals and subscription publications September issue includes List of depository libraries June and December issues include semiannual index *A Military History of the Cold War, 1944-1962* Jonathan M. House, 2014-04-28 The Cold War did not culminate in World War III as so many in the 1950s and 1960s feared yet it spawned a host of military engagements that affected millions of lives This book is the first comprehensive multinational overview of military affairs during the early Cold War beginning with conflicts during World War II in Warsaw Athens and Saigon and ending with the Cuban Missile Crisis A major theme of

this account is the relationship between government policy and military preparedness and strategy Author Jonathan M House tells of generals engaging in policy confrontations with their governments political leaders among them Anthony Eden Nikita Khrushchev and John F Kennedy many of whom made military decisions that hamstrung their own political goals In the pressure cooker atmosphere of atomic preparedness politicians as well as soldiers seemed instinctively to prefer military solutions to political problems And national security policies had military implications that took on a life of their own The invasion of South Korea convinced European policy makers that effective deterrence and containment required building up and maintaining credible forces Desire to strengthen the North Atlantic alliance militarily accelerated the rearmament of West Germany and the drive for its sovereignty In addition to examining the major confrontations nuclear and conventional between Washington Moscow and Beijing including the crises over Berlin and Formosa House traces often overlooked military operations against the insurgencies of the era such as French efforts in Indochina and Algeria and British struggles in Malaya Kenya Cyprus and Aden Now more than fifty years after the events House describes understanding the origins and trajectory of the Cold War is as important as ever By the late 1950s the United States had sent forces to Vietnam and the Middle East setting the stage for future conflicts in both regions House s account of the complex relationship between diplomacy and military action directly relates to the insurgencies counterinsurgencies and confrontations that now occupy our attention across the globe

One Hundred Years of Sea Power George W. Baer,1996-07-01 A navy is a state s main instrument of maritime force What it should do what doctrine it holds what ships it deploys and how it fights are determined by practical political and military choices in relation to national needs Choices are made according to the state s goals perceived threat maritime opportunity technological capabilities practical experience and not the least the way the sea service defines itself and its way of war This book is a history of the modern U S Navy It explains how the Navy in the century after 1890 was formed and reformed in the interaction of purpose experience and doctrine

,1985 **The Small Wars of the United States, 1899-2009** Benjamin R. Beede,2012-08-06 The Small Wars of the United States 1899 2009 is the complete bibliography of works on US military intervention and irregular warfare around the world as well as efforts to quell insurgencies on behalf of American allies The text covers conflicts from 1898 to present with detailed annotations of selected sources In this second edition Benjamin R Beede revises his seminal work bringing it completely up to date including entries on the current conflicts in Iraq and Afghanistan An invaluable research tool The Small Wars of the United States 1899 2009 is a critical resource for students and scholars studying US military history

The Limits of Humanitarian Intervention Alan J. Kuperman,2004-05-13 In 1994 genocide in Rwanda claimed the lives of at least 500 000 Tutsi some three quarters of their population while UN peacekeepers were withdrawn and the rest of the world stood aside Ever since it has been argued that a small military intervention could have prevented most of the killing In The Limits of Humanitarian Intervention Alan J Kuperman exposes such conventional wisdom as myth Combining unprecedented

analyses of the genocide's progression and the logistical limitations of humanitarian military intervention Kuperman reaches a startling conclusion even if Western leaders had ordered an intervention as soon as they became aware of a nationwide genocide in Rwanda the intervention forces would have arrived too late to save more than a quarter of the 500 000 Tutsi ultimately killed Serving as a cautionary message about the limits of humanitarian intervention the book's concluding chapters address lessons for the future

The Airborne Mafia Robert F. Williams, 2025-03-15 The Airborne Mafia explores how a small group of World War II airborne officers took control of the US Army after World War II This powerful cadre cemented a unique airborne culture that had an unprecedented impact on the Cold War US Army and beyond Robert F Williams reveals the trials and tribulations this group of officers faced in order to bring about their vision He spotlights the relationship between organizational culture operational behavior and institutional change in the United States Army during the Cold War showing that as airborne officers ascended to the highest ranks of the army they transmitted their culture throughout their service in four major ways civil military relations preparation for potential atomic combat helicopter airmobility and strategic response forces Experiences of training and commanding airborne divisions in World War II led these men to hold sway in army doctrine by the mid 1950s Dominating institutional thought and imparting their values beliefs and norms throughout the service they enjoyed a special privilege within the group culture Williams demonstrates this impact privilege and power by focusing on the paratrooper triumvirate of Matthew Ridgway Maxwell Taylor and James Gavin and the lasting impression they made on how the US Army fought The Airborne Mafia illuminates the power subcultures can have in changing their parent cultures over time particularly one as set in its ways and as large as the US Army With a deft touch deep research and an unwavering eye for the human stories behind organizational change Williams helps explain the existence and importance of the paratrooper mystique that remains within the military still today

Eisenhower Jim Newton, 2012-10-02 Newly discovered and declassified documents make for a surprising and revealing portrait of the president we thought we knew America's thirty fourth president was belittled by his critics as the babysitter in chief This new look reveals how wrong they were Dwight Eisenhower was bequeathed the atomic bomb and refused to use it He ground down Joseph McCarthy and McCarthyism until both became as he said McCarthywasm He stimulated the economy to lift it from recession built an interstate highway system turned an 8 billion deficit in 1953 into a 500 million surplus in 1960 Ike was the last President until Bill Clinton to leave his country in the black The President Eisenhower of popular imagination is a benign figure armed with a putter a winning smile and little else The Eisenhower of veteran journalist Jim Newton's rendering is shrewd sentimental and tempestuous He mourned the death of his first son and doted on his grandchildren but could one aide recalled peel the varnish off a desk with his temper Mocked as shallow and inarticulate he was in fact a meticulous manager Admired as a general he was a champion of peace In Korea and Vietnam in Quemoy and Berlin his generals urged him to wage nuclear war Time and again he considered the idea and rejected it And it was Eisenhower who

appointed the liberal justices Earl Warren and William Brennan and who then called in the military to enforce desegregation in the schools Rare interviews newly discovered records and fresh insights undergird this gripping and timely narrative

The United States Military in Limited War Kevin Dougherty, 2012-10-16 After World War II the United States military increasingly found itself involved in operations that have been described variously as limited wars small wars low intensity conflicts operations other than war support and stability operations and the like The most common name throughout much of the 1990s was operations other than war OOTW During this period there was an explosion of doctrinal material on the subject including a 1993 official field manual listing six principles of OOTW objective unity of effort legitimacy perseverance restraint and security The author of the present work examines four successful OOTWs the Greek Civil War Lebanon the Dominican Republic and Nicaragua Honduras and four failed ones Vietnam Beirut Somalia and Haiti and concludes there is a positive correlation between adherence to the principles and an operation's outcome

Selling Intervention and War Jon Western, 2021-02-10 Selling Intervention and War examines the competition among foreign policy elites in the executive branch and Congress in winning the hearts and minds of the American public for military intervention The book studies how the president and his supporters organize campaigns for public support for military action According to Jon Western the outcome depends upon information and propaganda advantages media support or opposition the degree of cohesion within the executive branch and the duration of the crisis Also important is whether the American public believes that military threat is credible and victory plausible Not all such campaigns to win public support are successful in some instances foreign policy elites and the president and his advisors have to back off Western uses several modern conflicts including the current one in Iraq as case studies to illustrate the methods involved in selling intervention and war to the American public the decision not to intervene in French Indochina in 1954 the choice to go into Lebanon in 1958 and the more recent military actions in Grenada Somalia Bosnia and Iraq Selling Intervention and War is essential reading for scholars and students of U S foreign policy international security the military and foreign policy and international conflict
